Vasileios Marinis:

Death and the Afterlife in Byzantium Vasileios Marinis, 2016-12-22 For all their reputed and professed preoccupation with the afterlife the Byzantines had no systematic conception of the fate of the soul between death and the Last Judgement Death and the Afterlife in Byzantium marries for the first time liturgical theological literary and material evidence to investigate a fundamental question what did the Byzantines believe happened after death This interdisciplinary study provides an in depth analysis and synthesis of hagiography theological treatises apocryphal texts and liturgical services as well as images of the fate of the soul in manuscript and monumental decoration It also places the imagery of the afterlife both literary and artistic within the context of Byzantine culture spirituality and soteriology The book intends to be the definitive study on concepts of the afterlife in Byzantium and its interdisciplinary structure will appeal to students and specialists from a variety of areas in medieval studies

Architecture and Ritual in the Churches of Constantinople Vasileios Marinis, 2014-01-13 This book examines the interchange of architecture and ritual in the Middle and Late Byzantine churches of Constantinople ninth to fifteenth centuries It employs archaeological and archival data hagiographic and historical sources liturgical texts and commentaries and monastic typika and testaments to integrate the architecture of the medieval churches of Constantinople with liturgical and extra liturgical practices and their continuously evolving social and cultural context The book argues against the approach that has dominated Byzantine studies that of functional determinism the view that architectural form always follows liturgical function Instead proceeding chapter by chapter through the spaces of the Byzantine church it investigates how architecture responded to the exigencies of the rituals and how church spaces eventually acquired new uses The church building is described in the context of the culture and people whose needs it was continually adapted to serve Rather than viewing churches as frozen in time usually the time when the last brick was laid this study argues that they were social constructs and so were never finished but continually evolving

The Ecumenism of Beauty Timothy Verdon, 2017-05-01 The last fifty years have seen a rediscovery of the role of the visual arts in the lives of all Christians In tune with this ecumenical age this book shares the belief that beauty and art can bridge differences unite people in shared admiration and possibly become an instrument of communion among separated Christians The authors of this book are Catholic Orthodox Anglican and Protestant artists scholars and clergy who in 2017 will take part in a symposium organized to commemorate the Reformation which began when Martin Luther published his 95 theses in 1517 With sessions in Paris Strasburg Florence New Haven CT and Orleans MA the symposium is promoted by Catholic and Protestant schools of theology together with Mount Tabor Centre for Art and Spirituality in Barga Italy

Biography of a Landmark, The Chora Monastery and Kariye Camii in Constantinople/Istanbul from Late Antiquity to the 21st Century, 2023-10-20 With its reconversion to a mosque in August 2020 the former monastic church of Saint Saviour in Chora entered yet another phase of its long history The present book examines the Chora Kariye Camii site from a transcultural perspective tracing its

continuous transformations in form and function from Late Antiquity to the present day Whereas previous literature has almost exclusively placed emphasis on the Byzantine phase of the building's history including the status of its mosaics and paintings as major works of Palaiologan culture this study is the first to investigate the shifting meanings with which the Chora Kariye Camii site has been invested over time and across uninterrupted alterations interventions and transformations Bringing together contributions from archaeologists art historians philologists anthropologists and historians the volume provides a new framework for understanding not only this building but more generally edifices that have undergone interventions and transformations within multicultural societies The open access publication of this book has been published with the support of the Swiss National Science Foundation

Why We Sing: Music, Word, and Liturgy in Early Christianity, 2022-11-14 Open Access for this publication was made possible by a generous donation from Segelbergsska stiftelsen för liturgivetenskaplig forskning The Segelbergsska Foundation for Research in Liturgical Studies In a seminal study *Cur cantatur* Anders Ekenberg examined Carolingian sources for explanations of why the liturgy was sung rather than spoken This multidisciplinary volume takes up Ekenberg's question anew investigating the interplay of New Testament writings sacred spaces biblical interpretation and reception history of liturgical practices and traditions Analyses of Greek Latin Coptic Arabic and Ge'ez sources as well as of archaeological and epigraphic evidence illuminate an array of topics including recent trends in liturgical studies manuscript variants and liturgical praxis Ignatius of Antioch's choral metaphor baptism in ancient Christian apocrypha and the significance of late ancient altar veils

