Waiting For An Army To Die The Tragedy Of Agent Orange:

Waiting for an Army to Die Fred Allen Wilcox, 1983 Waiting for an Army to Die Fred A. Wilcox, 2011-09-13 I died in Vietnam but I didn't even know it said a young Vietnam vet on the Today Show one morning in 1978 shocking viewers across the country *Waiting for an Army to Die The Tragedy of Agent Orange* the first book ever written on the effects of Agent Orange tells this young vet's story and that of hundreds of thousands of other former American servicemen During the war the US sprayed an estimated 12 million gallons of Agent Orange on Vietnam in order to defoliate close to 5 million acres of its land Had anyone predicted that millions of human beings exposed to Agent Orange dioxin would get sick and die scholar Fred A Wilcox writes in the new introduction to his seminal book their warnings would have been dismissed as sci fi fantasy or apocalyptic nonsense Told in a gripping and compassionate narrative style that travels from the war in Vietnam to the war at home and through portraits of many of the affected survivors their families and the doctors and scientists whose clinical experience and research gave the lie to the government whitewash *Waiting for an Army to Die* tells a story that thirty years later continues to create new twists and turns for Americans still waiting for justice and an honest account of what happened to them Vietnam has chosen August 10 the day that the US began spraying Agent Orange on Vietnam as Agent Orange Day to commemorate all its citizens who were affected by the deadly chemical The new second edition of *Waiting for an Army to Die* will be released upon the third anniversary of this day in honor of all those whose families have suffered and continue to suffer from this tragedy **Scorched Earth** Fred A. Wilcox, 2011-09-13 *Scorched Earth* is the first book to chronicle the effects of chemical warfare on the Vietnamese people and their environment where even today more than 3 million people including 500 000 children are sick and dying from birth defects cancer and other illnesses that can be directly traced to Agent Orange dioxin exposure Weaving first person accounts with original research Vietnam War scholar Fred A Wilcox examines long term consequences for future generations laying bare the ongoing monumental tragedy in Vietnam and calls for the United States government to finally admit its role in chemical warfare in Vietnam Wilcox also warns readers that unless we stop poisoning our air food and water supplies the cancer epidemic in the United States and other countries will only worsen and he urgently demands the chemical manufacturers of Agent Orange to compensate the victims of their greed and to stop using the Earth's rivers lakes and oceans as toxic waste dumps Vietnam has chosen August 10 the day that the US began spraying Agent Orange on Vietnam as Agent Orange Day to commemorate all its citizens who were affected by the deadly chemical *Scorched Earth* will be released upon the third anniversary of this day in honor of all those whose families have suffered and continue to suffer from this tragedy *Waiting for an Army to Die* Fred Wilcox, 1989 Investigates the scientific legal and moral issues raised by the use of Agent Orange during the Vietnam War *Agent Orange on Trial* Peter H. Schuck, 1987 *Agent Orange on Trial* is a riveting legal drama with all the suspense of a courtroom thriller One of the Vietnam War's farthest reaching legacies was the Agent Orange case In this unprecedented personal injury class action

veterans charge that a valuable herbicide indiscriminately sprayed on the luxuriant Vietnam jungle a generation ago has now caused cancers birth defects and other devastating health problems Peter Schuck brilliantly recounts the gigantic confrontation between two million ex soldiers the chemical industry and the federal government From the first stirrings of the lawyers in 1978 to the court plan in 1985 for distributing a record 200 million settlement the case which is now on appeal has extended the frontiers of our legal system in all directions In a book that is as much about innovative ways to look at the law as it is about the social problems arising from modern science Schuck restages a sprawling complex drama The players include dedicated but quarrelsome veterans a crusading litigator class action organizers flamboyant trial lawyers astute court negotiators and two federal judges with strikingly different judicial styles High idealism self promotion Byzantine legal strategies and judicial creativity combine in a fascinating portrait of a human struggle for justice through law The Agent Orange case is the most perplexing and revealing example until now of a new legal genre the mass toxic tort Such cases because of their scale cost geographical and temporal dispersion and causal uncertainty present extraordinarily difficult challenges to our legal system They demand new approaches to procedure evidence and the definition of substantive legal rights and obligations as well as new roles for judges juries and regulatory agencies Schuck argues that our legal system must be redesigned if it is to deal effectively with the increasing number of chemical disasters such as the Bhopal accident ionizing radiation asbestos DES and seepage of toxic wastes He imaginatively reveals the clash between our desire for simple justice and the technical demands of a complex legal system
