

The Titans Of Takeover The Titans Of Takeover

Peter Singer

The Titans Of Takeover The Titans Of Takeover:

The Titans of Takeover Robert Slater, 1999 The story told in The Titans of Takeover is that of the corporate raiders the men who in the 1980s discovered great financial opportunities in seizing control of someone else's business often at bargain prices With millions of dollars at stake these raiders aroused massive public attention and depending on point of view were for a while either the villains or the saviors of American business The book looks not only at the raiders but also at other featured players in the takeover game the investment bankers attorneys and arbitragers Profiled in these pages are the leading figures in the American takeover field including T Boone Pickens Carl Icahn Saul Steinberg and Ted Turner as well as such behind the scenes personalities as lawyers Martin Lipton and Joseph Flom investment bankers Joseph Perella and Bruce Wasserstein and arbitrager Ivan Boesky Book jacket

American Tabloid Media and the Satanic Panic, 1970-2000 Sarah A. Hughes, 2021-10-27 This book examines the satanic panic of the 1980s as an essential part of the growing relationship between tabloid media and American conservative politics in the 1980s It argues that widespread fears of Satanism in a range of cultural institutions was indispensable to the development and success of both infotainment or tabloid content on television and the rise of the New Right a conservative political movement that was heavily guided by a growing coalition of influential televangelists or evangelical preachers on television It takes as its particular focus the hundreds of accusations that devil worshippers were operating America's white middle class suburban daycare centers Dozens of communities around the country became embroiled in trials against center owners the most publicized of which was the McMartin Preschool trial in Manhattan Beach California It remains the longest and most expensive criminal trial in the nation's history

The Synergy Trap, Asia-Pacific Edition Mark L. Sirower, 2010-06-15 Every CEO and Corporate Director who has been in the path of the WOW GRAB IT acquisition locomotive should read this book Charles R Shoemate Chairman and CEO Bestfoods With global acquisition activity running into the trillions of dollars the acquisition alternative continues to be the favorite corporate growth strategy of this generation's executives Unfortunately creating shareholder value remains the most elusive outcome of these corporate strategies After decades of research and billions of dollars paid in advisory fees why do these major decisions continue to destroy value Building on his groundbreaking research first cited in Business Week Mark L Sirower explains how companies often pay too much and predictably never realize the promises of increased performance and competitiveness in their quest to acquire other companies Armed with extensive evidence Sirower destroys the popular notion that the acquisition premium represents potential value He provides the first formal and functional definition for synergy the specific increases in performance beyond those already expected for companies to achieve independently Sirower's refreshing nuts and bolts analysis of the fundamentals behind acquisition performance cuts sharply through the existing folklore surrounding failed acquisitions such as lack of strategic fit or corporate culture problems and gives managers the tools to avoid predictable losses in acquisition decisions Using several detailed examples of

recent major acquisitions and through his masterful integration and extension of techniques from finance and business strategy Sirower reveals The unique business gamble that acquisitions represent The managerial challenges already embedded in current stock prices The competitive conditions that must be met and the organizational cornerstones that must be in place for any possibility of synergy The precise Required Performance Improvements RPIs implicitly embedded in acquisition premiums and the reasons why these RPIs normally dwarf realistic performance gains The seductiveness and danger of sophisticated valuation models so often used by advisors The Synergy Trap is the first expose of its kind to prove that the tendency of managers to succumb to the up the ante philosophy in acquisitions often leads to disastrous ends for their shareholders Sirower shows that companies must meticulously plan and account for huge uncertainties before deciding to enter the acquisition game To date Sirower s work is the most comprehensive and rigorous yet practical analysis of the drivers of acquisition performance This definitive book will become required reading for managers corporate directors consultants investors bankers and academics involved in the mergers and acquisitions arena

Collecting the Now Michael Maizels,2022-08-09 Collecting the Now offers a new in depth look at the economic forces and institutional actors that have shaped the outlines of postwar art history with a particular focus on American art 1960 1990 Working through four case studies Michael Maizels illuminates how a set of dealers and patrons conditioned the iconic developments of this period the profusions of pop art the quixotic impossibility of land art the dissemination of new media and the speculation fueled neo expressionist painting of the 1980s This book addresses a question of pivotal importance to a swath of art history that has already received substantial scholarly investigation We now have a clear nuanced understanding of why certain evolutions took place why pop artists exploded the delimited parameters of aesthetic modernism why land artists further strove against the object form itself and why artists returned to neo traditional painting in the 1980s But remarkably elided by extant scholarship has been the question of how How did conditions coalesce around pop so that its artists entered into museum collections and scholarly analyses at pace unprecedented in the prior history of art How when seeking to transcend the delimited gallery object were land artists able to create monumental and by extension monumentally expensive interventions in the extreme wilds of the Western deserts And how did the esoteric objects of media art come eventually to scholarly attention in the sustained absence of academic interest or a private market The answers to these questions lie in an exploration of the financial conditions and funding mechanisms through which these works were created advertised distributed and preserved

