Visions In Conflict International Perspectives On Values And Enmity:

Visions in Conflict Brian C. Alston, 2010 A conflict in visions stands at the center of major international and national crises in the Middle East Africa Asia or elsewhere Whether in mass killing genocide or intractable conflict ideology is usually present and plays important role By ideology political religious economic social or some other is meant visions of social arrangements and human relations that provide meaning and hope for a group Such ideologies can identify others as enemies who stand in the way of their fulfillment The present volume contains essays written by authors from around the world on powerful vehicles of conflict resolution namely religion psychology education and training psychotherapy and sports It is our sincere hope that these essays shed light on the process of peace and reconciliation [Victim Healing and Truth Commissions](#)

Holly L. Guthrey, 2015-02-23 This book intends to contribute to the growing body of transitional justice literature by providing insight into how truth commissions may be beneficial to victims of mass violence based on data collected in Timor Leste and on the Solomon Islands Drawing on literature in the fields of victim psychology procedural justice and transitional justice this study is guided by the puzzle of why truth telling in post conflict settings has been found to be both helpful and harmful to victims of mass violence Existing studies have identified a range of positive benefits and negative consequences of truth telling for victims however the reasons why some victims experience a sense of healing while others do not after participating in post conflict truth commission processes continues to remain unclear Hence to address one piece of this complex puzzle this book seeks to begin clarifying how truth telling may be beneficial for victims by investigating the question What pathways lead from truth telling to victim healing in post conflict settings Building on the proposition that having voice a key component of procedural justice can help individuals to overcome the disempowerment and marginalisation of victimisation this book investigates voice as a causal mechanism that can create pathways toward healing within truth commission public hearings Comparative empirical studies that investigate how truth telling contributes to victim healing in post conflict settings are scarce in the field of transitional justice This book begins to fill an important gap in the existing body of literature From a practical standpoint by enhancing understanding of how truth commissions can promote healing the findings and arguments in this volume provide insight into how the design of transitional justice processes may be improved in the future to better respond to the needs of victims of mass violence **Socio-Historical**

Mara,2019-04-03 Since the beginning of the twenty first century recurring political violence at both state and non state levels has eroded confidence in the progressively peaceful character of international relations and has unsettled the parameters of political thought Frames of peace and frames of war have throughout Western thought colored the questions that we ask about politics the descriptions of the pragmatic and moral alternatives that we face and the ideas and metaphors that we use at any given moment These frames as this book argues also obscure too much of political life Gerald M Mara proposes instead a political philosophy that takes both war and peace seriously and a style of theory committed to questioning rather than closure He challenges two powerful currents in contemporary political philosophy the verdict that premodern or metaphysical texts cannot speak to modern and postmodern societies and the insistence that all forms of political theory be some form of democratic theory Mara reexamines seminal texts in the history of political theory from Thucydides to Jacques Derrida and from Machiavelli to Judith Butler to examine how frames of reference of war and peace have structured both the writing of these texts as well as interpretations of them The result is not a linear history of ideas but a series of conversations between

them and a democratic justification for moving beyond democratic theory

Visions and Ideas of Europe during the First World War Matthew D'Auria, Jan Vermeiren, 2019-08-02 Given the destruction and suffering caused by more than four years of industrialised warfare and economic hardship scholars have tended to focus on the nationalism and hatred in the belligerent countries holding that it led to a fundamental rupture of any sense of European commonality and unity It is the central aim of this volume to correct this view and to highlight that many observers saw the conflict as a European civil war and to discuss what this meant for discourses about Europe Bringing together a remarkable range of compelling and highly original topics this collection explores notions images and ideas of Europe in the midst of catastrophe

Higonnet, 2022-03-15 Few literary phenomena are as elusive and yet as persistent as realism While it responds to the perennial impulse to use literature to reflect on experience it also designates a specific set of literary and artistic practices that emerged in response to Western modernity Landscapes of Realism is a two volume collaborative interdisciplinary investigation of this vast territory bringing together leading edge new criticism on the realist paradigms that were first articulated in nineteenth century Europe but have since gone on globally to transform the literary landscape Tracing the manifold ways in which these paradigms are developed discussed and contested across time space cultures and media this second volume shows in its four core essays and twenty four case studies four major pathways through the landscapes of realism The psychological pathways focusing on emotion and memory the referential pathways highlighting the role of materiality the formal pathways demonstrating the dynamics of formal experiments and the geographical pathways exploring the worlding of realism through the encounters between European and non European languages from the nineteenth century to the present This volume is part of a book set which can be ordered at a special discount

The Clashing Visions of President Roosevelt and Ambassadors Bullitt and Kennedy Stanley Buder, 2025-05-16 The present book brings to life the links between the close personal interactions and the far reaching public actions of President Franklin D Roosevelt and two of his ambassadors The three men s friendly relations turned over time to bitter enmity The initial questions separating them were those also dividing the nation Could the United States coexist with a Nazi Germany seeking world domination What were America s vital interests when it was coming of age as a world power This fascinating tale of egos intrigue and even sexual scandal has a dramatic arc of inner flaws and historic forces revealing lives that end as Greek tragedies for both William C Bullitt and Joseph P Kennedy This story reveals new political interconnections from the rise of Nazi Germany and American antisemitism in the interwar years through the complicated alliances of WWII and the onset of the Cold War This appraisal offers insights not found in books focusing on separate individuals We also see how personalities still shape historical change even in our global age of powerful nations and grand alliances The intricacies of the book s themes demonstrate that the past is never over
