Walker Evans Photographer Of America:

Walker Evans Thomas Nau, 2007-04-03 Walker Evans was one of America's greatest photographers Walker Evans
Walker Evans, Lincoln Kirstein, 2006-09-01 The use of the visual arts to show us our own moral and economic situation has today fallen almost completely into the hands of the photographer. It is for him to fix and to reveal the whole aspect of our society to record for use in the future our disasters and our claims to divinity. Walker Evans photographing in New England or Louisiana watching a Cuban political funeral or a Mississippi flood working cautiously so as to disturb nothing in the normal atmosphere of the average place can be considered a kind of disembodied burrowing eye, a conspirator against time and its hammers. His photographs are the records of contemporary civilization in eastern America. In the reproductions presented here two large divisions have been made. The photographs are arranged to be seen in their given sequence. In the first part which might be labeled People by Photography we have an aspect of America for which it would be difficult to claim too much. The physiognomy of a nation is laid on your table. In the second part are pictures which refer to the continuous fact of an indigenous American expression whatever its source whatever form it has taken whether in sculpture, paint, or architecture that native accent we find again in Kentucky mountain and cowboy ballads and in contemporary swing music from the jacket of the 1938 edition. More than any other artist Walker Evans invented the image of essential America that we have long since accepted as fact. His work presented in stark and prototypical form in *American Photographs* has made its impact not only on photography but also on modern literature, film, and the traditional visual arts. First published in 1938 by The Museum of Modern Art, *American Photographs* has often been out of print. This edition uses duotone plates made for the 1988 edition from original prints and makes Evans' landmark book available again. The design and typography have been recreated as precisely as possible. **American Photographs** Walker Evans, Lincoln Kirstein, John T. Hill, Jeffrey Ladd, 2011
Walker Evans' *American Photographs* is widely deemed the most important photobook ever published. Originally conceived to be a catalogue to accompany his one-man show at The Museum of Modern Art in 1938, the first solo show MoMA had given to a photographer, it quickly became a document so definitive of its era that curator John Szarkowski wrote that it was difficult to know now whether Walker Evans recorded the America of his youth or invented it. The book opens with images that cite photography immediately establishing a tension between medium and message, although it is certainly for the message that Evans has become famous. *American Photographs* points over and over again to the unhappy lot of the poor and the dispossessed in 1930s America. Lincoln Kirstein's accompanying essay, famous in its own right, declares: "What poet has said as much. Only newspapers, the writers of popular music, the technicians of advertising and radio have in their blind energy accidentally fortuitously evoked for future historians such a powerful monument to our moment." And Evans' work has in addition intention, logic, continuity, climax, sense, and perfection. *American Photographs* continues to go out of print for long stretches of time and the first edition of Errata's 2009 spread-by-spread reprint followed suit. This revised edition of that

volume presents the original 1938 edition with its 87 legendary black and white photographs reproduced in full page rather than quarter page spreads the classic Kirstein essay and a contemporary essay by Evans scholar John T Hill Born in St Louis Missouri Walker Evans 1903 1975 took up photography in 1928 His book collaboration with James Agee *Let Us Now Praise Famous Men* 1941 which portrayed the lives of three white tenant families in southern Alabama during the Depression has become one of that era s most defining documents Evans joined the staff of *Time* magazine in 1945 and shortly after moved to *Fortune* where he stayed until 1965 That year he became a professor of photography at the Yale University School of Art Evans died at his home in Old Lyme Connecticut in 1975 The Errata Editions Books on Books series is an ongoing publishing project dedicated to making rare and out of print photography books accessible to students and photobook enthusiasts These are not reprints or facsimiles but complete studies of the original books Each volume in the series presents the entire content page for page of an original master bookwork which up until now has been too rare or expensive for most to experience Through a mix of classic and contemporary titles this series spans the breadth of photographic practice as it has appeared on the printed page and allows further study of the creation and meanings of these great works of art Each volume in the series contains illustrations of every page in the original photobook a new essay by an established writer on photography production notes about the creation of the original edition and biographical and bibliographical information about each artist

Svetlana Alpers, 2023-11-07 A magisterial study of celebrated photographer Walker Evans Walker Evans 1903-75 was a great American artist photographing people and places in the United States in unforgettable ways He is known for his work for the Farm Security Administration addressing the Great Depression but what he actually saw was the diversity of people and the damage of the long Civil War In Walker Evans renowned art historian Svetlana Alpers explores how Evans made his distinctive photographs Delving into a lavish selection of Evans's work Alpers uncovers rich parallels between his creative approach and those of numerous literary and cultural figures locating Evans within the wide context of a truly international circle Alpers demonstrates that Evans's practice relied on his camera choices and willingness to edit multiple versions of a shot as well as his keen eye and his distant straight-on view of visual objects Illustrating the vital role of Evans's dual love of text and images Alpers places his writings in conversation with his photographs She brings his techniques into dialogue with the work of a global cast of important artists from Flaubert and Baudelaire to Elizabeth Bishop and William Faulkner underscoring how Evans's travels abroad in such places as France and Cuba along with his expansive literary and artistic tastes informed his quintessentially American photographic style A magisterial account of a great twentieth-century artist Walker Evans urges us to look anew at the act of seeing the world to reconsider how Evans saw his subjects how he saw his photographs and how we can see his images as if for the first time
