Warriors Without Weapons The Victimization Of Military Women:

Warriors Without Weapons Donna M. Dean, 1997 *A Companion to Women's Military History*, 2012-08-17 Military institutions have everywhere and always shaped the course of history but women's near universal participation in them has largely gone unnoticed This volume addresses the changing relationships between women and armed forces from antiquity to the present The eight chapters in Part I present broad scholarly reviews of the existing literature to provide a clear understanding of where we stand An extended picture essay documents visually women's military work since the sixteenth century The book's second part comprises eight exemplary articles more narrowly focused than the survey articles but illustrating some of their major themes Military history will benefit from acknowledging women's participation as will women's history from recognizing military institutions as major factors in molding women's lives Contributors include Jorit Wintjes Mary Elizabeth Ailes John A Lynn Barton C Hacker Kimberly Jensen Margaret Vining D Ann M Campbell Carol B Stevens Jan Noel Elizabeth Prelinger Donna Alvah Karen Hagemann Yehudit Kol Inbar Dorotea Gucciardo and Megan Howatt and Judith Hicks Stiehm

Wives and Warriors Laurie Weinstein, Christie White, 1997-04-22 This book is about the women who serve the military as wives and those who serve as soldiers sailors and flyers Comparing wives and warriors in the U S and Canada it examines how the military in both countries constructs gender to exclude women from being respected as equals to men Written by a wide range of scholars and military personnel the book covers such contemporary issues as the opening of military academies to women the opening of combat posts to women the experience of being a wife in the two person career of an officer husband sexual harassment turnover of women in the armed services and U S and Canadian policies allowing gays and lesbians to serve in the military Part of an emerging feminist scholarship in military studies this work also explores how gender has been constructed to maintain the status quo and women's narrowly defined roles as the dependent helpmates of men

Sexing the Soldier Rachel Woodward, Trish Winter, 2007-08-07 Sexing the Soldier takes a critical look at how gender is understood within the contemporary British Army Drawing on original research this book argues that dominant ideas about gender evident in areas as diverse as policy documents and cultural practices potentially limit rather than enhance operational effectiveness

Warriors Without Weapons Donna Margaret Dean, 1994 Finally the VA disability claims system and its abusive features which revictimize women veterans rather than helping them is examined An entire case history is presented which clearly demonstrates the exacerbating effects upon a victim trying to survive the system in order to receive care

[The Oxford Handbook of U.S. Women's Social Movement Activism](#) Holly J. McCammon, Verta A. Taylor, Jo Reger, Rachel L. Einwohner, 2017 The Oxford Handbook of U S Women's Social Movement Activism provides a comprehensive examination of scholarly research and knowledge on a variety of aspects of women's collective activism in the United States tracing both continuities and critical changes over time

Gender Camouflage Francine J. D'Amico, Laurie L. Weinstein, 1999-03 Controversy about women in the military continues yet women's relations

with the military go far beyond whether they serve in the ranks Gender Camouflage brings together a diverse array of authors to explore the controversy surrounding women s military service to examine the invisibility of civilian women who support the institution and to expose the military s efforts to camouflage their support and contributions Contributors first consider nurses servicewomen military academy students female veterans and lesbians The focus then shifts to military wives women employed by the DoD and female civilian military instructors whose work is less visible but no less essential to the institution The book also examines the experiences of women outside of the military such as comfort women near U S bases women engaged in peacework and women workers affected by military spending in the federal budget Analytic chapters are juxtaposed with first person narratives by women who have actually been there including a member of the first gender integrated class at West Point the first female civilian instructors at the U S Naval Academy and an African American Air Force Nurse Corps veteran Contributors include Connie Reeves Georgia Clark Sadler Gwyn Kirk and Joan Furey *Women at War* James Wise, Scott Baron, 2011-08-15 Wise and Baron relate the compelling war experiences of thirty American female soldiers in the war zones of Iraq and Afghanistan highlighting their extraordinary display of dedication to their mission and to the soldiers and sailors with whom they served While the book s focus is on today s women in combat it also reaches back to Korea Vietnam and World War II to offer stories of inspiring women who served at the cusp of the spear as they fought and died for their country *Gender and the Military* Helena Carreiras, 2006-09-27 Women in the military and their relationship with war often provoke controversial reactions that reveal entrenched stereotypes and cultural values central to many societies This is the first comparative cross national study of the participation of women in the armed forces of NATO countries States of Conflict Susie M. Jacobs, Ruth Jacobsen, Jen Marchbank, 2000 The volume will make links in a non simplistic way between conflicts at the international national community and household levels It recognizes the enduring relevance of factors such as the exclusion of women from the public sphere and militarized constructions of masculinity to present day examples of gendered violence At the same time it raises awkward questions about women s agency in these contexts
