Dignity in the Egyptian Revolution Zaynab El Bernoussi, 2021-07-01 Dignity or karama in Arabic is a nebulous concept that challenges us to reflect on issues such as identity human rights and

faith During the Arab uprisings of 2010 and 2011 Egyptians that participated in these uprisings frequently used the concept of dignity as a way to underscore their opposition to the Mubarak regime. Protesters against the indignity of the poverty, lack of freedom and social justice, the idea of *karama* gained salience in Egyptian cinema, popular literature, street art, music, social media and protest banners, slogans and literature. Based on interviews with participants in the 2011 protests and analysis of the art forms that emerged during protests, Zaynab El Bernoussi explores understandings of the concept of dignity, showing how protestors conceived of this concept in their organisation of protest and uprising and their memories of *karama* in the aftermath of the protests, revisiting these claims in the years subsequent to the uprising. **Social Practice Art in**

Martyrdom appeals to the imagination of many because it is a highly ambiguous spectacle with thrilling, deadly consequences. Imagination is thus a vital catalyst for martyrdom: for martyrs become martyrs only because others remember and honour them as such. This memorialisation occurs through rituals and documents that incorporate and re-interpret traditions deriving from canonical texts. The canonisation of martyrdom generally occurs in one of two ways: first through ritual commemoration by communities of insiders (readers, listeners, viewers and participants) who create and recycle texts, re-interpreting them until the martyrs ultimately receive a canonical status; or second through commemoration as a means of contestation by competing communities who perceive these same people as traitors or terrorists. By adopting an interdisciplinary orientation and a cross-cultural approach, this book goes beyond both the insider admiration of martyrs and the partisan rejection of martyrdoms and concisely synthesises key interpretive questions and themes that broach the canonised, unstable and contested representations of martyrdom as well as their analytical connections, divergences and afterlives in the present.
