Zimsec November 2013 History Paper 1:

The History and Political Transition of Zimbabwe Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis Its focus is on a very problematic political culture that is proving very hard to transcend At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s Inevitably violence misogyny and masculinity are constitutive of the political culture Economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled Chimurenga aristocracy However this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe s ousting from power was preceded by dirty and protracted internal factionalism At the center of the factional politics was the first family Robert Mugabe and his wife Grace Mugabe This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and FDI national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics *Remembering Colonialism in Zimbabwe* Ivan Marowa, Ushehwezu Kufakurinani, 2023-12-14 This book examines the various ways in which colonialism in Zimbabwe is remembered looking both at how people analyse perceive and interpret the past and how they rewrite that past elevating some players and their historical agency Inspired by the ongoing movement on decoloniality this book examines the ways in which generations of today question and challenge colonialism s legacies and their role in Zimbabwe s collective memories and history The book analyses the memorialising of both Mugabe and Mnangagwa in their speeches and during the political transition before going on to trace the continuing impact of colonialism across areas as diverse as dress code place naming agriculture religion gender and in marginalised communities such as the BaKalanga Drawing on the expertise of Zimbabwean scholars this book will appeal to researchers of decolonisation and of African history and memory *Labour and Economic Change in Southern Africa c.1900-2000* Rory Pulossof, Andrew Cohen, 2021-06-03 This book explores the social and economic development of Zimbabwe Zambia and Malawi over the course of the twentieth century These three countries have long shared and interconnected pasts All three were drawn into the British Empire at a similar time and the formation of the ill fated Federation of Rhodesia and Nyasaland formally linked these countries together for a decade in the mid twentieth century This formal political relationship created dynamics that resulted in yet closer economic and social links After Federation the economic realities of industry transport and labour supplies meant that these three countries continued to be intricately interconnected Yet despite these connected pasts comparative work on the economic histories of Malawi Zambia and Zimbabwe and how these change over time is rare This book addresses the gap by providing the first comprehensive collection of labour and census data across the twentieth century for

these three countries The different economic models and performances of these states offer good comparison allowing researchers to look at different models of development and how these played out over the long term The book provides data on population growth and change industrial and occupational structure and the various shifts in what the economically active population did It will be useful for historians economists development studies scholars and non governmental organisations working on twentieth century and contemporary southern Africa

Post-colonial struggles for a democratic Southern Africa Carolyn Bassett, Marlea Clarke, 2017-06-26 National liberation one of the grand narratives of the twentieth century has left a weighty legacy of unfulfilled dreams This book explores the ongoing struggle for legitimate accountable political leaders in postcolonial Southern Africa focussing on dilemmas arising when ex liberation movements form the governments While the spread of multi party democracy to most countries in the region is to be celebrated democratic practice often has been superficial a limited elitist politics that relies on the symbols of the liberation struggle to legitimate de facto one party rule and authoritarian practices Using country cases from Tanzania Swaziland Zimbabwe South Africa and Zambia the collection explores three subthemes relevant to postcolonial governance in Southern Africa how the struggle for liberation shapes the character of political transformation the nature of rule in one party dominant states headed by former liberation movements and the processes of governance and resistance in post liberation contexts This book was published as a special issue of the Journal of Contemporary African Studies

Memory and Cultural Landscape at the Khami World Heritage Site, Zimbabwe Ashton Sinamai, 2018-10-10 This book focuses on a forgotten place the Khami World Heritage site in Zimbabwe It examines how professionally ascribed values and conservation priorities affect the cultural landscape when there is a disjuncture between local community and national interests and explores the epistemic violence that often accompanied colonial heritage management and archaeology in southern Africa The central premise is that the history of the modern Zimbabwe nation in terms of what is officially remembered and celebrated inevitably determines how that past is managed It is about how places are experienced and remembered through narratives and how the loss of this heritage memory may mark the un inheriting of place Memory and Cultural Landscape at the Khami World Heritage Site Zimbabwe is informed by the author s experience of living near and working at Great Zimbabwe and Khami as an archaeologist and uses archives and traditional narratives to build a biography for this lost cultural landscape Whereas Great Zimbabwe is a resource for the state s contentious narrative of unity and a tool for cultural activism among communities whose cultural rights are denied through the nationalisation and globalisation heritage at Khami which has lost its historical gravity there is only silence Researchers and students of cultural heritage will find this book a much needed case study on heritage identity community and landscape from an African perspective

