The War of the Worlds Herbert George Wells, 1898 H G Wells's hugely influential book tracks the exploits of a writer who struggles to survive an alien invasion of Victorian England. The War of the Worlds by Herbert George Wells (Science Fiction, War and Military) the Annotated Edition H. G. Wells, 2020-06-23 The War of the Worlds is a military science fiction novel by English author H G Wells. It first appeared in serialized form in 1897, published simultaneously in Pearson's Magazine in the UK and Cosmopolitan magazine in the US. The first appearance in book form was published in London in 1898. It is the first person narrative of the adventures of an unnamed protagonist and his brother in Surrey and London as Earth is invaded by Martians. Written between 1895 and 1897, it is one of the earliest stories that detail a conflict between mankind and an extra-terrestrial race. The novel is one of the most commented-on works in the science fiction canon. The War of the Worlds has two parts: Book One, The Coming of the Martians, and Book Two, The Earth under the Martians. The narrator, a philosophically inclined author, struggles to return to his wife while seeing the Martians lay waste to southern England. Book One also imparts the experience of his brother, also unnamed, who describes events in the capital and escapes the Martians by boarding a ship near Tillingham on the Essex coast. The plot has been related to invasion literature of the time. The novel has been variously interpreted as a commentary on evolutionary theory, British Imperialism, and generally Victorian superstitions, fears, and prejudices. At the time of publication, it was classified as a scientific romance, like his earlier novel, The Time Machine. The War of the Worlds has been both popular, having never gone out of print, and influential, spawning half a dozen feature films, radio dramas, a record album, various comic book adaptations, a television series, and sequels or parallel stories by other authors. It has even influenced the work of scientists, notably Robert Hutchings Goddard.
