The Unit Season 3 Episode 6:

Serial Shakespeare Elisabeth Bronfen, 2020-10-27 Shakespeare is everywhere in contemporary media culture This book explores the reasons for this dissemination and reassemblage Ranging widely over American TV drama it discusses the use of citations in *Westworld* and *The Wire* demonstrating how they tap into but also transform Shakespeare's preferred themes and concerns It then examines the presentation of female presidents in shows such as *Commander in Chief* and *House of Cards* revealing how they are modelled on figures of female sovereignty from his plays Finally it analyses the specifically Shakespearean dramaturgy of *Deadwood* and *The Americans* Ultimately the book brings into focus the way serial TV drama appropriates Shakespeare in order to give voice to the unfinished business of the American cultural imaginary

Crossmappings Elisabeth Bronfen, 2018-05-22 The great influential cultural critic Elisabeth Bronfen sets out in this book a conversation between literature cinema and visual culture The crossmappings facilitated in and between these essays address the cultural survival of image formulas involving portraiture and the uncanny relation between the body and its visual representability the gendering of war death and the fragility of life as well as sovereignty and political power Each chapter tracks transformations that occur as aesthetic figurations travel from one historical moment to another but also from one medium to another Many prominent artists are discussed during these journeys into the cultural imaginary include Degas Francesca Woodman Cindy Sherman Paul McCarthy Eva Hesse Louise Bourgeois Wagner Picasso and Shakespeare as well as classic Hollywood's film noir and melodrama and the TV series *The Wire* and *House of Cards*

Assault on the Small Screen Molly Ann Magestro, 2015-07-22 Over the last few decades television programs have attempted to depict some of the more troubling elements of society with a more conscientious approach Issues that networks were once reluctant to broadcast such as sexual abuse sexual assault and rape have become frequent plot points for many popular shows Narratives that portray important social issues could potentially affect the ways

individual viewers understand such incidents in the real world so it is important to pay close and critical attention to the stories about rape that are broadcast to mass audiences In *Assault on the Small Screen Representations of Sexual Violence on Prime Time Television Dramas* Molly Ann Magestro examines the ways in which police and legal dramas on network and cable channels portray rape narratives In this discussion the author focuses on eight successful shows NCIS Criminal Minds CSI The Closer Rizzoli Isles Dexter Law and Order Special Victims Unit and The Good Wife Each chapter offers a close reading and analysis of how one or more of the shows represent rape narratives and rape victims in ways that more or less address feminist understandings of rape and rape culture The arguments in each chapter explore the specific narrative content of individual series rather than a single critical approach Each of the eight shows considered within the book is the focus of its own argument as the representations of rape narratives on television are as complex as issues surrounding rape can be in the real world In a time when rape narratives are frequently making headlines taking the time to examine and understand the messages broadcast by a medium as ubiquitous as television serves an important role in developing an understanding of rape culture A significant step toward this understanding *Assault on the Small Screen* will be of interest to scholars of film and television media studies gender studies criminology and sociology

Surveillance on Screen Sébastien Lefait,2013 The theme of surveillance has become an increasingly common element in movies and television shows perhaps as a response to the sense that the world is now virtually under watch But the recent surge of this filmic device calls for an explanation that transcends the basic assumption that media illustrates the changes of society The persistent and growing presence of surveillance in cinematic productions is not merely a reflection of the advent of surveillance societies but rather an aesthetic adaptation to the evolution of watching patterns In *Surveillance on Screen Monitoring Contemporary Films and Television Programs* S bastien Lefait examines this ever increasing phenomenon Drawing on the rapidly developing field of surveillance studies Lefait offers an in depth analysis of television shows and films which complement current theoretical approaches to those subjects This unique combination of surveillance theories with the latest concepts of film television and Internet studies is based on a large and diversified range of popular series and films including the shows 24 Lost and Survivor as well as such films as Minority Report Paranormal Activity The Truman Show and the on screen version of George Orwell s Nineteen Eighty Four Written from a perspective that does not limit itself to a reflection of society approach this book explores both how cinema shapes our experience of surveillance and how surveillance influences our viewing of cinema Lefait follows the various identifiable stages in cinema s experimental use of surveillance studying the impact of technology on both the watcher and the watched In addition to film and media studies this book will be of interest to those engaged in information technology sociology and of course surveillance studies
