The Architecture of Fundamental Rights in the European Union Šejla Imamovic, 2022-02-10 This book analyses the new architecture for the protection of fundamental rights in Europe after the entry into force of the Lisbon Treaty As a starting point it identifies how the EU has gained a prominent role in promoting and protecting fundamental rights at European level despite the absence of an unlimited mandate to address fundamental rights violations This new setting affects the traditional relationship between the EU the ECHR system and the Member States and in the absence of EU accession to the ECHR enhances the risk of tensions and conflicts between the case law of the two European Courts Examples of these tensions and conflicts are explored in the Area of Freedom Security and Justice which is one of the most fundamental rights sensitive areas of EU law and one of the busiest areas of activity for the CJEU The book offers new insights into existing rules on the resolution of conflicts between EU and ECHR law before mapping out techniques actually used by domestic courts to avoid or address such conflicts

Limits to the European Union's Normative Power in a Post-conflict Society Rok Zupančič, Nina Pejič, 2018-04-17 By shedding light on EULEX the EU mission to Kosovo this open access book investigates the EU's peacebuilding activities in that country in the light of the normative power theory in the post conflict setting and peacebuilding theory Ten years after the massive engagement of the EU in the country torn by war the authors critically assess the effects of the EU projecting its normative power the enforcement of its standards good or bad through the EULEX mission taking into consideration also the local aspects so far neglected in this field of research Inspecting thoroughly the EULEX activities in the police customs and judiciary sector the authors reveal that the mission can contribute to a positive change but only in those cases which do not request a heavy political involvement and broad leverage by other international players for example in improving standards of work in police and customs When it comes to the most serious cases of organized crime corruption and war crimes EULEX however has not been able to address them effectively due to several internal mission's deficiencies and external factors the perceived ineffectiveness of EULEX among the local population led to the lowering of trust not only in this CSDP mission but also in the EU in general This open access book offers a comprehensive assessment of the EULEX mission based on two Horizon2020 research projects IECEU Improving the Effectiveness of Capabilities in EU Conflict Prevention and KOSNORTH The European Union and its Normative Power in a Post conflict Society A Case Study of Northern Kosovo Marie Skłodowska Curie Individual Fellowship As such it is an invaluable resource for scholars students and policymakers interested in security questions in South Eastern Europe and EU external action

The European Union and International Investment Law Francesco Montanaro, 2023-03-23 This book explores the interaction between the EU and international investment law both at the internal level namely within the EU internal market and at the external level i.e. in the context of its relations with third States The joint treatment of these dimensions reveals that the EU has assumed an ostensibly ambivalent attitude towards international investment law At the internal level it has consistently asserted that intra EU international investment agreements IIAs are not compatible with EU law and advocated their termination At the external level by contrast it has eagerly deployed IIAs to develop its post Lisbon international investment policy The book finds that beneath this apparent ambivalence towards international investment law ultimately lies the EU's attempt to impose both internally and externally its own original model of regulation of cross border investment It then argues that the EU adopted this approach with a view to supporting its internal market enhancing its external influence and ultimately pursuing long term federal aspirations Finally the book identifies the legal and political obstacles that have curtailed the EU's efforts at both the internal and the external level
