

A brass astrolabe, a model of objects in the sky, is shown floating over a dark, textured surface that resembles water or a celestial map. The astrolabe is made of polished brass and has a circular frame with a grid of lines. It is tilted slightly, and its reflection is visible on the surface below. The background is dark and textured, with some lighter areas that suggest a map or a celestial chart. The overall mood is mysterious and ancient.

The Bible Made Impossible Christian Smith, 2012-08-01 Biblicism an approach to the Bible common among some American evangelicals emphasizes together the Bible's exclusive authority infallibility clarity self sufficiency internal consistency self evident meaning and universal applicability Acclaimed sociologist Christian Smith argues that this approach is misguided and unable to live up to its own claims If evangelical biblicism worked as its proponents say it should there would not be the vast variety of interpretive differences that biblicists themselves reach when they actually read and interpret the Bible Far from challenging the inspiration and authority of Scripture Smith critiques a particular rendering of it encouraging evangelicals to seek a more responsible coherent and defensible approach to biblical authority This important book has generated lively discussion and debate The paperback edition adds a new chapter responding to the conversation that the cloth edition has sparked
