The Reception of the Homeric Hymns Andrew Faulkner, Athanassios Vergados, Andreas Schwab, 2016-11-17 The Reception of the Homeric Hymns is a collection of original essays exploring the reception of the Homeric Hymns and other early hexameter poems in the literature and scholarship of the first century BC and beyond Although much work has been done on the Hymns over the past few decades and despite their importance within the Western literary tradition their influence on authors after the fourth century BC has so far received relatively little attention and there remains much to explore particularly in the area of their reception in later Greco-Roman literature and art This volume aims to address this gap in scholarship by discussing a variety of Latin and Greek texts and authors across the late Hellenistic Imperial and Late Antique periods including studies of major Latin authors such as Virgil Horace and Ovid and Byzantine authors writing in classicizing verse While much of the book deals with classical reception of the Hymns including looking beyond the textual realm to their influence on art the editors and contributors have extended its scope to include discussion of Italian literature of the fifteenth century German scholarship of the nineteenth century and the English Romantic poets demonstrating the enduring legacy of the Homeric Hymns in the literary world **Homeric Hymns** Homer, 2021-05-30 The Homeric Hymns is

a collection of thirty three ancient Greek hymns celebrating individual gods The hymns employ the same epic meter dactylic hexameter as the Iliad and Odyssey use many similar formulas and are couched in the same dialect

Chapman's Homeric Hymns and Other Homerica Homer,2021-03-09 George Chapman s translations of Homer immortalized by Keats s sonnet are the most famous in the English language Swinburne praised their romantic and sometimes barbaric grandeur their freshness strength and inextinguishable fire And the great critic George Saintsbury wrote For more than two centuries they were the resort of all who unable to read Greek wished to know what the Greek was Chapman is far nearer Homer than any modern translator in any modern language This volume presents the original text of

Chapman's translation of the Homeric hymns. The hymns believed to have been written not by Homer himself but by followers who emulated his style are poems written to the gods and goddesses of the ancient Greek pantheon. The collection originally titled by Chapman *The Crowne of all Homers Workes* also includes epigrams and poems attributed to Homer and known as *The Lesser Homerica* as well as his famous *The Battle of Frogs and Mice*. **Poems without Poets** Boris Kayachev, 2021-03-31. The canon of classical Greek and Latin poetry is built around big names with Homer and Virgil at the center but many ancient poems survive without a firm ascription to a known author. This negative category of anonymity ties together texts as different as for instance the orally derived Homeric Hymns and the learned interpolation that is the Helen episode in Aeneid 2 but they all have in common that they have been maltreated in various ways consciously or through neglect by generations of readers and scholars ancient as well as modern. These accumulated layers of obliteration which can manifest for instance in textual distortions or aesthetic condemnation make it all but impossible to access anonymous poems in their pristine shape and context. The essays collected in this volume attempt each in its own way to disentangle the bundles of historically accreted uncertainties and misconceptions that affect individual anonymous texts including pseudepigrapha ascribed to Homer, Manetho, Virgil and Tibullus, literary and inscribed epigrams and unattributed fragments. *Poems without Poets* will be of interest to students and scholars working on any anonymous ancient texts but also to readers seeking an introduction to classical poetry beyond the limits of the established canon. **Classified Catalog of the Carnegie Library of Pittsburgh. 1895-1902. In Three Volumes** Carnegie Library of Pittsburgh, 1907. *Eos CVII (2020), fasc. 1-2* Jakub Pigoń, Krzysztof Nawotka, *Theologies of Fear in Early Greek Epic* Carman Romano, 2024-09-24. This book explores the theological significance of horror elements in the works of Hesiod and in the Homeric Hymns for the characters within these poems, the mortal audience consuming them and the poet responsible for mythopoesis. *Theologies of Fear in Early Greek Epic* argues that just as modern supernatural horror fiction can be analyzed to reveal popular conceptions of the divine, so too can the horrific elements in early Greek epic. Romano develops this analogy to show how myth makers chose to include or omit or nuance horror elements from their narratives in order to communicate theological messages. By employing methodological approaches from religious studies, classical studies and literary studies of supernatural horror fiction, this book brings a fresh perspective to our understanding of how the Greeks viewed their gods and how poets helped to create that view. *Theologies of Fear in Early Greek Epic* will be of interest to scholars in classical studies, religious studies and comparative literature as well as students in courses on myth, religion and Greek culture and society. **The Homeric Hymns** Homer, 2017-07-23. The Homeric Hymns are a collection of thirty-three anonymous ancient Greek hymns celebrating individual gods. The hymns are Homeric in the sense that they employ the same epic meter, dactylic hexameter, as the *Iliad* and *Odyssey*; use many similar formulas and are couched in the same dialect. They were uncritically attributed to Homer himself in antiquity from the earliest written reference to them, Thucydides iii 104, and the label has stuck. The whole collection as a collection is Homeric.

in the only useful sense that can be put upon the word A W Verrall noted in 1894 that is to say it has come down labeled as Homer from the earliest times of Greek book literature The oldest of the hymns were probably written in the seventh century BC somewhat later than Hesiod and the usually accepted date for the writing down of the Homeric epics This still places the older Homeric Hymns among the oldest monuments of Greek literature but although most of them were composed in the seventh and sixth centuries a few may be Hellenistic and the Hymn to Ares might be a late pagan work inserted when it was observed that a hymn to Ares was lacking Walter Burkert has suggested that the Hymn to Apollo attributed by an ancient source to Cynaethus of Chios a member of the Homeridae was composed in 522 BC for performance at the unusual double festival held by Polycrates of Samos to honor Apollo of Delos and of Delphi The hymns which must be the remains of a once more strongly represented genre vary widely in length some being as brief as three or four lines while others are in excess of five hundred lines The long ones comprise an invocation praise and narrative sometimes quite extended In the briefest ones the narrative element is lacking The longer ones show signs of having been assembled from pre existing disparate materials Most surviving Byzantine manuscripts begin with the third Hymn A chance discovery in Moscow in 1777 recovered the two hymns that open the collection the fragmentary To Dionysus and To Demeter complete save some lacunose lines in a single fifteenth century manuscript Some at least of the shorter ones may be excerpts that have omitted the narrative central section preserving only the useful invocation and introduction which a rhapsode could employ in the manner of a prelude The thirty three hymns praise most of the major gods of Greek mythology at least the shorter ones may have served as preludes to the recitation of epic verse at festivals by professional rhapsodes often the singer concludes by saying that now he will pass to another song A thirty fourth To Hosts is not a hymn but a reminder that hospitality is a sacred duty enjoined by the gods a pointed reminder when coming from a professional rhapsode
