War of Intervention in Angola Adrien Fontanellaz, Tom Cooper, José Augusto Matos, 2021-06-23 War of Intervention in Angola Volume 4 continues the coverage of the operational history of the Angolan Air Force and Air Defense Force FAPA DAA as told by Angolan and Cuban sources in the period 1985 1988 Many accounts of this conflict better known in the West as the Border War or the Bush War as named by its South African participants consider the operations of the FAPA DAA barely worth commentary At most they mention a few air combats involving Mirage F 1 interceptors of the South African Air Force SAAF in 1987 and 1988 and perhaps a little about the activity of the FAPA DAA s MiG 23s However a closer study of Angolan and Cuban sources reveals an entirely different image of the air war over Angola in the 1980s indeed it reveals the extent to which the flow of the entire war was dictated by the availability or the lack of air power These issues strongly influenced the planning and conduct of operations by the commanders of the Angolan and Cuban forces Based on extensive research with the help of Angolan and Cuban sources War of Intervention in Angola Volume 4 traces the Angolan and Cuban application of air power between 1985 1988 during which it came of age and the capabilities intentions and the combat operations of the air forces The volume is illustrated with 100 rarely seen photographs half a dozen maps and 15 color profiles and provides a unique source of reference on this subject

Ground Combat Ben Connable, 2025 Ground Combat reveals the gritty details of land warfare at the tactical level and challenges the overly subjective and often inaccurate American approach to characterizing war Ben Connable s motivation for writing the book is to replace overly subjective analyses with an evidence based approach to examining war From analyzing a set of over 400 global ground combat cases Connable shows there has been a modest and evolutionary shift in the characteristics of ground combat from World War II through the early 2020s This evidence of gradual change repudiates the popular but often hyperbolic arguments about military technical revolutions and that there is a singular character of war in the modern era Connable identifies past and current weaknesses in military design and strategy examines common characteristics in modern ground combat from the data and reframes the debate over the historical and prospective impact of emerging technologies on war Ground Combat sets an evidentiary baseline and a new detail oriented standard for conflict research and

policymaking **The Handbook of African Defence and Armed Forces** Evert Kleynhans, Marco Wyss, 2025-03-01 The Handbook of African Defence and Armed Forces provides the first in depth and multifaceted analysis of the evolution and current state of national defence policies strategies doctrines capabilities security challenges and strategic responses of African states and their armed forces Geographically these aspects are investigated at the national sub regional and regional levels Chronologically they are analysed against the backdrop of the superpower withdrawal from the continent in the 1990s and the so called New Scramble for Africa which has seen a crescendo of renewed great power interest in the continent s resources as well as its strategic role location and relevance since the 2000s The book takes a bottom up and African centric approach and is organized around five key themes i the differing security outlooks and defence policies of African powers within the region and the different sub regions ii the strategies doctrines transformation and employment of African armed forces iii the relationship between African armed forces with sub regional regional and international organizations iv the challenges that African states and their armed forces have been facing and their strategic responses and v the position of African perspectives and agency in the context of continental and international security and defence Understanding African security and defence especially in terms of each individual nation s ability to contribute to peacekeeping operations counterterrorism border security and internal security requires a focus on the national level of armed forces and defence policies this in turns sheds light on sub regional and regional divergences challenges and cooperation Based on this framework the chapters in this volume offer comprehensive African perspectives on African and international security and defence and in doing so show the agency of the continent s countries and armed forces in International Security and Relations *Modern African Conflicts* Timothy J. Stapleton, 2022-06-30 An essential resource for students or general readers interested in post colonial Africa this encyclopedia provides coverage of different regions countries wars battles factions leaders and foreign powers Armed conflict represents a substantial part of African history since around 1960 yet this history is either insufficiently taught or overshadowed by negative stereotypes about African tribal warfare This encyclopedia provides concise historical information on conflicts that occurred in post colonial Africa The entries cover all the regions of Africa North West Central East and Southern the Cold War and post Cold War periods a range of important leaders various types of conflicts from civil wars and insurgencies to conventional military engagements involvement of foreign powers and such themes as airpower women and war and genocide The Rif War Javier Garcia de Gabiola, 2023-06-30 The Rif War in rugged northern Morocco is remembered for romantic films and novels about the French Foreign Legion such as Beau Geste In reality the French intervention although very important was late and secondary in importance to that of the Spanish The second volume of The Rif War begins with the aftermath of the Disaster of Annual and documents the Spanish response and reconquest of Morocco While the renewed campaign remained largely one of columns outposts and fortresses it also took on the character of a very modern war with the use of armored vehicles trench warfare aircraft chemical weapons and large

scale amphibious landings by combined arms forces Indeed the Spanish landing at Alhucemas conducted with French naval support would become the subject of study by the Allies in the Second World War Yet despite these innovations including a number of firsts in the history of conflict and in particular of the history of conflict in Africa Spain would continue to suffer heavy casualties in a bitterly fought contest for control of Morocco Volume 2 of The Rif War covers the Spanish reconquest of the positions lost after the Disaster of Annual in the Melilla Sector the near disaster of Xauen in the Western zone of the African Protectorate the Rifian attack in French Morocco the Landing at Alhucemas and the Spanish French offensive with the capture of Abd El Krim and the destruction of his forces and the final campaigns in the Gomara region to pacify the Protectorate This series of books addresses the organization of the Spanish and Rifian armies and of the air forces and their operations including those of an incipient and frustrated Rifian aviation The war also saw the Spanish Army completely reformed reaching new levels of effectiveness with the Spanish Legion and the recruitment of Moroccan soldiers of the Regulares This volume is richly illustrated with original photographs of the conflict and includes specially commissioned artworks showing the men vehicles aircraft and ships employed in the Rif War