African Borders, Conflict, Regional and Continental Integration Innocent Moyo, Christopher Changwe Nshimbi, 2019-04-25 This book looks at the ways African borders impact war and conflict as well as the ways continental integration could contribute towards cooperation peace and well being in Africa African

borders or borderlands can be a source of problems and opportunity There is often a historical geospatial and geopolitical architecture rooted in trajectories of war conflict and instability which could be transformed into those of peace regional and continental integration and development An example is the cross border and regional response to the Boko Haram insurgency in West Africa This book engages with cross border forms of cooperation and opportunity in Africa It considers initiatives and innovations which can be put in place or are already being employed on the ground within the current regional and continental integration projects Another important element is that of cross border informality which similarly provides a ready resource that if properly harnessed and regulated could unleash the development potential of African borders and borderlands Students and scholars within Geography International Relations and Border Studies will find this book useful It will also benefit civil society practitioners policymakers and activists in the NGO sector interested in issues such as migration social cohesion citizenship and local development *New Leaders, New Dawns?* Chris Brown, David Moore, Blair Rutherford, 2022-06-17

In late 2017 and early 2018 South Africa and Zimbabwe both experienced rapid and unexpected political transitions In Zimbabwe Robert Mugabe the only leader the country had ever known was replaced in a soft coup by his erstwhile vice president Emmerson Mnangagwa Over a twelve day period in February 2018 South African president Jacob Zuma was prematurely forced from office by his former deputy president Cyril Ramaphosa The widespread popular rejoicing that accompanied their arrival compounded the shock of these sudden transitions *New Leaders New Dawns* explores these political transitions and the way they were received Contributors consider how the former liberation heroes Mugabe and Zuma could have fallen so low the underlying reasons for their ouster what happened to their liberation movements turned ruling parties and perhaps most importantly what the rise to power of Ramaphosa and Mnangagwa foreshadowed Bringing together fourteen leading international scholars of southern Africa and adopting a political economy framework this volume argues that the changes in leadership are welcome but insufficient While the time had come for Zuma and Mugabe to go there is little in the personal histories or early policy actions of Ramaphosa and Mnangagwa that suggests they will be capable of addressing the profound social economic and political problems both countries face *New Leaders New Dawns* reveals that despite what these new leaders may have promised a new dawn has not yet arrived in southern Africa **The**

Southern African Development Community in Zimbabwe Rich Mashimbye, 2024-02-13 This book narrates the unravelling of Zimbabwe a country that was once considered an inspiration on the continent of Africa in terms of socioeconomic development Recognising that many factors contributed to the collapse of the nation and that this collapse was a process that occurred over a long period it looks at historical events and processes like the colonisation of the country and dispossession of the indigenous people and the misrule politically motivated violence and economic mismanagement that followed under Robert Mugabe as the pivotal moments that precipitated the subsequent fall of Zimbabwe The book also examines the role that the regional intergovernmental organisation the Southern African Development Community SADC

played in trying to help Zimbabwe overcome its security political and economic challenges *Regional Intervention Politics in Africa* Stefanie Wodrig, 2017-02-24 This book analyses regional interventions in African conflict spaces by engaging with political discourse theory Interventions are a performance of agency but what happens if interventions are performed by forces that scholars have hardly ever considered as relevant agents in this regard Based on a study of regional politics towards the crises in Burundi and Zimbabwe the book analyses how these interventions shaped and changed the emerging regional interveners The book engages political discourse theory proposing an understanding of intervention as a field in which multiple and heterogeneous interpretations of the violence the crisis and the future post conflict order meet It is not hard to imagine that this encounter is not harmonious per se but full of frictions By making use of political discourse theory as a grammar for studying the complexity of an intervention the focus is directed to the emerging subjectivities of regional interveners This enables a view of regional interventions that neither reduces their subjectivity to universalist categories associated with liberal peace nor overenthusiastically embraces them as the solution to all problems This book will be of interest to students of international intervention discourse theory African politics war and conflict studies security studies and IR **African Transnational Diasporas** D. Pasura, 2014-05-19 Pasura proposes a framework for understanding African diasporas as core epistemic dormant and silent diasporas The book explores the origin formation and performance of the Zimbabwean transnational diaspora in Britain and examines how the diaspora is constituted in the hostland and how it maintains connections with the homeland **Mugabeism?** Sabelo J. Ndlovu-Gatsheni, 2015-12-26 What is distinctive about this book is its interdisciplinary approach towards deciphering the complex meanings of President Gabriel Mugabe of Zimbabwe making it possible to evaluate Mugabe from a historical political philosophical gender literal and decolonial perspectives It is concerned with capturing various meanings of Mugabeism **Multiparty Democracy in Zimbabwe** Aaron Rwodzi, 2024-03-26 This book provides a comprehensive account of the tumultuous political landscape of Zimbabwe Delving into historical and contemporary perspectives the author analyses the relationship between the ruling ZANU PF party and the opposition exposing the pervasive influence of foreign powers and their regime change agendas Amidst western imposed economic sanctions the book examines how political opposition has struggled to maintain its footing in the face of ZANU PF s rhetoric on preserving the nation s sovereignty Drawing on the powerful theoretical frameworks of Gramsci s hegemony theory and instrumentalism the book dissects the constraints on multiparty democracy under ZANU PF s rule From the party s manipulation of liberation narratives to the subtle intricacies of Mugabeism a violent and ideological stronghold the author unveils the tactics employed to maintain power The chapters uncover the pivotal role played by the military throughout Zimbabwe s history from the days of the liberation struggle to the shocking events of 2017 when Mugabe s grip on power was diminished by the very force that had propped him up for decades the author reveals how the military s involvement has thwarted opposition players attempts to claim power Boldly challenging the notion that constraints solely

