Warrant For Genocide Key Elements Of Turko Armenian Conflict:

Warrant for Genocide Vahakn Dadrian, 2017-11 Warrant for Genocide provides a unique interdisciplinary approach to understanding the underlying causes of the World War I Armenian genocide. It traces genocide to the origin and history of the long standing Turko Armenian discord with the massacres treated as a means to resolve the conflict between a powerful dominant group and a weak vulnerable minority. The World War I destruction of the Armenian people in the Ottoman Empire was neither an accident nor an aberration. The seeds of the large scale deportations and massacres of Armenians can be found in the 1919-1920 Turkish Courts Martial documents of leaders of the Young Turk Ittihadist regime. These were replete with xenophobic nationalism calls for the use of arms to achieve that end and references to Islam to incite the masses against Armenians. The utmost secrecy, camouflage and deflection with respect to their plans were evident in what was not said. This was a drastic departure by the regime from its publicly proclaimed posture of egalitarianism heralding the dawn of a new era of multiethnic harmony and accord in the decaying empire. Dadrian carefully details these calculated deliberations and the concomitant shift from Ottomanism to Turkism in the radical wing of the regime. He illustrates how this rekindled enmities between dominant Turks and subject minorities. The desire to neutralize or eliminate the opposition helped pave the way to a new and radical nationality policy. To Dadrian the act of genocide was a draconian method of resolving a lingering conflict. No analysis of the Armenian genocide can be adequate without understanding the origin, elements, evolution and escalation of the Turko Armenian conflict. Dadrian details this admirably showing that in the final analysis the Armenian genocide was a cataclysmic by product of this conflict. Genocide and Holocaust scholars, Armenian area specialists and human rights activists will consider this an essential addition to the literature.

Warrant for Genocide Vahakn N. Dadrian, 1996-11 *Iraq: Genocide by Sanctions* (Penerbit USM) Christian P Scherrer, 2014 Genocide by Sanctions explores the criminal abuse of UN sanctions. Evidence of a planned and systematically created giant infanticide is uncovered. US bombing in 1991 destroyed Iraq's water purification sewages and electricity plants to run them. The ensuing mass death of Iraqi babies and children was measured by experts who are among the authors. Genocide in International Law William A. Schabas, 2009-02-19 The 1948 Genocide Convention has become a vital legal tool in the international campaign against impunity. Its provisions including its enigmatic definition of the crime and its pledge both to punish and prevent the crime of crimes have now been interpreted in important

judgments by the International Court of Justice the ad hoc Tribunals for the former Yugoslavia and Rwanda and various domestic courts The second edition of this definitive work focuses on the judicial interpretation of the Convention relying on debates in the International Law Commission political statements in bodies like the General Assembly of the United Nations and the growing body of case law Attention is given to the concept of protected groups to problems of criminal prosecution and to issues of international judicial cooperation such as extradition The duty to prevent genocide and its relationship with the emerging doctrine of the responsibility to protect are also explored

On the Path to Genocide Deborah

Mayersen,2014-04-01 Why did the Armenian genocide erupt in Turkey in 1915 only seven years after the Armenian minority achieved civil equality for the first time in the history of the Ottoman Empire How can we explain the Rwandan genocide occurring in 1994 after decades of relative peace and even cooperation between the Hutu majority and the Tutsi minority Addressing the question of how the risk of genocide develops over time On the Path to Genocide contributes to a better understand why genocide occurs when it does It provides a comprehensive and comparative historical analysis of the factors that led to the 1915 Armenian genocide and the 1994 genocide in Rwanda using fresh sources and perspectives that yield new insights into the history of the Armenian and Rwandan peoples Finally it also presents new research into constraints that inhibit genocide and how they can be utilized to attempt the prevention of genocide in the future

Mark Levene,2018-01-12 From the years leading up to the First World War to the aftermath of the Second Europe experienced an era of genocide As well as the Holocaust this period also witnessed the Armenian genocide in 1915 mass killings in Bolshevik and Stalinist Russia and a host of further ethnic cleansings in Anatolia the Balkans and Eastern Europe

Crisis of Genocide seeks to integrate these genocidal events into a single coherent history Over two volumes Mark Levene demonstrates how the relationship between geography nation and power came to play a key role in the emergence of genocide in a collapsed or collapsing European imperial zone the Rimlands and how the continuing geopolitical contest for control of these Eastern European or near European regions destabilised relationships between diverse and multifaceted ethnic communities who traditionally had lived side by side An emergent pattern of toxicity can also be seen in the struggles for regional dominance as pursued by post imperial states nation states and would be states Volume I Devastation covers the period from 1912 to 1938 It is divided into two parts the first associated with the prelude to actuality of and aftermath of the Great War and imperial collapse the second the period of provisional New Europe reformulation as well as post imperial Stalinist Nazi and Kemalist consolidation up to 1938 Levene also explores the crystallisation of truly toxic anti Jewish hostilities the implication being that the immediate origins of the Jewish genocides in the Second World War are to be found in the First

Collective and State Violence in Turkey Stephan Astourian, Raymond Kévorkian, 2020-11-01 Turkey has gone through significant transformations over the last century from the Ottoman Empire and Young Turk era to the Republic of today but throughout it has demonstrated troubling continuities in its encouragement and deployment of mass violence In particular the construction of a Muslim Turkish identity has been achieved in part by designating internal enemies at whom public hatred can be directed This volume provides a wide range of case studies and historiographical reflections on the alarming recurrence of such violence in Turkish history as atrocities against varied ethnic religious groups from the nineteenth century to today have propelled the nation's very sense of itself
