Walter Benjamin

Walter Benjamin Selected Writings Volume 2 Part 2 1931 1934:

Selected Writings: 1927-1934 Walter Benjamin, Howard Eiland, Gary Smith, 1996 Comprising more than 65 pieces journal articles reviews extended essays sketches aphorisms and fragments this volume shows the range of Walter Benjamin s writing His topics here include poetry fiction drama history religion love violence morality and mythology **Selected Writings** Walter Benjamin, 1999 This volume brings together previously untranslated writings on major figures such as Brecht Val ry and Gide and on subjects ranging from film radio and the novel to memory kitsch and the theory of language We find the manifoldly inquisitive Benjamin musing on the new modes of perception opened up by techniques of photographic enlargement and cinematic montage on the life and work of Goethe at Wiemar on the fascination of old toys and the mysteries of food and on the allegorical significance of Mickey Mouse dust jacket *Walter Benjamin's Antifascist Education* Tyson E. Lewis, 2020-02-01 A comprehensive study of education in the writings of Walter Benjamin Walter Benjamin s Antifascist Education is the first comprehensive analysis of educational themes across the entirety of the critical theorist s diverse writings Starting with Benjamin s early reflections on teaching and learning Tyson E Lewis argues that the aesthetic and cultural forms to which Benjamin so often turned namely radio broadcasts children s theatrical productions collections cityscapes public cinemas and word games swell with educational potentialities What emerges from Lewis s reading is a constellational curriculum composed of minor practices such as poor teaching absentminded learning and nondurational studying This curriculum carries political significance offering an antidote to past and present forms of fascist manipulation hardness and coldness Walter Benjamin s Antifascist Education is a testimony to Benjamin s belief that everyone is an educator and everyone needs to be educated and everything is education Taking up the multifaceted Benjaminian conception of educational life a life of studious straying and self reflection at once critical and mimetic and following its untoward trajectory in object areas as diverse as slapstick film riddles cityscapes and children s theater this subtle imaginative and comprehensive analysis speaks directly to the moral and spiritual crisis of the present Howard Eiland Massachusetts Institute of Technology **Adorno's Critique of Political Economy** Dirk Braunstein, 2022-11-21 To this day there persists a widespread assumption that Adorno s references to Marx and especially to Marx s critique of political economy represent a relic from an early and short lived stage of Adorno s theoretical development On the basis of relevant and largely unpublished textual sources this book refutes this thesis while showing that the centre of Adorno s critical theory of society is occupied by a critique not only of political economy but of economy in general **Agamben and the Signature of Astrology** Paul Colilli, 2015-10-16 The work of Giorgio Agamben one of the world s most important living philosophers has been the object of much scrutiny Yet there is one dimension of his thought that remains unexamined by scholars the presence of the ancient science of astrology in his writings This book the first of its kind identifies the astrological elements and explains the implications of their usage by Agamben In so doing this study challenges us to imagine Agamben s thought in a

radically new light A critical account of the presence of astrology and related themes in Agamben's writings ranging from the earlier works to the more recent publications illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works such as potentiality the signature bare life and biopolitics **Ruins in the Literary and Cultural Imagination** Efterpi Mitsi, Anna

Despotopoulou, Stamatina Dimakopoulou, Emmanouil Aretoulakis, 2019-11-28 This book focuses on literal and metaphorical ruins as they are appropriated and imagined in different forms of writing Examining British and American literature and culture in the nineteenth and twentieth centuries the book begins in the era of industrial modernity with studies of Charles Dickens Thomas Hardy Henry James and Daphne Du Maurier It then moves on to the significance of ruins in the twentieth century against the backdrop of conflict waste and destruction analyzing authors such as Beckett and Pinter Kurt Vonnegut Robert Lowell Anne Sexton and Leonard Cohen The collection concludes with current debates on ruins through discussions of Walter Benjamin and Bertolt Brecht as well as reflections on the refugee crisis that take the ruin beyond the text offering new perspectives on its diverse legacies and conceptual resources **The Palgrave Walter Benjamin Handbook** Nathan Ross, 2025-02-26 Walter Benjamin is one of the most influential authors in contemporary humanities exerting a deep fascination for students and garnering scholarly interest in a variety of fields such as history of philosophy literature film and media studies political science religion architecture art and history This Handbook provides students and scholars with a guide to Walter Benjamin's work that explores each of these areas in depth while also giving the reader a chance to discover connections to other areas of thought In order to do justice to the complexity of Benjamin's thinking this volume includes international scholars from a variety of academic disciplines and is organized such that a dialogue emerges between them Each section presents an argument for the integration of its subject into the whole demonstrating that what might seem specialized and esoteric actually intersects with the problems and questions of the other sections **Urban**

Phantasmagorias Iulia Stătică, 2023-11-30 Urban Phantasmagorias examines the legacies of socialist housing in the city of Bucharest during the period of communist rule in Romania The book explores the manner in which the socialist state reconfigured the city through concrete acts of demolition and construction as well as indirectly through legal frameworks aimed at the regulation of women's reproductive agency in an attempt to materialize its idea of modernity It follows the effects of this state agenda with a focus on the period between 1965 and 1989 through an investigation of the transformations representations meanings and uses of domestic spaces The book draws on Walter Benjamin's concept of phantasmagoria which provides a critical framework through which it articulates the dynamic relationship between ideology architecture and everyday practices and reassesses their impact upon individual subjectivity and agency The woman emerges as a central subject of the book upon whom the phantasmagoric effects of the socialist state's modernizing agenda have an acute impact at the level of lived domesticity and everyday life Through a focus on the lived experiences of women the book

illuminates the prismatic effect of the state's infrastructural and legal intentions including the ways in which these were subverted through women's lived bodily experiences of the home The book establishes both theoretically and through the concrete case of the city of Bucharest the methodological significance of Benjamin's notion of phantasmagoria as an epistemological approach to a modern communist cityscape Urban Phantasmagorias is an important contribution to scholarship in architectural history and theory urban and gender studies and post socialist and Eastern European studies

Rethinking Marxist Approaches to Transition Onur Acaroglu, 2020-09-25 In Rethinking Marxist Theories of Transition Onur Acaroglu traces the concept of transition across the tracts of Classical and Western Marxism Rarely directly invoked transition between different societies appears as an imminent social reality and a useful conceptual tool for critical social theory Transitions as qualitative shifts between societies are often considered as eventual historical stages or effaced altogether Theorising transition in a new direction Onur Acaroglu elaborates a theory of temporal dislocation Considering transition through a framework of out of joint temporalities the notion comes through as an undervalued tendency in social reproduction Drift Net Chris Campanioni, 2025-06-10 Theorizes literature and art produced through experiences of migration detention and exile
