Shores, Surfaces and Depths

Felicity Picken, Emma Waterton, 2024-11-26 This book examines the oceanic presence in life on Earth and the ways that we engage with the oceanic worlds for play pleasure adventure and the pursuit of leisure and escape through tourism and travel The oceanic turn across the social sciences and humanities has produced a still proliferating opus of work that seeks to discover and emphasize oceanic presence in life on Earth This literal and figurative unearthing of blue spaces has encouraged scholars to gaze beyond the lands that have supported much of our experience and knowledge towards the gathering up of a more holistic appreciation of blue planetary life This widening of scholarly attention from land to sea is occurring simultaneously across a range of disciplines and fields including history archaeology anthropology comparative literature public policy cultural studies and geography With an explicit focus on leisure and tourism this edited collection follows a growing appreciation that it is our seemingly inconsequential encounters at play for pleasure and on holidays that are increasingly present and influential in our oceanic relations This volume will be of value to scholars and students interested in social and cultural history and environmental history and humanities

World Exhaustion in Latin American Literatures and Cultures / El agotamiento del mundo en las literaturas y culturas de América Latina Gesine Müller, Ignacio M. Sánchez Prado, 2025-03-31 The volume analyzes the implications of the world exhaustion concept that has emerged in a post

global cultural context and whose effects are particularly salient in Latin American literatures and cultures This conceptual term aptly describes the ambivalent lived experiences of societies that have been marked by centuries of globalization and the artistic production that seeks to give form and meaning to these experiences The World's 100 Weirdest Museums Geoff Tibballs, 2016-10-20 When we think of the world's great museums we tend to think of the Louvre the Guggenheim or the Victoria and Albert We do not immediately think of the Dog Collar Museum the Kansas Barbed Wire Museum the Museum of Broken Relationships or Barney Smith's Toilet Seat Art Museum Yet scattered across the globe are museums dedicated to every conceivable subject from bananas to Bigfoot lawnmowers to leprechauns teapots to tapeworms mustard to moist towelettes and pencils to penises Many are serious collections housed in grand buildings others are located in tiny premises and are open to visitors by appointment only often the result of one person's crazy lifetime obsession This book lists the world's 100 weirdest museums in order of quirkiness encompassing such delights as The Museum of Witchcraft in Cornwall a museum in Kentucky that houses 800 ventriloquists dolls the Museum of Bad Art in Massachusetts the Paris Sewer Museum the French Fry Museum in Bruges the Museum of Contraception and Abortion in Vienna the Salt and Pepper Shaker Museum in Tennessee Japan's Momofuku Ando Instant Ramen Museum quite possibly the world's only museum devoted to instant noodles and the Kunstkamera in St Petersburg home to Peter the Great's collection of oddities including deformed fetuses and the decapitated head of a love rival preserved in vinegar After all what holiday is complete until you have seen a 300 year old decapitated human head in a jar Each entry will include address contact and admission details so the next time you are in Berlin there is no excuse for missing out on a visit to the Currywurst Museum the world's leading museum dedicated to sausages in hot ketchup Wie lässt sich Jason deCaires Taylors "Museo Subacuático de Arte" in Bezug auf die ökologische Position einordnen?, 2024-04-04 Studienarbeit aus dem Jahr 2021 im Fachbereich Kunst Installationen Aktionskunst moderne Kunst Sprache Deutsch Abstract Ziel dieser Arbeit ist es den Künstler Jason deCaires Taylor in Bezug auf die ökologische Position einzuordnen sowie zu diskutieren ob er wie er von sich selbst behauptet der Landart zuzuschreiben ist Die aktuelle Forschungslage und Quellenlage zu dem Künstler bzw dem Museo Subacuático de Arte kurz MUSA ist ausbaufähig Zuerst stelle ich knapp das Werk an sich vor wobei ich zwei Werkgruppen rausgreife auf die ich genauer eingehen werde In einem nächsten Schritt gilt es dann die Arbeit mit den vorgestellten Gruppen im Blick auf den Ortsbezug zu diskutieren um sie dann in einen weiteren Schritt in Bezug auf ihre ökologische Position zu diskutieren Danach gehe ich auf die Zuschauerrezeption ein Die Hausarbeit schließt mit dem Fazit Inwieweit sorgt sich der Künstler Jason deCaires Taylor wirklich um die Erhaltung der Meere Mit seinen lebensgroßen Skulpturen die er unter anderem in Cancún Mexico in das Meer versenkte versucht er den Algen Korallen und anderen Meeresbewohnern neuen Lebensraum zu bieten die Touristen auf die Zerstörung der Weltmeere und der Korallenriffe aufmerksam zu machen und gleichzeitig diese von dem natürlichen Riff vor Cancún wegzulocken um dieses zu schützen Aufgrund eigener Taucherfahrungen konnte ich bereits

zusehen wie sich in Ägypten ein beliebtes Reiseziel für Tauchinteressierte aufgrund der großen und bunten Artenvielfaltigkeit die Unterwasserwelt im Laufe der Jahre veränderte. Nicht selten konnte ich selber dabei zusehen wie Taucher und Schnorchler versuchten die Korallen anzufassen oder sie auch mit ihren Schwimmflossen unwissentlich beschädigten. Als ich mich erstmals in das Thema einlas und deCaires Taylor's Intention hinter seinen Installationen erfuhr, war ich begeistert von seiner Idee Kunst zu schaffen aber auch gleichzeitig Lebensraum für die Meeresbewohner zu schaffen. Bei genauerem Hinsehen finden sich allerdings einige Problematiken, die einem auf den ersten Blick nicht auffallen, auf die ich in dieser Hausarbeit eingehen möchte.