Ethiopian-Eritrean Wars Tom Cooper,Adrien Fontanellaz,2018-07-31 Ethiopia a country of ancient origins in eastern Africa remains a military powerhouse of that continent until our days Nowadays involved in the war in neighboring Somalia Ethiopia was also involved in half a dozen of other armed conflicts over the last 60 years Crucial between these was the Eritrean War of Independence Fought 1961 1991 this was one of biggest armed conflicts on the African continent especially if measured by numbers of involved combatants It included a wide spectrum of operations from classic counterinsurgency COIN to conventional warfare in mountains with the latter being one of the most complex and most demanding undertakings possible to conduct by a military force Campaigns run during the Eritrean War of Independence often included large formations of relatively well equipped forces led by well trained commanders along well thought out plans based on homegrown doctrine The air power played a crucial although not necessarily decisive role in many of battles Nevertheless most of details about this conflict remain unknown in the wider public Similarly relatively few Western observers are aware of relations between the Eritrean liberation movements and various dissident and insurgent movements inside Ethiopia although the synergy of these eventually led the downfall of the so called Derg government in 1991 While the first volume in this mini series spanned the history of wars between Ethiopia and Eritrea between 1961 and 1988 the second covers the period since Correspondingly it is providing coverage of military operations that led to the fall of the Derg government in Ethiopia of 1991 the period of Eritrean military buildup and a complete reorganization of the Ethiopian military in the 1990s and concludes with the first detailed account of the so called Badme War fought between Ethiopia and Eritrea in period 1998 2001 It is illustrated by many contemporary photographs maps and color profiles

Wars and Insurgencies of Uganda 1971-1994 Tom Cooper,Adrien Fontanellaz,2015 In 1971 Idi Amin Dada seized power in a military coup in Uganda Characterized by human

Mar Verde José Augusto Matos, 2021-09-30 In the early hours of 22 November 1970 six Portuguese warships surrounded Conakry the capital of the Republic of Guinea on the West African coast Taking advantage of the darkness of the night a military force landed on the northern and southern coasts of the sleeping city At the head of these men was a young Portuguese marine officer Commander Alpoim Calvo who had been appointed to command this secret operation codenamed Green Sea *Mar Verde* in Portuguese The main objective of the invasion was to promote a coup d'état in the former French colony and overthrow the regime of President Sékou Touré who supported the guerrillas of the PAIGC African Party for the Independence of Guinea and Cape Verde who were fighting for the independence of Portuguese Guinea The invaders also sought to destroy the naval resources that the guerrillas and the Guinean navy had in the port of Conakry capture the leader of the party Amílcar Cabral and rescue a group of Portuguese soldiers held in a PAIGC prison The incursion would not have the expected success concerning the coup d'état and Portugal would be condemned by international organizations for the invasion of a sovereign state but this operation would remain in the memory of many as the most daring carried out during the colonial war in Africa although the Portuguese regime never recognized its involvement

Africa is NOT for sale Abdelaziz Sulaiman Yasin, 2025-07-30 The African continent has never been proffered upon the bazaar of imperial titans by its own peoples alas it has been and remains dangled for auction by those who subjugated its inhabitants ruling them through the iron fist of tyranny and terror wielded by the machinery of militarism armaments and legions sustained from the very coffers of the people's toil and the bounties of their homeland This resplendent continent teeming with the vigor of youth in the majority of its denizens is paradoxically governed by despots whose years have eclipsed eighty or seventy in the most merciful of reckonings The earth once vast and welcoming has constricted around its young in this beautiful realm casting them adrift upon shoreless seas into merciless metropolises and nations that siphon the nectar of their prime In this tome the author beseeches every government and sovereign of the magnificent continent to forge unbreakable bonds of unity charting a primordial course toward the reclamation of African dignity and exalted pride let the militarists eschew the siren call of coups d'état yielding the stage to a democracy attuned to the rhythms of their peoples and the cadence of their existence The author summons all Africans to forsake the shadows of charlatanry sorcery enchantment the veneration of the departed and the deification of the living let them pivot toward the luminous realms of science illuminating their multitudes with the radiant torch of cognitive enlightenment Elevate the stipends of educators to summits surpassing those of presidents parliamentarians and politicians those notorious purveyors of hypocrisy The author insists with unyielding conviction that no path unfurls before Africans save this to coalesce and birth the United States of Africa graced with a singular currency and a covenant of mutual defense For Africa shall be exalted by none but her own steadfast
