Christenson, 2015-07-15 Marian Alexander Spencer was born in 1920 in the Ohio River town of Gallipolis Ohio one year after the Red Summer of 1919 that saw an upsurge in race riots and lynchings Following the example of her grandfather an ex slave and community leader Marian joined the NAACP at thirteen and grew up to achieve not only a number of civic leadership firsts in her adopted home city of Cincinnati but a legacy of lasting civil rights victories Of these the best known is the desegregation of Cincinnati's Coney Island amusement park She also fought to desegregate Cincinnati schools and to stop the introduction of observers in black voting precincts in Ohio Her campaign to raise awareness of industrial toxic waste practices in minority neighborhoods was later adapted into national Superfund legislation In 2012 Marian's friend and colleague Dot Christenson sat down with her to record her memories The resulting biography not only gives us the life story of remarkable leader but encapsulates many of the twentieth century's greatest struggles and advances Spencer's story will prove inspirational and instructive to citizens and students alike Exam Schools Chester E. Finn, Jr., Jessica A. Hockett, 2012-09-16 An in depth look at academically selective public high schools in America What is the best education for exceptionally able and high achieving youngsters Can the United States strengthen its future intellectual leadership economic vitality and scientific prowess without sacrificing equal opportunity There are no easy answers but as Chester Finn and Jessica Hockett show for more than 100 000 students each year the solution is to enroll in an academically selective public high school Exam Schools is the first

ever close up look at this small sometimes controversial yet crucial segment of American public education This groundbreaking book discusses how these schools work and their critical role in nurturing the country s brightest students The 165 schools identified by Finn and Hockett are located in thirty states plus the District of Columbia While some are world renowned such as Boston Latin and Bronx Science others are known only in their own communities The authors survey the schools on issues ranging from admissions and student diversity to teacher selection They probe sources of political support curriculum instructional styles educational effectiveness and institutional autonomy Some of their findings are surprising Los Angeles for example has no exam schools while New York City has dozens Asian American students are overrepresented but so are African American pupils Culminating with in depth profiles of eleven exam schools and thoughtful reflection on policy implications Finn and Hockett ultimately consider whether the country would be better off with more such schools At a time of keen attention to the faltering education system Exam Schools sheds positive light on a group of schools that could well provide a transformative roadmap for many of America s children African American Dramatists Emmanuel S.
