Rosebud, June 17, 1876 Paul L. Hedren,2019-04-11 The Battle of the Rosebud may well be the largest Indian battle ever fought in the American West The monumental clash on June 17 1876 along Rosebud Creek in southeastern Montana pitted George Crook and his Shoshone and Crow allies against Sioux and Northern Cheyennes under Sitting Bull and Crazy Horse It set the stage for the battle that occurred eight days later when just twenty five miles away George Armstrong Custer blundered into the very same village that had outmatched Crook Historian Paul L Hedren presents the definitive account of this critical battle from its antecedents in the Sioux campaign to its historic consequences Rosebud June 17 1876 explores in unprecedented detail the events of the spring and early summer of 1876 Drawing on an extensive array of sources including government reports diaries reminiscences and a previously untapped trove of newspaper stories the book traces the movements of both Indian forces and U S troops and their Indian allies as Brigadier General Crook commenced his second great campaign against the northern Indians for the year Both Indian and army paths led to Rosebud Creek where warriors surprised Crook and then parried with his soldiers for the better part of a day on an enormous field Describing the battle from multiple viewpoints Hedren narrates the action moment by moment capturing the ebb and flow of the fighting Throughout he weighs the decisions and events that contributed to Crook s tactical victory and to his fateful decision thereafter not to pursue his adversary The result is a uniquely comprehensive view of an engagement that made history and then changed its course Rosebud was at once a battle won and a battle lost With informed attention to the subtleties and significance of both outcomes as well as to the fears and motivations on all sides Hedren has given new meaning to this consequential fight and new insight into its place in the larger story of the Great Sioux War

Fort Robinson and the American West, 1874-1899 Thomas R. Buecker,2003 Established in 1874 just south of the Black Hills Fort Robinson witnessed many of the most dramatic most tragic encounters between whites and American Indians including the Cheyenne Outbreak the death of Crazy Horse the Ghost Dance the desperation and diplomacy of such famed plains Indian leaders as Dull Knife and Red Cloud and the tragic sequence of events surrounding Wounded Knee

The "Trapdoor" Springfield John Langellier,2018-06-28 Intended to replace the proliferation of different small arms fielded by US forces during the American Civil War the Trapdoor

Springfield was designed in 1865 by Hiram S. Allin. Using metallic cartridges it could be loaded in a single action increasing the number of shots per minute as much as fivefold. The new weapon quickly proved its worth in two separate incidents in August 1867: small groups of US soldiers and civilians armed with the trapdoor repulsed numerically superior Native American contingents. A simple and cost effective weapon it was used along with its variants in every US conflict in the three decades after the Civil War especially on the American frontier. Drawing upon first hand accounts from US soldiers, their Native American opponents and users such as buffalo hunters this is the story of the Trapdoor Springfield one of the defining weapons of the Indian Wars. *Washita* Jerome A. Greene, 2014-11-18 An evenhanded account of a tragic clash of cultures. On November 27 1868 the U S Seventh Cavalry under Lt Col George Armstrong Custer attacked a Southern Cheyenne village along the Washita River in present day western Oklahoma. The subsequent U S victory signaled the end of the Cheyennes traditional way of life and resulted in the death of Black Kettle their most prominent peace chief. In this remarkably balanced history Jerome A. Greene describes the causes, conduct and consequences of the event even as he addresses the multiple controversies surrounding the conflict. As Greene explains the engagement brought both praise and condemnation for Custer and carried long range implications for his stunning defeat at the Battle of the Little Bighorn eight years later. Army Architecture in the West Alison K. Hoagland, 2004 By examining the three exemplary Wyoming forts of Laramie, Bridger and D. A. Russell the author explains how widely varying architectural designs rather than standardized plans were used to construct western American forts. **African-Americans in Defense of the Nation** James T. Controvich, 2011-03-28 The role of the African American in American history has been documented but sometimes ignored by historians. This work is intended to assist researchers in locating the wealth of material that has been published. *African-Americans in Defense of the Nation* builds on a long list of early bibliographies concerning the subject. This work brings together a broad spectrum of titles related to the African American participation in America's wars. It covers both the military exploits as African Americans have been involved in every American conflict since the Revolution and their participation in the homefront support in building the weapons that the armed forces used. Organized both chronologically and topically chapters cover the various conflicts from the Revolutionary War to the Post World War II era and branches of the military as well as the role of African American women in the United States military. This extensive reference work is the most comprehensive listing of African American units available. Additionally a listing of juvenile titles will assist parents and teachers in locating material. *Fort Bowie, Arizona* Douglas C. McChristian, 2012-10-19 Fort Bowie in present day Arizona was established in 1862 at the site of the famous Battle of Apache Pass where U S troops clashed with Apache chief Cochise and his warriors. The fort's dual purpose was to guard the invaluable water supply at Apache Spring and to control Indians in the developing southwestern region. Douglas C. McChristian's *Fort Bowie, Arizona* spans nearly four decades to provide a fascinating account of the many complex events surrounding the small combat post. In a sweeping narrative McChristian

presents Fort Bowie in fresh contexts of national expansion and regional development weaving in threads of early exploration transcontinental railroad surveys the overland mail mining ranching and the conflict with the Apaches [History of Alaska, Volume I](#) Jonathan M. Nielson, Ph.D.,2018-02-01 As a unique distant geographical region of the United States Alaska has evolved from military insignificance to high strategic priority in the 142 years since its purchase from Russia in 1867 The reasons for this dramatic shift derive from a correlation of geography foreign policy domestic politics and military technology Historically the role of the armed forces in Alaska has been large and diverse Alaska was one of the two principal territorial purchases made by the United States between 1803 and 1867 adding nearly 1 5 million square miles to America s national domain Smaller by the size of Texas than Jefferson s Louisiana Purchase Alaska unlike all of the territories and states carved out of the former languished in obscurity and isolation and was administered as a colonial dependency by the military and other branches of the federal government its official territorial status and government notwithstanding While sharing many common aspects of frontier settlement and Western history with territories such as Montana the Dakotas Wyoming and Colorado Alaska presented special challenges peculiar to a non contiguous arctic and sub Arctic environment separated from the United States by a foreign power Indeed only the defeated South under Reconstruction experienced the same degree of military occupation and martial law Alaska also has the unique distinction in the American experience of belonging to Imperial Russia before it became of interest to American expansionists Still others found Alaska tempting and pursued their own designs North of 53 The Spanish British Canadians and even the French plied Alaska s waters and made their claims to Alyeska the Great Land And it is with these clashing imperial ambitions that this three volume history begins [Cultural Construction of Empire](#) Janne Lahti,2012-12-01 From 1866 through 1886 the U S Army occupied southern Arizona and New Mexico in an attempt to claim it for settlement by Americans Through a postcolonial lens Janne Lahti examines the army its officers their wives and the enlisted men as agents of an American empire whose mission was to serve as a group of colonizers engaged in ideological as well as military conquest Cultural Construction of Empire explores the cultural and social representations of Native Americans Hispanics and frontiersmen constructed by the officers enlisted men and their dependents By differentiating themselves from these less civilized groups white military settlers engaged various cultural processes and practices to accrue and exercise power over colonized peoples and places for the sake of creating a more civilized environment for other settlers Considering issues of class place and white ethnicity Lahti shows that the army s construction of empire took place not on the battlefield alone but also in representations of and social interactions in and among colonial places peoples settlements and events and in the domestic realm and daily life inside the army villages
