Samuel Austin Allibone

Treatise On Living Thinking A:

A Treatise Living and Thinking Massimo Scaligero, 2015-08-01 This treatise though logically formulated and accessible proposes a task that few can probably actualize Its thoughts are assembled so that retracing them becomes the proposed experience This experience insofar as it is realized is not merely one of many possibilities but an experience of our inner essence which the spirit demands of us at the present time The treatise cannot be refuted philosophically since it is based on a kind of experience that must be achieved if we wish to have a means by which to question it However those who are able to achieve it begin to live within a thinking that penetrates the world It is the thinking that is the truth of all theories and of none because it is their pre dialectical substance By experiencing the thoughts presented we can experience the power of concentration or the tangible presence of the spirit the path of living thinking the transcendence present but not cognized in each thought that we think
