Christina Voigt,Zen Makuch

Water And The Law Towards Sustainability Iucn Academy Of Environmental Law Series:

Water and the Law Michael Kidd, Loretta Feris, Tumai Murombo, Alejandro Iza, 2014-12-31 Water and the Law examines the critical relationship between law and the management of water resources in the context of ensuring environmental sustainability. It highlights the central importance of integrated water resources management and cooperation.

Implementing Environmental Law Paul Martin, Amanda Kennedy, 2015-08-28 This insightful book explores why implementation of environmental law is too often ineffective in achieving effective environmental governance. It provides careful analysis and innovative proposals to help improve the practical effectiveness of legal instruments.

Energy, Governance and Sustainability Jordi Jaria i Manzano, Nathalie Chalifour, Louis J. Kotzé, 2016-05-27 In summary, the book provides an interesting mix of energy topics and perspectives that appears somewhat eclectic at first glance. The book is a very useful and scholarly addition to the literature on energy governance and is recommended reading for all those who need to be better informed on the challenges and some of the solutions available at the current time.

David Grinlinton, *Journal of Energy & Natural Resources Law*. This timely book makes an original and in-depth contribution to the debate about how to transform our energy governance systems into ones that support a fair, safe, and sustainable society. It combines perspectives from leading scholars to provide a global outlook on alternative approaches to energy governance and innovative experiences. Taken as a whole, it offers a unique overview of some of the innovative and novel ways in which law can support the shift to sustainable and equitable energy systems.

The first section lays the conceptual and theoretical foundations for alternative approaches to energy governance, including its constitutional foundations, the role of human rights, and an environmentally just system that seeks universal access to energy for all. The second section showcases concrete innovative experiences in energy governance from around the globe, including smart cities, the role of the courts, energy efficiency of buildings, and the harnessing of energy from waste. Finally, the authors consider the social justice dimension, discussing the exploitation of energy resources by multinational companies in developing countries and the importance of agricultural production, distribution, and consumption in energy transformation.

This unique overview of the state of the art approaches to transformation of energy governance is vital reading for policy makers and both legal and non-legal scholars concerned with energy law, sustainability, and justice, and global governance.

Contributors: K. Bosselmann, J. Bowie, N. Chalifour, E. Daly, T. Daya, Winterbottom, C. Derani, A. Guerry, J. Jaria i Manzano, L. Kotzé, E. Le Gal, L. Lin Heng, M. Low, J. R. May, E. C. Okonkwo, R. L. Ottinger, C. Pappalardo, T. Parejo Navajas, M. P. Samonte Solis, M. K. Scanlan, J. Wentz.

The Law and Policy of Biofuels Yves Le Bouthillier, Annette Cowie, Paul Martin, Heather McLeod-Kilmurray, 2016-05-27 In the last twenty years, the biofuels industry has developed rapidly in many regions of the world. This timely book provides an in-depth and critical study of the law and policies in many of the key biofuels-producing countries, such as Brazil, China, and the US, as well as the EU and a number of other countries where this industry is quickly developing. Drawing on a range of disciplines, the contributors examine the roles of the public

and private sectors in the governance of biofuels They discuss topics such as sustainability and biofuels and provide a critical review of regulatory regimes for biofuels They conclude by proposing recommendations for more effective and efficient biofuel policies Academics working in the area of renewable energy and students in environmental law will find this book to be of interest It will also be of use to policy makers around the world looking to learn from various existing regimes

Transboundary Environmental Governance Simon Marsden, 2016-02-24 Effective protection of the marine and terrestrial environment increasingly requires cooperation between neighbouring States international organizations government entities and communities within States This book analyses key aspects of transboundary environmental law and policy and their implementation in Asia Australasia and Australian offshore territories and surrounding areas beyond national jurisdiction including Antarctica It discusses the potential for implementing key transboundary environmental mechanisms such as the 1991 Convention on Environmental Impact Assessment in a Transboundary Context Espoo Convention and its 1997 Protocol on Strategic Environmental Assessment Kiev Protocol in Australia and Asia drawing on experience from other regions and the potential application of these agreements to all UN member states The book makes an innovative contribution to research in the area of transboundary environmental governance particularly as it applies to Asia Australasia and international areas supplementing similar research which has predominantly focused on Europe and North America

The Search for Environmental Justice Paul Martin, Sadeq Z. Bigdeli, Trevor Daya-Winterbottom, Willemien du Plessis, Amanda Kennedy, 2015-07-31 This thoughtful book provides an overview of the major developments in the theory and practice of environmental justice It illustrates the direction of the evolution of rights of nature and exposes the diverse meanings and practical uses of the conc

Protecting Forest and Marine Biodiversity Ed Couzens, Alexander Paterson, Sophie Riley, Yanti Fristikawati, 2017-11-24 This timely book contributes to discussions on the best legal practices to use to promote conservation protection and sustainable use of biological diversity in forest and marine areas The breadth of issues explored across these two themes is immense and the book identifies both key differences and striking commonalities between them

The Law of Energy for Sustainable Development IUCN Academy of Environmental Law. Colloquium, 2005 The research focus for the IUCN Academy of Environmental Law in 2003 was a timely and challenging one entitled The Law of Energy for Sustainable Development As contemporary world politics demonstrates energy resources and generation are crucial issues facing the international community As research on energy law at the international regional and national level is in its infancy the insights provided by the contributors to this 2005 volume are a significant addition to the field

Courts and the Environment Christina Voigt, Zen Makuch, This discerning

book examines the challenges opportunities and solutions for courts adjudicating on environmental cases It offers a critical analysis of the practice and judgments of courts from various representative and influential jurisdictions **Sustainability Matters: Environmental And Climate Changes In The Asia-Pacific** Lin Heng Lye,Victor R Savage,Harn-wei Kua,Loke Ming Chou,Puay-yok Tan,2015-07-31 Sustainability Matters is a compilation of some of the best research papers by students from the National University of Singapore s multi disciplinary and inter disciplinary graduate programme in environmental studies the M Sc in Environmental Management MEM This collection is for the period 2012 2013 and 2013 2014 Entitled Sustainability Matters Environmental and Climate Changes in the Asia Pacific this is the fifth compilation by the programme and comprises 18 of the best research papers completed during this period The papers have been edited for brevity They analyse the many challenges to effective environmental management covering countries including Bangladesh Hong Kong India Malaysia Philippines Singapore and the US Issues examined include biodiversity conservation environmental impact assessments energy food security sustainable business practices public housing environmental education and climate change The first compilation Sustainability Matters Environmental Management in Asia was published in 2010 World Scientific and comprised the best papers from 2001 2002 to 2006 2007 The second Sustainability Matters Challenges and Opportunities in Environmental Management in Asia was published in 2011 Pearson and comprised the best papers from 2007 2008 and 2008 2009 The third and fourth compilations World Scientific comprised the best papers from the period 2009 2010 to 2011 2012 The papers are edited by five staff members from different disciplines in the MEM programme Lye Lin Heng Victor R Savage Kua Harn Wei Chou Loke Ming and Tan Puay Yok

The Enigmatic Realm of **Water And The Law Towards Sustainability Iucn Academy Of Environmental Law Series**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **Water And The Law Towards Sustainability Iucn Academy Of Environmental Law Series** a literary masterpiece penned with a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of people who partake in its reading experience.
