The Iran-United States Claims Tribunal and the Process of International Claims Resolution David

D. Caron, Crook, 2021-10-01 Examining the Tribunal s structure operations and evolution in search of the underlying patterns that characterize such international institutions this valuable book records the diverse experiences and judgments of a group of outstanding lawyers each of whom has played a significant role at some stage of the Tribunal s proceedings The essays are grouped in three distinct stages in the Tribunal s history The first group deals with the creation of the Tribunal building upon the bare boned framework laid down by the Claims Settlement Declaration The second deals with the Tribunal at work processing and deciding cases during the period when it gave greatest emphasis to resolving large commercial claims The third deals with the present situation where the Tribunal has taken a docket first dominated by claims of U S Iranian dual nationals against Iran and then by a small group of large and difficult claims between the two governments Published under the auspices of the American Society of International Law Published under the Transnational Publishers imprint

Carbonneau on International Arbitration Thomas E. Carbonneau, 2011-01-01 The chapters of this volume represent the majority of Professor Carbonneau s scholarly writings on the subject of international commercial arbitration They reflect his interest over the course of thirty years of law teaching in international litigation comparative law and of course

international arbitration Some of the chapters are of a recent vintage while others were written a decade or two ago Whatever their date of production the chapters have a continuing professional interest Each addresses some of the major issues of trans border arbitration law A number of chapters emphasize the importance of courts in developing and maintaining a legal culture that is hospitable to arbitration The work of the courts has been instrumental to the reception of arbitration in the United States and in several European jurisdictions The courts can make or break arbitration by upholding arbitration agreements and enforcing arbitral awards Other chapters underscore that arbitration can operate as a complete legal system It not only provides workable trial procedures but arbitrators can also create law in their rulings With the addition of an internal arbitral appellate mechanism arbitrations can function with almost absolute independence The world law on arbitrations seems to favor the a national and a juridical operation of the arbitral process A few of the chapters recognize that arbitration is being increasingly employed to resolve political or mixed political and commercial disputes Investment arbitration and BITs are the most recent expression of this development it had been apparent in WTO and NAFTA dispute resolution The Iran U S Claims Tribunal presented the first great occasion for assessing the vocation of arbitration in a mixed dispute situation While arbitration has made significant inroads in this area political sovereignty remains resistant to the imposition of limitations In many less visible political cases determinations are nonetheless made and rendered enforceable The concluding chapters address more specific developments in the field of ICA A number of cases point to the strong perhaps overweening support of the judiciary for arbitration The courts in some jurisdictions support arbitration unequivocally and are bent upon a single outcome no matter the impact on doctrine Lawyer presence in the arbitral process has lead to increased formalization in some proceedings The judicialization of arbitration tilts the process toward the protection of rights and hinders its ability to function effectively and reach finality Lawyers can readily misunderstand and undermine the gravamen of arbitration The concluding chapters also establish that the UK Arbitration Act 1996 is one of the world s outstanding arbitration statutes It rivals and bests the UNCITRAL Model Law on ICA and is the equal of the French codified law on arbitration Finally the express text of the New York Arbitration Convention appears to have been altered significantly by court practice The possible limitations of national law have been neutralized and the provisions of the Convention articulate a truly trans border regulation of the enforcement of awards In sum the chapters in this book reflect the author s lifetime work in the area of international arbitration and are required reading for all those practicing in the field law students arbitrators academics and practicing lawyers
