Virtual Reality Therapy for Anxiety Disorders B. K. Wiederhold, Mark D. Wiederhold, 2005 Virtual Reality Therapy for Anxiety Disorders explores how the latest virtual reality interventions can be used to treat patients with anxiety disorders Virtual reality therapy enables the patient to experience a realistic yet carefully controlled exposure to an anxiety provoking scenario in the therapist's own office The authors provide discussion of virtual reality therapy for specific disorders including panic disorder and agoraphobia obsessive compulsive disorder fear of flying or driving claustrophobia arachnophobia and fear of medical procedures Tips and caveats are provided making this book important reading for therapists interested in exploring an exciting new therapy modality , Annual Review of Cybertherapy and Telemedicine 2010 B. K. Wiederhold, Giuseppe Riva, Sun I. Kim, 2010 This book offers support and encouragement to all those interested in the development of cybertherapy systems It provides evidence to build confidence in their effectiveness for detecting monitoring and evaluating a number of important conditions and identifies and addresses the main barriers to their further development It is divided into four main sections critical reviews evaluation studies original research and clinical observations tackling this complex subject by means of a clearly sequenced structure **Clinician's Handbook of Adult Behavioral**

**Assessment** Michel Hersen, 2011-04-28 Given the vast amount of research related to behavioral assessment it is difficult for clinicians to keep abreast of new developments In recent years there have been advances in assessment case conceptualization treatment planning treatment strategies for specific disorders and considerations of new ethical and legal issues Keeping track of advances requires monitoring diverse resources limited to specific disorders many of which are theoretical rather than practical or that offer clinical advice without providing the evidence base for treatment recommendations This handbook was created to fill this gap summarizing critical information for adult behavioral assessment The Clinician's Handbook of Adult Behavioral Assessment provides a single source for understanding new developments in this field cutting across strategies techniques and disorders Assessment strategies are presented in context with the research behind those strategies along with discussions of clinical utility and how assessment and conceptualization fit in with treatment planning The volume is organized in three sections beginning with general issues followed by evaluations of specific disorders and problems and closing with special issues To ensure cross chapter consistency in the coverage of disorders these chapters are formatted to contain an introduction assessment strategies research basis clinical utility conceptualization and treatment planning a case study and summary Special issue coverage includes computerized assessment evaluating older adults behavioral neuropsychology ethical legal issues work related issues and value change in adults with acquired disabilities Suitable for beginning and established clinicians in practice this handbook will provide a ready reference toward effective adult behavioral assessment Annual Review of Cybertherapy and Telemedicine 2015 Giuseppe Riva, Mark D. Wiederhold, 2016-01-15 Healthcare delivery systems have evolved to rely more heavily on technology

in recent years There has been a shift in care diagnosis and treatment which has decreased the importance of traditional methods of care delivery Technology has not only helped to extend our lifespan but it has improved the quality of life for all citizens This book presents the proceedings of the 20th Annual CyberPsychology CyberTherapy critical reviews evaluation studies original research clinical observations and work in progress The book underlines how cybertherapy has started to make progress in treating a variety of disorders and provides an overview of the necessary skills and tools available as well as illuminating the context of interaction in which they operate
