Matricentric Feminism: Theory, Activism, Practice. The 2nd Edition Andrea O'Reilly, 2021-04-04 The 2nd edition includes a new preface that considers how matricentric feminism in positioning mothering as a verb affords a gender neutral understanding of motherwork and allows for an appreciation of how motherwork is deeply gendered and how this may be challenged and changed through empowered mothering The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face are specific to women's role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O'Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice
