Ann Hewlett and Cornel West *Taking Parenting Public* crosses boundaries to bring together thinkers from diverse fields spanning the political spectrum. It features contributions from distinguished experts in economics, political science, public policy, child development, public health, history, and the media. While recent books have focused on working mothers or absent fathers, *Taking Parenting Public* is the first volume to take a comprehensive look at the common struggles of parents. These essays go beyond the usual calls for more and better child care and other strategies of parent replacement to offer fresh ideas for parent replenishment, ways of putting mothers and fathers back into the lives of their children, not only as economic providers but also as emotional and moral providers. For more information, visit the National Parenting Association Web site.

Children in Court Susan Gluck Mezey, 1996-07-03 Through an analysis of Supreme Court and lower court decisions over the last several decades, this book determines the extent to which the federal courts have affected the legal, political, economic, and social status of children in the U.S. *More Lasting Unions* Stephen Garrard Post, 2000 A powerful reassertion of the social and spiritual significance of marriage and the family. Many recent social theorists maintain that marriage and the nuclear family are not particularly important to the fabric of our culture. In this powerful refutation grounded in both Christian teaching and social science data, Stephen G. Post asserts that the bonds of marriage and family are fundamental to our social and spiritual well-being. Unique in the field for its wide treatment of relevant issues, *More Lasting Unions* also takes up these important topics: the special needs of children and of aging parents; adoption as an alternative way of family building; the perils of family self-indulgence and consumerism; balancing family commitments and concern for neighbors.