rest on ZANU PF this book calls attention to the shortcomings of opposition parties in navigating Zimbabwe's treacherous political landscape Using compelling evidence and unparalleled analysis the book is an essential read for those seeking to understand the intricate web of power manipulation and struggle that has defined Zimbabwe's political journey **Disability and Sexuality in Zimbabwe** Christine Peta, 2017-10-25 Disabled women represent one of the most marginalised minority groups in the world hence they are largely silent while their sexuality is ignored suppressed forbidden and buried underneath the carpet Until recently most of the Global Northern published literature on the subject of the sexuality of disabled women has predominantly been constructed from hearsay and second hand narratives in studies which draw from the perspectives of parents service providers and advocates without much consultation of the relevant women By facilitating the voice of disabled women in Zimbabwe and illuminating their experiences of sexuality this book hopes to shift the experiences of sexuality of disabled women from the periphery of society to the fore Disability and Sexuality in Zimbabwe presents original research on an issue that is thus far not found in local research data Whilst addressing the paucity of literature on the subject the book informs policy and practice and enhances the existing body of knowledge by making recommendations towards the development of a disability and sexuality framework that is rooted in the African context This book is of interest to students and scholars of African studies disability studies sociology psychology social work nursing education studies geography women's and gender studies and interdisciplinary studies Additional audiences include a wide range of health social care and educational professionals and practitioners as well donors disabled people's organisations charities government departments NGOs supranational organisations and policy makers **People, Money and Power in the Economic Crisis** Keith Hart, John Sharp, 2014-10-01 The Cold War was fought between state socialism and the free market That fluctuating relationship between public power and private money continues today unfolding in new and unforeseen ways during the economic crisis Nine case studies from Southern Africa South Asia Brazil and Atlantic Africa examine economic life from the perspective of ordinary people in places that are normally marginal to global discourse covering a range of class positions from the bottom to the top of society The authors of these case studies examine people's concrete economic activities and aspirations By looking at how people insert themselves into the actual unequal economy they seek to reflect human unity and diversity more fully than the narrow vision of conventional economics **The Palgrave Handbook of History and Social Studies Education** Christopher W. Extractive Industry Indigenisation in Zimbabwe Kennedy

Manduna, 2025-09-25 This book explains how and why Zimbabwe's extractive industry Indigenisation over promised its benefits yet under delivered upon implementation This book traces the history of uneven development in Zimbabwe from the initial days of colonialism to the present using the extractive industry as the unit of analysis to carve out a granular and empirical analysis of the preponderance of transnational corporate control and ownership in the country Indigenisation of Zimbabwe's extractive industries was intended to address mining inequalities by transferring wealth from rich non Indigenous mining capital to disadvantaged Indigenous citizens and communities This policy however was a response to political economic and social crises posed by the international isolation of Zimbabwe's government following the controversial Fast Track Land Reform Programme in 2000 2003 An intervention therefore which promised to address inequalities has thus been hampered by corruption co optation and collusion which has led to it not only failing to address uneven development but in actual fact worsening the situation By examining the hidden structures and infrastructures of power capital and minerals and placing extractive industry Indigenisation in capitalism this book makes a crucial scholarly contribution to the renewed and burgeoning debates around the resurgence of resource nationalism in general and the struggle for economic sovereignty in particular This book steers readers more broadly to look for new and diversified ways of empowering Indigenous populations and their communities through mining Indigenisation in ways that do not threaten economic and political stability This book will be of great interest to students and scholars of the extractive industries natural resource management African politics and African development
