moves so that any individual can join a class and receive basically the same benefits that others get doing the same exercise performed. By having a plan of modified exercises structured within the program you give those individuals that have trouble keeping up a routine of land exercises due to any physical limitations an exercise avenue that is a good fit for their needs and allow them to workout in an overall class structure promoting an atmosphere of safety camaraderie and overall fun while getting the physical exercises they need along with the mental challenges that are incorporated within many of the exercises themselves.
