Hans Bak, Céline Mansanti

War And The Intellectuals Collected Essays 1915 1919 Bourne:

The War and the Intellectuals Randolph Silliman Bourne, 1917 *War and the Intellectuals* Randolph Silliman Bourne, 1964 Although he died at the age of thirty two Randolph Bourne 1886 1918 left a body of writing on politics culture and literature that made him one of the most influential public intellectuals of the twentieth century and a hero of the American left The twenty eight essays of this volume among them *War and the Intellectuals* the analysis of the warfare state that made Bourne the foremost critic of American entry into World War 1 and Trans National America his manifesto for cultural pluralism in America show Bourne at his most passionate and incisive as they trace his search for the true wellsprings of nationalism and American culture *War and the Intellectuals-collected Essays-1915-1919* Randolph S. Bourne, Carl Resek, 1964 **War and the Intellectuals** Randolph Silliman Bourne, 1964 War and the Intellectuals Randolph Silliman Bourne, 1964 **Transatlantic Intellectual Networks, 1914-1964** Hans Bak, Céline Mansanti, 2019-11-13 The twelve essays in this book by scholars from the U S France Germany the Netherlands and the Czech Republic offer new transnational perspectives in transatlantic historical literary and cultural studies They explore the special role of American and European intellectuals as agents of transatlantic cultural transfer and examine the mechanisms and instruments through which artists writers and intellectuals communicated across oceans and national borders in the half century between 1914 and 1964 Their focus is on transatlantic networks and the instruments of culture through which such networks become operative as sites of cross cultural exchange circulation and interaction magazines caf s publishing houses book fairs agents translators and mediators and last but not least transatlantic personal friendships Contending that the dynamics of transatlantic cultural transfer need to be understood as reciprocal and multi directional they also exemplify the shift within transatlantic intellectual history from a traditional concern with European U S relations to a multidirectional triangular exploration of cultural political and intellectual relations between Europe the United States and Latin America

Heidegger in America Martin Woessner, 2010-12-20 *Heidegger in America* explores the surprising legacy of his life and thought in the United States of America As a critic of modern life Heidegger often lamented the growing global influence of all things American However it was precisely in America where his thought inspired the work of generations of thinkers not only philosophers but also theologians architects novelists and even pundits As a result the reception and dissemination of Heidegger s philosophical writings transformed the intellectual and cultural history of the United States at a time when American influence was itself transforming the world A case study in the complex and sometimes contradictory process of transnational exchange *Heidegger in America* recasts the scope and methods of contemporary intellectual and cultural history in the age of globalization challenging what we think we know about Heidegger and American ideas simultaneously

American Literature in Transition, 1910-1920 Mark W. Van Wienen, 2017-12-28 *American Literature in Transition* 1910 1920 offers provocative new readings of authors whose innovations are recognized as inaugurating Modernism in US

letters including Robert Frost Willa Cather T S Eliot Ezra Pound Gertrude Stein H D and Marianne Moore Gathering the voices of both new and established scholars the volume also reflects the diversity and contradictions of US literature of the 1910s Literature itself is construed variously leading to explorations of jazz the movies and political writing as well as little magazines lantern slides and sports reportage One section of thematic essays cuts across genre boundaries Another section oriented to formats drills deeply into the workings of specific media genres or forms Essays on institutions conclude the collection although a critical mass of contributors throughout explore long term literary and cultural trends where political repression race prejudice war and counterrevolution are no less prominent than experimentation progress and egalitarianism

Randolph Bourne and the Politics of Cultural Radicalism Leslie J. Vaughan, 1997 Reassesses the short life and career of American essayist critic and founder of cultural radicalism Bourne 1886 1918 known today mostly for his opposition to US military involvement in Europe and warnings about the military industrial complex Vaughan political science U of Minnesota Duluth argues that his stance from outside establishment perspectives was not a retreat from politics as many have claimed but a form of political engagement free from the suppositions that impede genuine debate and democratic change Annotation copyrighted by Book News Inc Portland OR The Power of Culture Richard Wightman Fox, T. J. Jackson Lears, 1993-04 We are in the midst of a dramatic shift in sensibility and cultural history is the rubric under which a massive doubting and refiguring of our most cherished historical assumptions is being conducted Many historians are coming to suspect that the idea of culture has the power to restore order to the study of the past Whatever its potency as an organizing theme there is no doubt about the power of the term culture to evoke and stand for the depth of the re examination not taking place At a time of deep intellectual disarray culture offers a provisional nominalist version of coherence whatever the fragmentation of knowledge however centrifugal the spinning of the scholarly wheel culture which even etymologically conveys a sense of safe nurture warm growth budding or ever present wholeness will shelter us The PC buttons on historians chests today stand not for politically correct but positively cultural from the Introduction More and more scholars are turning to cultural history in order to make sense of the American past This volume brings together nine original essays by some leading practitioners in the field The essays aim to exhibit the promise of a cultural approach to understanding the range of American experiences from the seventeenth century to the present Expanding on the editors pathbreaking *The Culture of Consumption* the contributors to this volume argue for a cultural history that attends closely to language and textuality without losing sight of broad configurations of power that social and political history at its best has always stressed The authors here freshly examine crucial topics in both private and public life Taken together the essays shed new light on the power of culture in the lives of Americans past and present

Whispering the Strategies of Language: An Mental Journey through **War And The Intellectuals Collected Essays 1915 1919 Bourne**

In a digitally-driven earth where displays reign supreme and instant interaction drowns out the subtleties of language, the profound strategies and emotional nuances hidden within words usually move unheard. However, nestled within the pages of **War And The Intellectuals Collected Essays 1915 1919 Bourne** a fascinating literary treasure pulsating with raw feelings, lies a fantastic journey waiting to be undertaken. Written by an experienced wordsmith, that charming opus invites visitors on an introspective trip, lightly unraveling the veiled truths and profound influence resonating within ab muscles material of every word. Within the emotional depths with this moving evaluation, we can embark upon a genuine exploration of the book is key styles, dissect their charming writing style, and yield to the effective resonance it evokes heavy within the recesses of readers hearts.
