Performance Studies in Motion Atay Citron, Sharon Aronson-Lehavi, David Zerbib, 2014-02-27 Performance Studies in Motion offers multiple perspectives on the current field of performance studies and suggests its future directions Featuring new essays by pioneers Richard Schechner and Barbara Kirshenblatt Gimblett and by international scholars and practitioners it shows how performance can offer a new way of seeing the world and testifies to the dynamism of this discipline Beginning with an overview of the development of performance studies the essays offer new insights into contemporary experimental and postdramatic theatre participatory performance and museum exhibitions the performance of politicians political institutions and grassroots protest movements theatricality at war and in contemporary religious rituals and performative practices in therapy education and life sciences Employing original reflexive approaches to concrete case studies and situations contributors introduce a variety of applications of performance studies methodologies to contemporary culture art and society creating new interdisciplinary links between the arts humanities and social and natural sciences With studies from and about places as diverse as Austria Belgium China France Germany Israel Korea Palestine the Philippines Poland Rwanda and the USA Performance Studies in Motion showcases the vitality and breadth of the field today **Theatre and Judaism** Yair Lipshitz, 2019-03-16 This new title in the Theatre series explores the intersections between theatre and Judaism offering a uniquely nuanced approach as a counterpart to the more common discourse surrounding Jewish theatre Arguing that theatre allows for a subtle engagement with religious heritage that does not easily fall into a religious secular dichotomy it examines the ways in which Jewish tradition lends itself to theatrical performance With rigorous scholarship and a fresh perspective Theatre and Judaism promotes a transnational and comparative approach considering Judaism as a religious cultural tradition rather than focusing on a particular national context Exciting and thought provoking this is the perfect companion for undergraduate and postgraduate students of theatre or religious studies Theatre and the Israel-Palestine Conflict Azza Harras, 2025-02-20 This book delves into the complex narratives surrounding the ongoing Israeli Palestinian dispute through the unique lens of theatre This ground breaking exploration employs postcolonial theory to analyze a diverse array of theatrical works by Israeli Palestinian and Western playwrights By juxtaposing portrayals of significant events such as the Nakba or the Israeli War of Independence the Intifadas and the experiences of diaspora and exile Harras provides a nuanced examination of how these events are represented on stage The book reveals the profound impact of language in constructing and contesting historical narratives and underscores theatre's role as a space for cultural critique and self reflection This comprehensive study offers new insights into the power of artistic expression to challenge historical dichotomies and encourage a deeper understanding of this enduring conflict Essential for scholars of Postcolonial Studies Middle East Studies and the Performing Arts this work invites readers to reconsider the conflict through the transformative lens of theatre Wanderers and Other Israeli Plays Sharon Aronson-Lehavi, 2009 Christmas family drama With his mother
