The Effectiveness of the UN Human Rights System Surya Subedi, OBE, QC (Hon), 2017-05-18 The UN human rights agenda has reached the mature age of 70 years and many UN mechanisms created to implement this agenda are themselves in their middle age yet human rights violations are still a daily occurrence around the globe The scorecard of the UN human rights mechanisms appears impressive in terms of the promotion spreading of education and engaging States in a dialogue to promote human rights but when it comes to holding governments to account for violations of these rights the picture is much more dismal This book examines the effectiveness of UN mechanisms and suggests measures to reform them in order to create a system that is robust and fit to serve the 21st century This book casts a critical eye on the rationale and effectiveness of each of the major UN human rights mechanisms including the Human Rights Council the human rights treaty bodies the UN High Commissioner for Human Rights the UN Special Rapporteurs and other Charter based bodies Surya P Subedi argues most of the UN human rights mechanisms have remained toothless entities and proposes measures to reform and strengthen it by depoliticising the workings of UN human rights mechanisms and judicialising human rights at the international level The International Legal Framework on Violence Against Women Ronagh J.A. McQuigg, 2025-10-17 This book provides in depth critical analysis of the international legal framework on violence against women and crucially the need for reform of this framework Violence against women occurs in every state worldwide and constitutes one of the most prevalent human rights abuses at the global level However none of the UN treaties refer specifically to violence against women The book argues that there is a pressing need for legally binding provisions to be adopted at the global level on this issue Two forms which such provisions could take are considered These are firstly an Optional Protocol to the UN Convention on the Elimination of All Forms of Discrimination Against Women and secondly a stand alone UN treaty on violence against women The book s intended audience includes academics and researchers from a wide variety of disciplines such as human rights international law criminal law criminology social policy gender studies and sociology as well as practitioners and those in the voluntary sector who are working in the area of combating violence against women The book could also be used beneficially on courses at both undergraduate and postgraduate levels which incorporate the topic of violence against women

The Istanbul Convention, Domestic Violence and Human Rights Ronagh McQuigg, 2017-09-19 The Convention on Preventing and Combating Violence against Women and Domestic Violence also known as the Istanbul Convention was adopted by the Committee of Ministers of the Council of Europe on 7 April 2011 The Convention entered into force on 1 August 2014 and has currently been ratified by 22 states This Convention constitutes a crucial development as regards the movement to combat gender based violence as it sets new legally binding standards in this area This book provides a detailed analysis of the Convention and its potential to make an impact in relation to the specific issue of domestic violence The book places the Istanbul Convention in context with regard to developments relating to domestic violence as a human rights issue

The background to the adoption of the Convention is examined and the text of this instrument is analysed in detail. Comparative analysis is engaged in with reference to the duties that have been placed on states by other bodies such as the UN Committee on the Elimination of Discrimination against Women and the European Court of Human Rights. Comparisons are also drawn with the Inter American Convention on the Prevention, Punishment and Eradication of Violence against Women and with the relevant provisions of the Protocol to the African Charter on Human and Peoples Rights on the Rights of Women in Africa. An in depth examination of the advantages of the adoption of the Istanbul Convention by the Council of Europe is provided along with a detailed analysis of the challenges faced by the Convention. The book concludes with a number of brief reflections in relation to the question of whether the adoption of a UN convention on violence against women may be a possible development and the potential such an instrument holds in the context of domestic violence.

The Irish Yearbook of International Law, Volume 6, 2011 Fiona de Londras, Siobhán Mullally, 2013-08-23 The Irish Yearbook of International Law is intended to stimulate further research into Ireland's practice in international affairs and foreign policy, filling a gap in existing legal scholarship and assisting in the dissemination of Irish thinking and practice on matters of international law. On an annual basis the Yearbook presents peer reviewed academic articles and book reviews on general issues of international law. Designated correspondents provide reports on international law developments in Ireland, Irish practice in international fora and the European Union and the practice of joint North South implementation bodies in Ireland. In addition the Yearbook reproduces documents that reflect Irish practice on contemporary issues of international law. Publication of the Irish Yearbook of International Law makes Irish practice and *opinio juris* more readily available to Governments, academics and international bodies when determining the content of international law. In providing a forum for the documentation and analysis of North South relations the Yearbook also makes an important contribution to post conflict and transitional justice studies internationally. As a matter of editorial policy the Yearbook seeks to promote a multilateral approach to international affairs, reflecting and reinforcing Ireland's long standing commitment to multilateralism as a core element of foreign policy.