New Approaches to Medieval Architecture Robert Bork, William W. Clark, Abby McGehee, 2016-12-05 This collection of essays presents the exciting and innovative work being done in the field of medieval architectural history by scholars affiliated with AVISTA one of the most active sponsors of such research in the Anglo American scholarly community These studies constitute a snapshot of the range of new interpretive strategies being deployed by researchers in the reassessment of previous scholarship and identification of new modes of inquiry In recent years the study of medieval architecture has been transformed by the emergence of new critical perspectives and new technologies The contributors to this book are among those at the forefront of these developments Several of the essays present dramatic reinterpretations of canonical monuments including the Abbey of Saint Denis Beauvais Cathedral and Notre Dame in Paris Others consider broader methodological issues such as the applications of geometry workshop practice and the shaping of historical narratives Still others demonstrate how high tech scanning and visualization methods can enhance our understanding of construction methods and the behavior of buildings The publication of this collection of pioneering essays should foster further exploration by clarifying the state of research by establishing specific historical arguments and by providing models of inquiry to inspire emerging scholars

Liturgy's Imagined Past/s Teresa Berger, Bryan D. Spinks, 2016 This book calls attention to the importance of scholarly reflection on the writing of liturgical history The essays not only probe the impact of important shifts in historiography but also present new

scholarship that promises to reconfigure some of the established images of liturgy's past. Based on papers presented at the 2014 Yale Institute of Sacred Music Liturgy Conference, *Liturgy's Imagined Past* seeks to invigorate discussion of methodologies and materials in contemporary writings on liturgy's pasts and to resource such writing at a point in time when formidable questions are being posed about the way in which historians construct the object of their inquiry. **The Framing of Sacred Space** Jelena Bogdanović, 2017 As architectonic objects of basic structural and design integrity, canopies provide means for an innovative understanding of the materialization of the idea of the Byzantine rite church. *The Framing of Sacred Space* considers both the material and conceptual framing of sacred space and explains how the canopy bridges the physical and transcendental realms. **Sensational Religion** Sally Promey, 2014-06-24 The result of a collaborative multiyear project, this groundbreaking book explores the interpretive worlds that inform religious practice and derive from sensory phenomena. Under the rubric of making sense, the studies assembled here ask: How have people used and valued sensory data? How have they shaped their material and immaterial worlds to encourage or discourage certain kinds or patterns of sensory experience? How have they framed the sensual capacities of images and objects to license a range of behaviors, including iconoclasm, censorship, and accusations of blasphemy or sacrilege? Exposing the dematerialization of religion embedded in secularization theory, editor Sally Promey proposes a fundamental reorientation in understanding the personal, social, political, and cultural work accomplished in religion's sensory and material practice. *Sensational Religion* refocuses scholarly attention on the robust material entanglements often discounted by modernity's metaphysic and on their inextricable connections to human bodies, behaviors, affects, and beliefs. *The Byzantine World* Paul Stephenson, 2010-12-20 *The Byzantine World* presents the latest insights of the leading scholars in the fields of Byzantine studies, history, art, and architectural history, literature, and theology. Those who know little of Byzantine history, culture, and civilization between AD 700 and 1453 will find overviews and distillations, while those who know much already will be afforded countless new vistas. Each chapter offers an innovative approach to a well-known topic or a diversion from a well-trodden path. Readers will be introduced to Byzantine women and children, men and eunuchs, emperors, patriarchs, aristocrats, and slaves. They will explore churches and fortifications, monasteries and palaces from Constantinople to Cyprus and Syria in the east and to Apulia and Venice in the west. Secular and sacred art, profane and spiritual literature will be revealed to the reader who will be encouraged to read, see, smell, and touch. The worlds of Byzantine ceremonial and sanctity, liturgy and letters, Orthodoxy and heresy will be explored by both leading and innovative international scholars. Ultimately, readers will find insights into the emergence of modern Byzantine studies and of popular Byzantine history that are informative, novel, and unexpected and that provide a thorough understanding of both.
