Fire Monks Colleen Morton Busch, 2011-07-07 The vivid and electrifying true story of how five monks saved the oldest Zen Buddhist monastery in the United States from wildfire San Francisco Chronicle When a massive wildfire surrounded Tassajara Zen Mountain Center five monks risked their lives to save it A gripping narrative as well as a portrait of the Zen path and the ways of wildfire Fire Monks reveals what it means to meet a crisis with full presence of mind Zen master and author of the classic Zen Mind Beginner's Mind Shunryu Suzuki Roshi established a monastery at Tassajara Hot Springs in 1967 drawn to the location's beauty peace and seclusion Deep in the wilderness east of Big Sur the center is connected to the outside world by a single unpaved road The remoteness that makes it an oasis also makes it particularly vulnerable when disaster strikes If fire entered the canyon there would be no escape More than two thousand wildfires all started by a single lightning storm blazed across the state of California in June 2008 With resources stretched thin firefighters advised residents at Tassajara to evacuate early Most did A small crew stayed behind preparing to protect the monastery when the fire arrived But nothing

could have prepared them for what came next A treacherous shift in weather conditions prompted a final order to evacuate everyone including all firefighters As they caravanned up the road five senior monks made the risky decision to turn back Relying on their Zen training they were able to remain in the moment and do the seemingly impossible to greet the fire not as an enemy to defeat but as a friend to guide Fire Monks pivots on the kind of moment some seek and some run from when life and death hang in simultaneous view Novices in fire but experts in readiness the Tassajara monks summoned both intuition and wisdom to face crisis with startling clarity The result is a profound lesson in the art of living Between Two Fires Stephen J. Pyne, 2015-10-15 From a fire policy of prevention at all costs to today's restored burning Between Two Fires is America's history channeled through the story of wildland fire management Stephen J Pyne tells of a fire revolution that began in the 1960s as a reaction to simple suppression and single agency hegemony and then matured into more enlightened programs of fire management It describes the counterrevolution of the 1980s that stalled the movement the revival of reform after 1994 and the fire scene that has evolved since then Pyne is uniquely qualified to tell America's fire story The author of more than a score of books he has told fire's history in the United States Australia Canada Europe and the Earth overall In his earlier life he spent fifteen seasons with the North Rim Longshots at Grand Canyon National Park In Between Two Fires Pyne recounts how after the Great Fires of 1910 a policy of fire suppression spread from America's founding corps of foresters into a national policy that manifested itself as a costly all out war on fire After fifty years of attempted fire suppression a revolution in thinking led to a more pluralistic strategy for fire's restoration The revolution succeeded in displacing suppression as a sole strategy but it has failed to fully integrate fire and land management and has fallen short of its goals Today the nation's backcountry and increasingly its exurban fringe are threatened by larger and more damaging burns fire agencies are scrambling for funds firefighters continue to die and the country seems unable to come to grips with the fundamentals behind a rising tide of megafires Pyne has once again constructed a history of record that will shape our next century of fire management Between Two Fires is a story of ideas institutions and fires It's America's story told through the nation's flames **Encyclopedia of Disaster Relief** K.
