When Thunder Comes Poems For Civil Rights Leaders:

When Thunder Comes J. Patrick Lewis, 2012-12-26 A collection of poetry inspired by various leaders of civil rights

When Thunder Comes J. Patrick Lewis, 2013-01-04 In moving verse Children's Poet Laureate J. Patrick Lewis gives new voice to seventeen heroes of civil rights. Exquisitely illustrated by five extraordinary artists, this commanding collection of poems invites the reader to hear in each verse the thunder that lies in every voice, no matter how small. Featuring civil rights luminaries Coretta Scott King, Harvey Milk, Mohandas Gandhi, Nelson Mandela, Sylvia Mendez, Aung San Suu Kyi, Mamie Carthan Till, Helen Zia, Josh Gibson, Dennis Banks, Mitsuye Endo, Ellison Onizuka, Jackie Robinson, Muhammad Yunus, James Chaney, Andrew Goodman, and Michael Schwerner. *Creativity and Children's Literature* Marianne Saccardi, 2014-07-31 Today's students need to be able to do more than score well on tests; they must be creative thinkers and problem solvers. The tools in this book will help teachers and parents start students on the path to becoming innovative, successful individuals in the 21st century workforce. The children in classrooms today will soon become adult members of society; they will need to apply divergent thinking skills to be effective in all aspects of their lives, regardless of their specific occupation. How well your students meet complicated challenges and take advantage of the opportunities before them decades down the road will depend largely upon the kind of thinking they are trained and encouraged to do today. This book provides a game plan for busy librarians and teachers to develop their students' abilities to arrive at new ideas by utilizing children's books at hand. Following an introduction in which the author defines divergent thinking, discusses its characteristics, and establishes its vital importance, chapters dedicated to types of literature for children, such as fantasy, poetry, and non-fiction, present specific titles and relevant activities geared to fostering divergent thinking in young minds. Parents will find the recommendations of the kinds of books to read with their children and explanations of how to engage their children in conversations that will help their creative thinking skills extremely beneficial. The book also includes a case study of a fourth grade class that applied the principles of divergent thinking to imagine innovative designs and come up with new ideas while studying a social studies/science unit on ecology.
