**Thinking Chinese Translation** Valerie Pellatt, Eric T. Liu, 2010-06-10 Thinking Chinese Translation is a practical and comprehensive course for advanced undergraduates and postgraduate students of Chinese. Thinking Chinese Translation explores the ways in which memory, general knowledge and creativity summed up as schema contribute to the linguistic ability necessary to create a good translation. The course develops the reader's ability to think deeply about the texts and to produce natural and accurate translations from Chinese into English. A wealth of relevant illustrative material is presented taking the reader through a number of different genres and text types of increasing complexity including technical, scientific and legal texts, journalistic and informative texts, literary and dramatic texts. Each chapter provides a discussion of the issues of a particular text type based on up to date scholarship followed by practical translation exercises. The chapters can be read independently as research material or in combination with the exercises. The issues discussed range from the fine detail of the text such as punctuation to the broader context of editing, packaging and publishing translations. Major aspects of teaching and learning translation such as collaboration are also covered. Thinking Chinese Translation is essential reading for advanced undergraduate and postgraduate students of Chinese and translation studies. The book will also appeal to a wide range of language students and tutors through the general discussion of the principles and purpose of translation. **The**

light of rapid political change      Twentieth-Century Chinese Translation Theory Leo Tak-hung Chan, 2004-05-28 Past attempts at writing a history of Chinese translation theory have been bedeviled by a chronological approach which often forces the writer to provide no more than a list of important theories and theorists over the centuries Or they have stretched out to almost every aspect related to translation in China so that the historical political backdrop that had an influence on translation theorizing turns out to be more important than the theories themselves In the present book the author hopes to devote exclusive attention to the ideas themselves The approach adopted centers around eight key issues that engaged the attention of theorists through the course of the twentieth century in the hope that a historical account will be presented that is not time bound On the basis of 38 articles translated into English by teachers and scholars of translation the author has written four essays discussing the Chinese characteristics of this body of theory Separately they focus on the impressionistic the modern the postcolonial and the poststructuralist approaches deployed by leading Chinese theorists from 1901 to 1998 It is hoped that publication of this book will make possible cross cultural dialogue with translation academics in the West although the general reader will find much firsthand information on Chinese thinking about translation      **Translating China** Xuanmin Luo, Yuanjian He, 2009 The book is a collection of essays on translating various types of text literary religious political etc into and from Chinese The focus is on how such translations have been produced and propagated from ancient to modern times and their sociocultural impact on the evolution of Chinese history and Chinese translatology      **An Overview of Chinese Translation Studies at the Beginning of the 21st Century** Weixiao Wei, 2019-09-17 An Overview of Chinese Translation Studies at the Beginning of the 21st Century presents and analyses over 100 000 bibliographic notes contained within a large academic database focusing on translation within China Exploring Chinese translation studies two decades before and after the year 2000 the book will introduce aspects of theory culture strategy register genre and context to the field of translation in China and will also take into account the impact of technology education and research within this field Aimed at postgraduate students and researchers of translation studies the focus of An Overview of Chinese Translation Studies at the Beginning of the 21st Century is the theory and practice of translation studies within a fast paced and growing academic discipline      A Literal Chinese Translation Illustrated Encyclopedia Kevin Bruce, 2021-06-08 Hi I m Kevin I lived in China for seven years and found a fun easy and interesting way for you to learn about the Chinese language While this book isn t meant to necessarily teach you Chinese it s an easy way to understand the makeup of their language and explains something complex in a painless way Have you ever wondered about Chinese but didn t know where to start This is the place I break down the basics of how they speak while leaving out all the useless information Think of this as an introduction into Chinese language and culture as the two are inherently connected Come with me on a journey and discover how Chinese people say things like computer electric brain or kangaroo bag rat or toilet horse bucket There s a ton of drawings and over 1200 translations to keep you entertained for weeks The readability of this book is amazing It also includes a 45 000 word