The Public Company Transformed Brian Cheffins,2018-09-28 For decades the public company has played a dominant role in the American economy Since the middle of the 20th century the nature of the public company has changed considerably The transformation has been a fascinating one marked by scandals political controversy wide swings in investor and public sentiment mismanagement entrepreneurial verve noisy corporate raiders and various other larger than life personalities Nevertheless amidst a voluminous literature on corporations a systematic historical

analysis of the changes that have occurred is lacking The Public Company Transformed correspondingly analyzes how the public company has been recast from the mid 20th century through to the present day with particular emphasis on senior corporate executives and the constraints affecting the choices available to them The chronological point of departure is the managerial capitalism era which prevailed in large American corporations following World War II The book explores managerial capitalism's rise in the 1950s and 1960s heyday and its fall in the 1970s and 1980s It describes the American public companies and executives that enjoyed prosperity during the 1990s and the reversal of fortunes in the 2000s precipitated by corporate scandals and the financial crisis of 2008 The book also considers the regulation of public companies in detail and discusses developments in shareholder activism company boards chief executives and concerns about oligopoly The volume concludes by offering conjectures on the future of the public corporation and suggests that predictions of the demise of the public company have been exaggerated

When the Wolves Bite Scott Wapner, 2018-04-24 The inside story of the clash of two of Wall Street's biggest richest toughest most aggressive players Carl Icahn and Bill Ackman and Herbalife the company caught in the middle With their billions of dollars and their business savvy activist investors Carl Icahn and Bill Ackman have the ability to move markets with the flick of a wrist But what happens when they run into the one thing in business they can't control each other This fast paced book tells the story of the clash of these two titans over Herbalife a nutritional supplement company whose business model Ackman questioned Icahn decided to vouch for them and the dispute became a years long feud complete with secret backroom deals public accusations billions of dollars in stock trades and one dramatic insult war on live television Wapner who hosted that memorable TV show has gained unprecedented access to all the players and unravels this remarkable war of egos showing the extreme measures the participants were willing to take *When the Wolves Bite* is both a rollicking entertaining read a great business story of money and power and pride

Mergers, Acquisitions, and Other Restructuring Activities Donald DePamphilis, 2011-08-22 Two strengths distinguish this textbook from others One is its presentation of subjects in the contexts wherein they occur The other is its use of current events Other improvements have shortened and simplified chapters increased the numbers and types of pedagogical supplements and expanded the international appeal of examples

Dune: The Butlerian Jihad Brian Herbert, Kevin J. Anderson, 2003-09-15 Science fiction roman

The Synergy Trap Mark L. Sirower, 1997 This groundbreaking study cited in *Business Week* explains how companies often pay too much and never realize goals of increased performance and market strength in their quests to acquire other companies By examining such variables as method of payment and strategic relatedness Sirower provides the first formal definitions for synergies 10 illustrations

Encyclopedia of White-Collar and Corporate Crime Lawrence M. Salinger, 2013-06-14 Since the first edition of the *Encyclopedia of White Collar and Corporate Crime* was produced in 2004 the number and severity of these crimes have risen to the level of calamity so much so that many experts attribute the near Depression of 2008 to white collar malfeasance namely crimes of greed and excess by bankers and

financial institutions Whether the perpetrators were prosecuted or not white collar and corporate crime came near to collapsing the U S economy In the 7 years since the first edition was produced we have also seen the largest Ponzi scheme in history Maddoff an ecological disaster caused by British Petroleum and its subcontractors Gulf Oil Spill and U S Defense Department contractors operating like vigilantes in Iraq Blackwater White collar criminals have been busy and the Second Edition of this encyclopedia captures what has been going on in the news and behind the scenes with new articles and updates to past articles

The Buddha from Babylon Harvey Kraft,2014-05 The sudden death of the Persian Emperor in 522 BCE is one of history s great mysteries Was his demise self inflicted accidental an assassination or due to natural causes The author contends that during this incident Siddhartha Gautama may have been the leader of Babylon s Magi an interfaith order that assumes governance of the region The situation explodes when Darius the Great seizes the throne Simultaneously the Magi Order is purged as Siddhartha prince of the Saka nation heads back east to the Indus Could this event have inspired the creation of Buddhism as a pacifist movement dedicated to the pursuit of self transformation goodwill and universal compassion The Buddha from Babylon The Lost History and Cosmic Vision of Siddhartha Gautama uncovers new evidence that solves this ages old mystery and discovers Babylonian influences in the Buddha s revelations [The New Republic](#)

