Vatican II Fifty Personal Stories:

Vatican II Madges, William, Daley, Michael, 2014-04-10 2013 Catholic Press Association Book Award 50th Anniversary of Vatican II 2nd Place Marking the fiftieth anniversary of the first session of Vatican II 1962-65 a watershed event in the history of the church whose meaning and interpretation continue to inspire heated debate In this book fifty distinguished authors including theologians journalists spiritual writers and pastoral leaders offer their own assessment of the meaning of the Council and its historic documents drawing in many cases on their personal experience as witnesses or participants The contributors are a who's who of modern Catholic and non Catholic voices Francis X Murphy who as Xavier Rynne penned an inside account of the Council for The New Yorker magazine Martin E Marty Lisa Sowle Cahill John O Malley Joan Chittister Gregory Baum Michael Novak Basil Pennington Richard McBrien Cardinal Avery Dulles John Dominic Crossan Joseph Komonchak Brother Roger of Taizé Cardinal Francis Arinze Elizabeth Johnson David Hollenbach and many more For those who want to understand what happened at the Council as well as those concerned about the state of the church today and the agenda for the future these fifty personal stories provide an invaluable and inspiring resource The Long Shadow of

Vatican II Lucas Van Rompay, Sam Miglarese, David Morgan, 2015-07-01 With the Second Vatican Council 1962-65 the Roman Catholic Church for the first time took a positive stance on modernity Its impact on the thought worship and actions of Catholics worldwide was enormous Benefiting from a half century of insights gained since Vatican II ended this volume focuses squarely on the ongoing aftermath and reinterpretation of the Council in the twenty first century In five penetrating essays contributors examine crucial issues at the heart of Catholic life and identity primarily but not exclusively within North American contexts On a broader level the volume as a whole illuminates the effects of the radical changes made at Vatican II on the lived religion of everyday Catholics As framed by volume editors Lucas Van Rompay Sam Miglarese and David Morgan the book's long view of the church's gradual and often contentious transition into contemporary times profiles a church and laity who seem committed to many mutual values but feel that implementation of the changes agreed to in principle at the Council is far from accomplished The election in 2013 of the charismatic Pope Francis has added yet another dimension to the search for the meaning of Vatican II The contributors are Catherine E Clifford Hillary Kaell Leo D Lefebure Jill Peterfeso and Leslie Woodcock Tentler

Vatican II Gavin D'Costa, 2014 Gavin D Costa breaks new ground in this authoritative study of the Second Vatican Council's doctrines on other religions with particular attention to Judaism and Islam The focus is exclusively on the doctrinal foundations found in Lumen Gentium 16 that will serve Catholicism in the twenty first century D Costa provides a map outlining different hermeneutical approaches to the Council whilst synthesising their strengths and providing a critique of their weaknesses Moreover he classifies the different authority attributed to doctrines thereby clarifying debates regarding continuity discontinuity and reform in doctrinal teaching Vatican II Catholic Doctrines on Jews and Muslims expertly examines the Council's revolutionary teaching on Judaism which has been subject to conflicting

readings including the claim that the Council reversed doctrinal teachings in this area Through a rigorous examination of the debates the drafts the official commentary and with consideration of the previous Council and papal doctrinal teachings on the Jews D Costa lays bare the doctrinal achievements of the Council and concludes with a similar detailed examination of Catholic doctrines on Islam This innovative text makes essential interventions in the debate about Council hermeneutics and doctrinal teachings on the religions American Catholicism Transformed Joseph P. Chinnici, 2021-04-27 Situating the church within the context of post World War II globalization and the Cold War American Catholicism Transformed draws on previously untapped archival sources to provide deep background to developments within the American Catholic Church in relationship to American society at large and Vatican Council II During this time the Catholic community entered a transitional stage in which those on the right and those on the left battled for control of the Church's vision This convergence of international and national forces of renewal and resistance to them will continue to shape the American Catholic community's global identity in the twenty first century *Reforming Rome* Donald W. Norwood, 2015-01-16 Few people realize that Karl Barth one of the twentieth century's greatest Protestant theologians was among a select group of non Catholic guests who were invited to the Second Vatican Council 1962-65 to assist in the reform and renewal of the Roman Catholic Church In *Reforming Rome* Donald Norwood offers the first book length study of Barth's involvement with Vatican II and his significant impact on the reform of the Catholic Church Norwood examines Barth's critical engagement with the Roman Catholic Church from his time at the Catholic University of Munster to his connection with Vatican II his conversations with Pope Paul VI and seminars and interviews he gave about the Council afterward On the basis of extensive research Norwood amplifies Barth's own very brief account of Vatican II Barth himself often felt that he was better understood by Roman Catholics such as Hans Urs von Balthasar and Joseph Ratzinger than he was by his own Reformed colleagues This study written by a fellow Reformed theologian helps us to see why *Catholicism Opening to the World and Other Confessions* Vladimir Latinovic, Gerard Mannion, Jason Welle, O.F.M., 2019-01-08 This volume explores how Catholicism began and continues to open its doors to the wider world and to other confessions in embracing ecumenism thanks to the vision and legacy of the Second Vatican Council It explores such themes as the twentieth century context preceding the council parallels between Vatican II and previous councils its distinctively pastoral character the legacy of the council in relation to issues such as church world dynamics as well as to ethics social justice economic activity Several chapters discuss the role of women in the church before during and since the council Others discern inculturation in relation to Vatican II The book also contains a wide and original range of ecumenical considerations of the council including by and in relation to Free Church Reformed Orthodox and Anglican perspectives Finally it considers the Council's ongoing promise and remaining challenges with regard to ecumenical issues including a groundbreaking essay on the future of ecumenical dialogue by Cardinal Walter Kasper Understanding the Religious Priesthood Christian, OSB Raab, Brian E., SJ

