Marc-ante Landschappen ,2008 **The Book of Nature in Early Modern and Modern History** Klaas van Berkel,Arie Johan Vanderjagt,2006 From 22 25 May 2002 the University of Groningen hosted an international conference on The Book of Nature Continuity and change in European and American attitudes towards the natural world From Antiquity down to our own time theologians philosophers and scientists have often compared nature to a book which might under the right circumstances be read and interpreted in order to come closer to the Author of nature God The reading of this book was not regarded as mere idle curiosity but it was seen as leading to a deeper understanding of God s wisdom and power and it culturally legitimated and promoted a positive attitude towards nature and its study A selection of the papers which were delivered at the conference has been edited in two volumes The first book was published as The Book of Nature in Antiquity and the Middle Ages this second volume is devoted to the history of that concept after the Middle Ages **Mededeelingen Van de Geologische Stichting** ,1967 **Scenario Studies for the Rural Environment** Job F.Th. Schoute,Peter A. Finke, Frank R. Veeneklaas, Henk P. Wolfert, 2012-12-06 Rural areas need to fulfil a large variety of functions and to accommodate many activities The complexity of the problems limited funds and the almost irreversible character of some interventions result in a compelling need to evaluate ex ante the effects of alternative solutions for designation of land for measures to develop infrastructure and for soil and water management Scenario studies are undertaken to help manage the complexity to place bounds on uncertainties and to create new visions After an overview of the nature variety and scope of scenario studies the book illuminates various European examples and reviews under the following headings regional soil and water management nature development and landscape quality rural planning and the future of regions **Vijftig jaren beoefening van de geschiedenis der geneeskunde, wiskunde en natuurwetenschappen in Nederland, 1913-1963** Genootschap voor Geschiedenis der Geneeskunde, Wiskunde, en Natuurwetenschappen (Netherlands), B.
