Work and Wellbeing in the Nordic Countries Helge Hvid, Eivind Falkum, 2018-12-07 The Nordic countries have the world's best working life. Unlike in many other countries, global competition has not created inequality, uncertainty, long working hours, standardization, and restrictive managerial control. The main reason for this lies in the way interests are expressed and conflicts are resolved. Both employees and employers are well organized and both recognize the interests of the other. Working life develops in a constant interaction between conflict and compromise. This book examines working conditions in Norway, Denmark, Sweden, and Finland. It explores how these good working conditions are created and maintained. The chapters explain how work organization is formed, how education, training, and workplace learning give access to the labour market, how work is managed in the public sector, how precarious work unfolds in the Nordic countries. *Work and Wellbeing in the Nordic Countries* is addressed to all those who have interest in the quality of working life. It will be of particular use to all students, academics, and policy makers working in the fields of social policy, wellbeing, management studies, employment relations, work sociology, and work psychology.
