Rattiner,2010-05-21 There has never been more opportunity for financial planners or more reasons for financial professionals to consider switching the direction of their careers into this lucrative field Today s planners will cash in on the huge surge of baby boomers preparing for retirement in the decades ahead And as the number and complexity of investments rises more individuals will look to financial advisers to help manage their money In the new paperback edition of this guide Jeffrey H Rattiner a practicing financial planner and educator provides a complete systematic turnkey framework for the aspiring planner to follow Starting from the key question Why do you want to be a financial planner the author guides you through the development of an effective infrastructure and client management system for your practice The many essential concepts are clearly illustrated with examples from practicing professionals Throughout this handbook Rattiner provides personal insights on how and why a planner must develop a solid understanding of client needs before building a comprehensive financial plan Getting Started as a Financial Planner has everything one needs to know from how to set up a practice and communicate with clients to how to manage investments and market services in order to launch a career in financial planning and to attain success in this high growth profession AARP® Crash Course in Finding the Work You Love Samuel

Greengard,2011-02-01 Boomers reinvented society Now they re reinventing themselves and AARP wants to facilitate that process AARP Crash Course in Finding the Work You Love explores both the motivations and the methods of those taking part in the social phenomenon known as recareering Whether they are old enough to have earned their AARP card or not a new generation of American workers is no longer counting the days until retirement instead they re seeking greater

fulfillment in their personal lives by tackling new and often much more socially significant work. Switching careers is a challenge at any age yet boomers may have more to overcome than their younger counterparts. They must beef up their education or seek out retraining, cope with seismic lifestyle shifts such as less income and a new circle of friends and reconcile themselves to the fact that even the most rewarding position is no panacea for life's problems. Author Sam Greengard brings a wealth of knowledge to this timely topic. Since 1981 he has written about career issues for publications as diverse as The Chicago Tribune, Family Circle, The Los Angeles Times, MSNBC, MSN Online, Wired, and Workforce Management. Here Greengard shows readers how to sort out their feelings about their existing career, successfully transition to a new one, and work toward a greater sense of balance in their daily lives. Profiles of recareering veterans show how others have attained their own goals. These are rounded out by tips, quizzes, worksheets, how-to sidebars, and other practical resources. With this handbook to guide them, readers of any age can finally make the leap to finding the life's work they will truly love.

The CPA Journal, 2007 **We're Not In Kansas Anymore** Walter Updegrave, 2004-04-20

Whether you are thirty years from retirement or it's just around the corner, here is the only book you'll need about how to get it together and plan a safe, secure, and prosperous retirement. We all know the scene: Dorothy is transported from the flat terrain of Kansas to the bizarre land of Oz. Her cry, "Toto, I don't think we're in Kansas anymore," may be the best line to describe how people feel about the retirement landscape. It's one teeming with challenges from the impact of corporate downsizing on individuals to battered 401(k)s, precarious Social Security, and cuts in pensions and health care benefits for retirees. Many people are intimidated and delay thinking about retirement. That's a mistake. *We're Not in Kansas Anymore* is the only guide you need to learn how to deal with the Oz-like reality that is retirement planning today. Walter Updegrave shows how to cut through the clutter, assess your finances, and become your own personal pension manager. Get real about retirement. Neither your employer nor the government will adequately feather your retirement nest. You're on your own. Only you can take action and responsibility for your life after work. Walter Updegrave shows how to start now. Develop a simple, direct, empowering retirement plan. Cut through the alphanumeric soup of 401(k)s, IRAs, Keoghs, and SEPs; get a grip and execute a personal plan that makes sense given your circumstances. Create a realistic investing strategy and get the most out of your 401(k) and other retirement accounts. Ensure that your money lasts a lifetime. The Tin Man wanted to experience life with passion and emotion. Likewise, you'll improve your chances of creating the kind of retirement you want if you bring some passion and emotion into your retirement plan and then save enough to make it a reality. The Scarecrow thought his life would be better if he only had a brain. It was the Scarecrow, however, who came up with the best ideas to get Dorothy out of her jams. Similarly, Updegrave shows that any reasonably intelligent person can execute a successful retirement plan and, like the Cowardly Lion, show some courage by having the discipline, willpower, and conviction to follow it through. *We're Not in Kansas Anymore* is the best, most thorough, and most empowering retirement guide in print today. Don't leave Kansas or anywhere else for that matter without