Monks,Nell Minow,2008-03-07 The new edition of this successful text offers an indispensable guide to the key concepts of corporate governance every student and business professional should know It includes more exercises and student questions penetrating analysis of the latest examples of corporate failure and controversy and the lively cases in point which have characterized previous editions Features 16 case studies of corporations in crisis including General Motors American Express Time Warner IBM and Premier Oil Contains an invaluable web link to The Corporate Library the leading independent research firm dedicated to corporate governance Includes an Appendix with an overview of CG Guidelines and Codes of Best Practice in Emerging Markets

The ITT Wars Rand V. Araskog,2000

Mergers and Acquisitions Basics Donald DePamphilis,2010-10-29 Mergers and Acquisitions Basics All You Need to Know provides an introduction to the fundamental concepts of mergers and acquisitions Key concepts discussed include M legal structures and strategies employed in corporate restructuring takeover strategies and the impact on corporate governance takeover defenses and players who make mergers and acquisitions happen The book also covers developing a business plan and the tools used to evaluate display and communicate information to key constituencies both inside and outside the corporation the acquisition planning process the negotiation integration planning and closing phases financing transactions and M A post merger integration This book is written for buyers and sellers of businesses financial analysts chief executive officers chief financial officers operating managers investment bankers and portfolio managers Others who may have an interest include bank lending officers venture capitalists government regulators human resource managers entrepreneurs and board members The book may also be used as a companion or supplemental text for

undergraduate and graduate students taking courses on mergers and acquisitions corporate restructuring business strategy management governance and entrepreneurship Describes a broad view of the mergers and acquisition process to illustrate agents interactions Simplifies without overgeneralizing Bases conclusions on empirical evidence not experience and opinion Features a recent business case at the end of each chapter

How Are We to Live? Peter Singer, 2010-03-19 Many people have an uneasy feeling that they may be missing out on something basic that would give their lives a significance it currently lacks But how should we live What is there to stop us behaving selfishly In this account which makes reference to a wide variety of sources and everyday issues Peter Singer suggests that the conventional pursuit of self interest is individually and collectively self defeating Taking into consideration the beliefs of Jesus Kant Rousseau and Adam Smith amongst others he looks at a number of different cultures including America Japan and the Aborigines to assess whether or not selfishness is in our genes and how we may find greater satisfaction in an ethical lifestyle

West Coast Review of Books , 1986

The Divine Right of Capital Marjorie Kelly, 2003-01-09 Why wealth bias is a holdover from a pre democratic past and how to restore a healthier balance of power Thought provoking well documented and readable Library Journal Wealth inequality corporate welfare and industrial pollution are symptoms the fevers and chills of the economy The underlying illness says Business Ethics magazine founder Marjorie Kelly is shareholder primacy the corporate drive to make profits for shareholders no matter who pays the cost In The Divine Right of Capital Kelly argues that focusing on the interests of stockholders to the exclusion of everyone else s interests is a form of discrimination based on property or wealth She shows how this bias is held by our institutional structures much as they once held biases against African Americans and women The Divine Right of Capital exposes six aristocratic principles that corporations are built on principles that we would never accept in our modern democratic society but which we accept unquestioningly in our economy Wealth bias is a holdover from our pre democratic past It has enabled shareholders to become a kind of economic aristocracy Kelly shows how to design more equitable alternatives new property rights new forms of corporate governance new ways of looking at corporate performance that build on both free market and democratic principles We think of shareholder primacy as the natural law of the free market much as our forebears thought of monarchy as the most natural form of government But in The Divine Right of Capital Kelly brilliantly demonstrates that it is no more natural than any other human creation People designed this system and people can change it We need a change of mind as profound as that of the American Revolution and this book provides practical guidance to help employees and communities change corporate governance and unfetter the genius of the free market

Acquisitions Et Offres Publiques D'achat McGill University. Faculty of Law, 1988

Company Men Sean Deleahanty, 2025-10-20 How an esoteric economic theory and its most devout believers changed the world forever In the modern economy stock price is king The value of a corporation is measured in how it enriches its shareholders even when doing so subtracts from long term growth or social good Greed in the last half century of corporate practice has become very

good Company Men is a sweeping intellectual history of how shareholder value rose from the lesser known edges of academic theory to the vanguard of corporate practice Historian Sean Delehanty marshals archival resources to reveal how a group of motivated consultants activist investors and academic economists successfully branded shareholder value as the antidote to problems of management and economic stagnation in the 1970s In their success they created a class of well heeled managers who executed shareholder value theory as an everyday practice and at the expense of most everything else Delehanty s history of the modern American corporation is a sobering account of the business regime that would rule the world and produce no shortage of regrets even amongst those who championed it Company Men is intellectual history at its most vital offering a surprising origin story of our economy s discontents

When somebody should go to the book stores, search initiation by shop, shelf by shelf, it is in point of fact problematic. This is why we allow the ebook compilations in this website. It will definitely ease you to see guide **The Titans Of Takeover The Titans Of Takeover** as you such as.
