Locating Television Anna Cristina Pertierra,Graeme Turner,2012-12-12 Locating Television Zones of Consumption takes an important next step for television studies it acknowledges the growing diversity of the international experience of television today in order to address the question of what is television now The book addresses this question in two interrelated ways by situating the consumption of television within the full range of structures patterns and practices of everyday life and by retrieving the importance of location as fundamental to these structures patterns and practices and consequently to the experience of television This approach involving collaboration between authors from cultural studies and cultural anthropology offers new ways of studying the consumption of television in particular the use of the notion of zones of consumption as a new means of locating television within the full range of its spatial temporal cultural political and industrial contexts Although the study draws its examples from a wide range of locations the US the UK Australia Malaysia Cuba and the Chinese language markets in Asia Hong Kong Singapore China and Taiwan its argument is strongly informed by the evidence and the insights which emerged from ethnographic research in Mexico This research site serves a strategic purpose by working on a location with a highly developed and commercially successful transnational television industry but which is not among the locations usually considered by television studies written in English the limitations to some of the assumptions underlying the orthodoxies in Anglo American television studies

are highlighted Suitable for both upper level students and researchers this book is a valuable and original contribution to television media and cultural studies and anthropology presenting approaches and evidence that are new to the field

Flying Magazine ,1998-09 **It Can Happen Here** Todd "Skippy" Conroy,2017-05-26 This is the book that has become a cult hit The breath taking revelations center on a young boy s opposition to authoritarianism and his subsequent struggle against it to foment rebellion It is written in the ground breaking new style of an alternate history book within a police state The teenager lives in a world where infants are numbered as soon as they are born The numbers are used to track and control everyone from cradle to grave and to expropriate them continuously The bloated government brainwashes each child for more than a decade Small children are trained to perform bizarre rituals en masse and on command The indoctrination is so intense that adults continue to perform in a knee jerk manner on cue for their entire lives A frightening book written for frightening times A tale about the fragility of freedom it is an alarming eerily timeless look at how fascism could take hold in America It juxtaposes sharp political satire with the chillingly realistic rise of authoritarianism It is a shockingly prescient novel in terms that are as fresh and contemporary as today s news With references to actual historical events and people the book will have readers wondering which parts are true and which parts aren t It debunks Sinclair Lewis book *It Can t Happen Here* Do you dare peek inside the twisted noggin of researcher Dr Rex Curry The author Todd Conroy lifts the doctor s lid A glimpse will change you forever When you are done exploring will your life return to boring *Tumbling Pebble Magazine* **The Myth of The Bonbons** Jennifer Johnston,2006-03 From early adolescence I had

committed myself to joining the seemingly growing legions of women pumping their fists with a can do spirit and a perfect balance of career and family I fancied myself a textbook candidate for the League of Female Marvels until the narcolepsy and nausea set in and I chickened out Sacrificing a few rungs on the corporate ladder to stay home and be a Full Time Mom FTM surely would prove a noble not to mention more orderly move And think of all the discretionary time and energy Cue laughter Except within those rare close knit and blackmail toting friendships the more maddening yet equally funny stories of motherhood are seldom shared until now From sex to sippy cups the stories contained herein are told with candor albeit through the eyes of a woman with a slight flair for the dramatic Still you may find them to serve as a mirror a memoir or a medicine to your own life or that of any mom with whom you ve ever lived Occasionally sweet always straight The Myth of The Bonbons will strike a nerve with many women and the men who find a well timed placement of it on their nightstands
