New England values By the 1850s American missionary families in the islands had birthed more than 250 white children considered Hawaiian subjects by the indigenous monarchy but U S citizens by missionary parents In *Hawaiian by Birth* Joy Schulz explores the tensions among the competing parental cultural and educational interests affecting these children and in turn the impact the children had on nineteenth century U S foreign policy These children of white missionaries would eventually alienate themselves from the Hawaiian monarchy and indigenous population by securing disproportionate economic and political power Their childhoods complicated by both Hawaiian and American influences led to significant political and international ramifications once the children reached adulthood Almost none chose to follow their parents into the missionary profession and many rejected the Christian faith Almost all supported the annexation of Hawai i despite their parents hope that the islands would remain independent Whether the missionary children moved to the U S mainland stayed in the islands or traveled the world they took with them a sense of racial privilege and cultural superiority Schulz adds children s voices to the historical record with this first comprehensive study of the white children born in the Hawaiian Islands between 1820 and 1850 and their path toward political revolution
