Counter,2016-09-22 When Louis XVIII returned to the throne in 1814 and again in 1815 France embarked upon a period of uneasy cohabitation between the old and the new The writers of the age who included Chateaubriand Stendhal Balzac and Mme de Duras agreed that they lived at a historical turning point a transitional moment

whose outcome though still uncertain would transform the French way of life beginning with the French way of love The literary works of the Bourbon Restoration ceaselessly return to the themes of love sex and marriage partly as vital cultural questions in their own right but also as a means of critiquing the deficiencies of past regimes negotiating the politics of the present and imagining the shape of the political future In the literature of the Restoration love and politics become entwined in a mutually metaphorical embrace The Amorous Restoration the first book in English devoted to literary and cultural life under the last Bourbon kings considers this relationship in all its richness and many contradictions Long neglected as a drab historical backwater the Restoration emerges here as a vibrant era one rife with sharp cultural and political disagreements and possessed of an especially refined sense of allusion discretion and even humour Drawing on literature journalism political writing life writing and gossip The Amorous Restoration vividly recreates the erotic sensibilities of a pivotal moment in the transition from an amorous old regime to erotic and political modernity The Origins of French Romanticism Margery B.
