occurred in the past and how they connect to the present This book is a valuable resource for undergraduate and graduate courses in educational foundations social foundations educational history critical issues schools and politics schools and society philosophical foundations and religious foundations of American schooling *American Educational History* William Jeynes,2007-01-24 American Educational History School Society and the Common Good is an up to date contemporary examination of historical trends that have helped shape schools and education in the United States Author William H Jeynes places a strong emphasis on recent history most notably post World War II issues such as the role of technology the standards movement affirmative action bilingual education undocumented immigrants school choice and much more

Public Schools in the United States Martha W. Daniels,2003 This book gives a synopsis of American public education in a style that is public friendly Its content is comprehensive but pithy It offers insights into public schools that merit attention and action by the public Education jargon is defined in lay terms educational tenets are uncovered and educators credentials are exposed It is meant to inform you and it may surprise you *Awakening Youth Discipleship* Brian J. Mahan,Michael Warren,David F. White,2008-01-01 Youth ministry has increasingly lost touch with its origins in the way of Jesus and the social practices intrinsic to Christian discipleship and has instead substituted layers of Jesus talk middle class values fun and games and doses of warm fellow feeling *Awakening Youth Discipleship* articulates the history of this domestication of youth and ministry Mahan Warren and White tell a story of the ways in which our society has colluded to shape a domesticated adolescence The authors believe a Christian response to this challenge must be multilevel addressing the problem at three levels society church and individual The authors propose reclaiming practices of discernment that both engage congregations in social awareness and involve individuals in discerning fuller vocational opportunities than those allowed by popular cultural norms *Encyclopedia of the Social and Cultural Foundations of Education: A-H ; 2, I-Z ; 3. Biographies, visual history, index* Eugene F. Provenzo,John P. Renaud,Asterie Baker Provenzo,2009 The Encyclopedia provides an introduction to the social and cultural foundations of education The first two volumes consist of A Z entries featuring essays representing the major disciplines including philosophy history and sociology and a third volume is made up of documentary photographic and visual resources **Teaching Children** Ann El-Moslimany,2018-01-01 The author explores education from the essential principles of Tawhid Oneness of God humanity knowledge fitrah concept of human nature and the role of humans as vicegerents of God on earth responsibility and stewardship The current education system dates back a hundred years or more and is in desperate need of a reboot In developing the industrialized society the education system itself became like a factory the end product being pupils who merely regurgitate facts and themselves end up as cogs in the machine that is the wider industrial complex The legacy of this is a soulless functional educational system that fails to develop pupils to meet the present and future needs of individuals and their expectations This failure inevitably impacts on society and humanity at large Society has long since moved beyond the industrial revolution and into an age of

global connectedness where the sum of human knowledge is freely available via the internet It is an age where people are generally more well informed and on a variety of issues An effective holistic educational philosophy is required one that gives full spiritual meaning to all that a child learns It should equip children with spiritual awareness morals and values social responsibility and accountability self discipline and self determination self confidence and empowerment ambition and aspiration tempered with thoughtfulness and a sense of gratitude The Marketing of Evil David Kupelian,2022-03-01

Re-Membering History in Student and Teacher Learning Joyce E. King, Ellen E. Swartz, 2014-03-05 What kind of social studies knowledge can stimulate a critical and ethical dialog with the past and present Re Membering History in Student and Teacher Learning answers this question by explaining and illustrating a process of historical recovery that merges Afrocentric theory and principles of culturally informed curricular practice to reconnect multiple knowledge bases and experiences In the case studies presented K 12 practitioners teacher educators preservice teachers and parents use this praxis to produce and then study the use of democratized student texts they step outside of reproducing standard school experiences to engage in conscious inquiry about their shared present as a continuance of a shared past This volume

exemplifies not only why instructional materials including most so called multicultural materials obstruct democratized knowledge but also takes the next step to construct and then study how re membered student texts can be used Case study findings reveal improved student outcomes enhanced relationships between teachers and families and teachers and students and a closer connection for children and adults to their heritage
