VISHNU STAMBH Alias DHRUVA STAMBH (Let's Uncover Qutub Minar) Manish Pandey, 2015-10-15 Collection of Evidences To Uncover Qutub Minar *Astronomy in India, 1784-1876* Joydeep Sen, 2016-09-12 Indian scientific achievements in the early twentieth century are well known with a number of heralded individuals making globally recognized strides in the field of astrophysics Covering the period from the foundation of the Asiatic Society in 1784 to the establishment of the Indian Association for the Cultivation of Science in 1876 Sen explores the relationship between Indian astronomers and the colonial British He shows that from the mid nineteenth century Indians were not passive receivers of European knowledge but active participants in modern scientific observational astronomy **Beato's Delhi** Jim Masselos, 2011-12-07 Beato's Delhi offers a pictorial history of Delhi brought vividly to life through the visual virtuosity of Felice A Beato the famous nineteenth century photographer who came to India to record the last embers of the 1857 Mutiny and Jim Masselos who in 1997 retraced Beato's footsteps and photographed the same sites as far as possible By the time Beato reached Delhi in January 1858 the British had already subdued the city so he could not record the military campaign itself However his lens was perhaps the first to capture the battleground and other places of note in that campaign providing for posterity some unique views of Old Delhi before substantial parts of it were demolished in the aftermath of 1857 or radically redeveloped as the years progressed Beato's luminous views are juxtaposed with Masselos's present day photographs of the bustling metropolis shedding light on how the face of Delhi has transformed in the intervening 154 years Supplemented with an illuminating text by Masselos and Narayani Gupta Beato's Delhi is a moving testament to the resilience of this ever evolving city Harmony 3 Vasudev Vasanthi, 2008-09 *Delhi's Red Fort is Hindu Lalkot* Purushottam Nagesh Oak, 1976 Presentation of the thesis that Delhi's Red Fort was built by the 11th century Hindu king Anangapala and not by Shahjahan Emperor of India ca 1592-1666 Jantar Mantar, Maharaja Sawai Jai Singh's Observatory in Delhi Anisha Shekhar Mukherji, 2010 The Delhi Jantar Mantar is an enigma Its huge and arresting forms evoke awe even today when architecture seems to consist primarily of strange shapes and proportions Most people who see it are left with many questions What is it really Why is it called Jantar Mantar Is it linked to the performance of some mystical religious rites How were its gigantic structures made Do they form part of a maze Are they forerunners of abstract art installations Or are they buildings If so what is this strange architectural style so different from the other buildings of its time How if at all is it linked to astronomy This informative history and field guide explains all this and more Based on over a decade of extensive research it uses archival images photographs drawings and sketches to unravel how the 300 year old Jantar Mantar Observatory looked and worked in the past Each instrument of the Jantar Mantar is explained separately as a guided walk The book includes information on traditional Indian astronomy and on the political and cultural background of this royal observatory established by Maharaja Sawai Jai Singh II It not only traces its transformation into an archaeological

monument but also charts the way ahead by which the Delhi Jantar Mantar's historical function may be revived and conserved for future generations Carry this book to the Jantar Mantar and walk around the instruments with it Or read it before and after your visit to understand one of the world's most unusual and intriguing works of architecture *Delhi, a Bibliography: History, art & culture* C.
