Wanderings With A Camera In Scotland The Photography Of Erskine Beveridge:

Wanderings with a Camera in Scotland Lesley M. Ferguson, Erskine Beveridge, 2009 Erskine Beveridge 1851 1920 was the owner of a Dunfermline based company specialising in the production of fine table and bed linen with an active interest and enthusiasm for archaeology and history This illustrated volume highlights a selection of the finest photographs taken by Beveridge between 1880 and 1919 **Photography of Victorian Scotland** Roddy Simpson, 2012-09-06 This is the first book to provide a full and coherent introduction to the photography of Victorian Scotland There are many books which deal with particular elements and individual photographers which show the interest in the subject but no book draws everything together to provide an understanding of the multi faceted nature of photography and the inter relationship with other activities in the society of the time This authoritative introduction building upon these other publications will provide a wide ranging appreciation of early Scottish photography and in particular that Scottish photography was in the vanguard of many international trends The material has been structured and the topics organised with appropriate illustrations as both a readable narrative and a foundation text for the subject An Introduction To Scottish Ethnology Alexander Fenton, Margaret A. Mackay, 2013-08-06 The publication of An Introduction to Scottish Ethnology sees the completion of the fourteen volume Scottish Life and Society series originally conceived by the eminent ethnologist Professor Alexander Fenton The series explores the many elements in Scottish history language and culture which have shaped the identity of Scotland and Scots at local regional and national level placing these in an international context Each of the thirteen volumes already published focuses on a particular theme or institution within Scottish society This introduction provides an overview of the discipline of ethnology as it has developed in Scotland and more widely the sources and methods for its study and practical guidance on the means by which it can be examined within its constituent genres based on the experience of those currently working with ethnological materials Theory and practice are presented in an accessible fashion making it an ideal companion for the student the scholar and the interested amateur alike My Life as a Replica Sally Foster, Sian Jones, 2020-04-29 In 1970 a concrete replica of the St John s Cross arrived in Iona sitting incongruously on the deck of a puffer delivering the island s annual supply of coal What is the story behind this intriguing replica How does it relate to the world s first ringed Celtic cross an artistic and technical masterpiece which has been at the heart of the Iona experience since the eighth century What does it tell us about the authenticity and value of replicas In this fascinating book Foster and Jones draw on extensive interdisciplinary research to reveal the composite biography of the St John s Cross its concrete replica and its many other scale copies They show that replicas can acquire rich forms of authenticity and value informed by social relations craft practices creativity place and materiality Thus the book challenges traditional precepts that seek authenticity in qualities intrinsic to original historic objects Replicas are shown to be important objects in their own right with their own creative human histories biographies that people can connect with The story of the St John s Cross celebrates how replicas can work

for us if we let them particularly if clues are available about their makers passion creativity and craft The Oxford Handbook of Modern Scottish History T. M. Devine, Jenny Wormald, 2012-01-26 Over the last three decades major advances in research and scholarship have transformed understanding of the Scottish past In this landmark study some of the most eminent writers on the subject together with emerging new talents have combined to produce a large scale volume which reconsiders in fresh and illuminating ways the classic themes of the nation s history since the sixteenth century as well as a number of new topics which are only now receiving detailed attention Such major themes as the Reformation the Union of 1707 the Scottish Enlightenment clearances industrialisation empire emigration and the Great War are approached from novel and fascinating perspectives but so too are such issues as the Scottish environment myth family criminality the literary tradition and Scotland s contemporary history All chapters contain expert syntheses of current knowledge but their authors also stand back and reflect critically on the questions which still remain unanswered the issues which generate dispute and controversy and sketch out where appropriate the agenda for future research The Handbook also places the Scottish experience firmly into an international historical perspective with a considerable focus on the age old emigration of the Scottish people the impact of successive waves of immigrants to Scotland and the nation s key role within the British Empire The overall result is a vibrant and stimulating review of modern Scottish history essential reading for students and scholars alike **Moving on in Neolithic Studies** Jim Leary, Thomas Kador, 2016-02-29 Mobility is a fundamental facet of being human and should be central to archaeology Yet mobility itself and the role it plays in the production of social life is rarely considered as a subject in its own right This is particularly so with discussions of the Neolithic people where mobility is often framed as being somewhere between a sedentary existence and nomadic movements This latest collection of papers from the Neolithic Studies Group seminars examines the importance and complexities of movement and mobility whether on land or water in the Neolithic period It uses movement in its widest sense ranging from everyday mobilities the routines and rhythms of daily life to proscribed mobility such as movement in and around monuments and occasional and large scale movements and migrations around the continent and across seas Papers are roughly grouped and focus on mobility and the landscape monuments and mobility travelling by water and materials and mobility Through these themes the volume considers the movement of people ideas animals objects and information and uses a wide range of archaeological evidence from isotope analysis artefact studies lithic scatters and assemblage diversity Return to Muck Marg Greenwood , 2022-04-19 Return to Muck tells of Marg s experiences as a solo older woman traveller in some lesser known Scottish islands in the Inner and Outer Hebrides On a budget she mostly stays in hostels and bunkhouses travels by car within the islands except Muck but takes no carbon emitting flights She walks wanders and wonders talks to islanders age range from 5 to 97 comes across usually by chance stunning geographical features exciting wildlife ancient stones folktales and other finds many of which lead her to research and more discovery Unusual subject matters include finding the connection between goose barnacles

and barnacle geese learning about Gaelic song and stumbling across a lighthouse optic in a stately home garden Two of these finds become sources for poems From this an increased creativity emerges some of which is a natural progression from her poems that of composing songs and teaching them at other island schools as well as the Muck school She bases the lyrics of these songs on a folktale pertaining to the particular island thus allowing the pupils to express themselves musically and learn about their local folklore at the same time She describes her own experiences of teaching the songs This book offers a perspective only a lone woman traveller can give It can serve both as a memento to those who know the islands well and provide an introduction for anyone who has yet to discover them especially those who yearn to travel alone **Scottish Record Society** ,2011 **Scottish Geographical Magazine** ,1923 *The British National Bibliography* Arthur James Wells,2009
