Engel, Timothy S. Lyle, 2021-06-15 Why LGBTQ people must resist the seduction of dignity In 2015 when the Supreme Court declared that gay and lesbian couples were entitled to the equal dignity of marriage recognition the concept of dignity became a cornerstone for gay rights victories In *Disrupting Dignity* Stephen M Engel and Timothy S Lyle explore the darker side of dignity tracing its invocation across public health politics popular culture and law from the early years of the HIV AIDS crisis to our current moment With a compassionate eye Engel and Lyle detail how politicians policymakers media leaders and even some within LGBTQ communities have used the concept of dignity to shame and disempower members of those communities They convincingly show how dignity and the subsequent chase to be defined by its terms became a tool of the state and the marketplace thereby limiting its more radical potential Ultimately Engel and Lyle challenge our understanding of dignity as an unquestioned good They expose the constraining work it accomplishes and the exclusionary ideas about respectability that it promotes To restore a lost past and point to a more inclusive future they assert the worthiness of queer lives beyond dignity's limits **Animation in the Middle East** Stefanie Van de Peer, 2017-02-27 The internationally acclaimed films *Persepolis* and *Waltz with Bashir* only hinted at the vibrant animation culture that exists within the Middle East and North Africa In spite of censorship oppression and war animation studios have thrived in recent years in Egypt Iran Iraq Lebanon Morocco Palestine Syria and Turkey giving rise to a whole new generation of entrepreneurs and artists The success of animation in the Middle East is in part a product of a changing cultural climate which is increasingly calling for art that reflects politics Equally the professionalization and popularization of film festivals and the emergence of animation studios and private initiatives are the results of a growing consumer culture in which family friendly entertainment is big business Animation in the Middle East uncovers the history and politics that have defined the practice and study of animation in the Middle East and explores the innovative visions of contemporary animators in the region

History by HBO Rebecca Weeks, 2022-07-12 The television industry is changing and with it the small screen's potential to engage in debate and present valuable representations of American history. Founded in 1972, HBO has been at the forefront of these changes, leading the way for many network cable and streaming services into the post-network era. Despite this, most scholarship has been dedicated to analyzing historical feature films and documentary films, leaving TV and the long-form drama hungry for coverage. In *History by HBO: Televising the American Past*, Rebecca Weeks fills the gap in this area of media studies and defends the historiographic power of long-form dramas. By focusing on this change and its effects, *History by HBO* outlines how history is crafted on television and the diverse forms it can take. Weeks examines the capabilities of the long-form serial for engaging with historical stories, insisting that the shift away from the network model and toward narrowcasting has enabled challenging histories to thrive in home settings. As an examination of HBO's unique structure for producing quality historical dramas, Weeks provides four case studies of HBO series set during different periods of United States history: *Band of Brothers* (2001), *Deadwood* (2004–2007), *Boardwalk Empire* (2012–2014), and *Treme* (2010–2013). In each case, HBO's lack of advertiser influence, commitment to creative freedom, and generous budgets continue to draw and retain talent who want to tell historical stories. Balancing historical and film theories in her assessment of the roles of mise en scène, characterization, narrative complexity, and sound in the production of effective historical dramas, Weeks' evaluation acts as an ode to the most recent Golden Age of TV as well as a critical look at the relationship between entertainment media and collective memory.