Daley,2020-10-14 Most contemporary theologies of Holy Orders consider priesthood mainly in its diocesan context and most contemporary theologies of religious life do not consider how ordained ministry functions when it is internal rather than external to religious life Understanding the Religious Priesthood provides a history and theology of religious priesthood that contributes to our understanding of this vocation s identity and mission It uncovers what religious priesthood shares with diocesan priesthood and non ordained religious life and what makes it different from both those other vocations Christian Raab begins by tracing the history of religious priesthood from its origins in the early Church to the eve of the Second Vatican Council He demonstrates that religious priests often faced questions about how to reconcile their two callings but that they also provided answers in their theologies and spiritualities of priesthood and religious life Meanwhile they made key contributions to the Church s life and mission Raab then investigates the teachings of the Second Vatican Council on priesthood and religious life Observing that the Council presented priesthood according to a diocesan typology and presented religious life without sacerdotal associations he argues that the lack of imagery of religious priesthood contributed to a post conciliar vocational identity crisis among religious priests He then seeks to remedy this lacuna by appealing to the biblical images for religious priesthood Hans Urs von Balthasar offered in his theology of vocations Raab argues that Balthasar s imagery is a promising way forward for understanding the identity and mission of religious priesthood In a final part Raab provides a substantial theological articulation of religious priesthood which illuminates its liturgical signification ecclesial mediation and mission and ministerial identity Here he draws not only from Balthasar but also from Pope John Paul II Yves Congar Jean Marie Tillard Brian Daley and Guy Mansini to construct his profile **Religious Life** Loan Le,2016-06-22

Following the Second Vatican Council when each Religious Institute was encouraged to research its charism some Institutes experienced a tension between their charism and their mission or even difficulty identifying what their charism was This book is a study of the theological understanding of charism and of mission in relation to Religious Life within the Catholic Church While this topic has featured in much Roman Catholic theological literature since Vatican II there appears to be a dearth of in depth studies This book addresses this apparent lacuna It draws particularly on the work of two major theologians Jean Marie Roger Tillard OP and Sandra Marie Schneiders IHM who have reflected at length on charism and mission in the period leading up to Vatican II and on the implementation of its documents with respect to Religious Life The very significant contributions of Tillard and Schneiders on the topic provide Religious as well as others who want to know and understand Religious Life with an interesting and motivating insight into charism and mission in Religious Life Within the Roman Catholic Church a Year of Consecrated Life has just drawn to a close and this book forms a background and a response to Pope Francis Apostolic Letter to all Consecrated People on the occasion of the Year of Consecrated Life November 2014 which invited Religious to reflect on these aspects that are essential to the life they have chosen to live

Charism in the Church

Constant Leke Ngolefac, 2024-03-01

Charism is a hot contemporary issue. The growing interest in the charisms is one of the significant religious developments of our time. Opinions on charisms vary to a remarkable degree. Unfortunately, in some cases, diverse viewpoints have led to confusion among Christians. On the positive side, though, this developing interest in charisms has contributed to spiritual renewal and stimulated biblical research in this most important area of the Church's life. The exponential growth of the Charismatic Pentecostal Movement throughout the world and especially in Africa urged led to choice of this topic on charisms. In the Charismatic Pentecostal Movements, the issue of charisms is very vital and extremely important. It is at the centre of its spirituality and practice. This Movement has spread to almost all major Christian confessions, denominations, and continues to attract many followers. This work is unique among the many studies written on the charisms. Even though the subject of charisms has received some scholarly attention, most have not delved into the role of the charisms in the Church from a Pauline perspective as this study does. The following observations and reasons demonstrate that it is still meaningful and worthwhile to study charisms in Pauline letters.
