Visual Research (second Edition) Ian Noble, Russell Bestley, 2011-09-01 A guide to the practice of researching for graphic design projects It explains key theories examines the importance of audience communication theory semiotics and semantics

Visual Research Jonathan S. Marion, Jerome W. Crowder, 2013-08-15 Visual Research A Concise Introduction to Thinking Visually is the first text to present a concise overview of the significant ethical theoretical and practical considerations for conducting research with images The capacity to take photos and video on handheld devices and the ability to store post and share such imagery online all offer tremendous opportunities for social research The rapid development and popularity of such technology means that little technological proficiency is required and even less theoretical and ethical consideration This book provides an accessible introduction to doing visual research in the social sciences Beginning with ethical considerations this book highlights the importance of thinking visually before engaging in visual research Further themes involve creating organizing and using images and are presented so as to help readers think about and work with their own visual data Boxed case studies and further reading suggestions enhance the utility of this primer Concise and highly focused Visual Research will be an invaluable resource for visual media and communications students and researchers and others interested in visual research in the social sciences

The SAGE Handbook of Visual Research Methods Luc Pauwels, Dawn Mannay, 2019-12-10 The second thoroughly revised and expanded edition of The SAGE Handbook of Visual Research Methods presents a wide ranging exploration and overview of the field today As in its first edition the Handbook does not aim to present a consistent view or voice but rather to exemplify diversity and contradictions in perspectives and techniques The selection of chapters from the first edition have been fully updated to reflect current developments New chapters to the second edition cover key topics including picture sorting techniques creative methods using artefacts visual framing analysis therapeutic uses of images and various emerging digital technologies and online practices At the core of all contributions are theoretical and methodological debates about the meanings and study of the visual presented in vibrant accounts of research design analytical techniques fieldwork encounters and data presentation This handbook presents a unique survey of the discipline that will be essential reading for scholars and students across the social and behavioural sciences arts and humanities and far beyond these disciplinary boundaries The Handbook is organized into seven main sections PART 1 FRAMING THE FIELD OF VISUAL RESEARCH PART 2 VISUAL AND SPATIAL DATA PRODUCTION METHODS AND TECHNOLOGIES PART 3 PARTICIPATORY AND SUBJECT CENTERED APPROACHES PART 4 ANALYTICAL FRAMEWORKS AND PERSPECTIVES PART 5 MULTIMODAL AND MULTISENSORIAL RESEARCH PART 6 RESEARCHING ONLINE PRACTICES PART 7 COMMUNICATING THE VISUAL FORMATS AND CONCERNS

Visual Research Methods in the Social Sciences Stephen Spencer, 2022-09-23 Visual Research Methods in the Social Sciences Awakening Visions is an indispensable resource for students researchers and teachers seeking to use visual sources in their research and

understand how images work This fully updated edition adds questions and activities for studies and many new images and models as well as additional exploration of social and theoretical contexts and examples of current visual and multimodal research Due to the proliferation of image centric social media and the growing potential for fake news being able to critically assess media and other visual messages is more important than ever For researchers embarking on visual research this book offers useful practical guidance and real world examples from seasoned researchers exploring cultures as varied as religious cults in Venezuela the Beer Can Regatta in Darwin Mapuche Indians in Chile and graffiti artists in Sheffield It offers an integrated approach to visual research building compelling case studies using a wide range of visual forms including archive images media samples maps objects video photographs and drawings alongside traditional qualitative approaches Examples of the visual construction of place representations of social identities and different approaches to analysis are explored in the first section of the book whilst the essays in the second section highlight the creativity and innovation of four leading visual researchers This new edition will prove valuable for both experienced visual researchers and those embarking on visual research in the social sciences for the first time Method Meets Art, Second Edition Patricia Leavy, 2015-01-07

This book presents the first comprehensive introduction to arts based research ABR practices which scholars in multiple disciplines are fruitfully using to reveal information and represent experiences that traditional methods cannot capture Each of the six major ABR genres narrative inquiry poetry music performance dance and visual art is covered in chapters that introduce key concepts and tools and present an exemplary research article by a leading ABR practitioner Patricia Leavy discusses the kinds of research questions these innovative approaches can address and offers practical guidance for applying them in all phases of a research project from design and data collection to analysis interpretation representation and evaluation Chapters include checklists to guide methodological decision making discussion questions and recommended print and online resources Research Methods for Education, second edition Peter Newby, 2014-07-11 Research Methods for Education Second Edition takes the student by the hand and guides them through the complex subject of research methods in an engaging witty and clear way The book covers the philosophical approaches and epistemology as well as the practical aspects of research such as designing questionnaires and presenting conclusions Each chapter is split into Context and Practice and both sections are packed with exercises examples and comparative international material from other educational contexts Peter Newby's book is the student friendly text which demystifies the research process with clarity and verve Key features written in a clear and friendly manner to help students feel more confident dealing with the complexities of research and particularly useful for those new to research or less confident with numbers a mixed methods approach which doesn't simply prioritise quantitative or qualitative methods allowing for greatest possible coverage contains guidance on analytic procedures that require more advanced tools such as SPSS and Minitab many excellent international examples and case studies specifically from education which breaks away from a parochial focus on UK education system **Doing**

Educational Research ,2015-01-01 In the second edition of Doing Educational Research we explore a variety of critical issues and methodologies Authors include some of the most influential voices selected from across the spectrum of career disciplines The scholars provide detailed insights into dimensions of the research process that engage both students and experienced researchers with key concepts and recent innovations in the art of doing research The contributors adopt a stance that is practical as it introduces beginning scholars to social inquiry and innovative as it transforms the boundaries of conversations about educational research Doing Educational Research appears at a critical moment in which educational researchers are pushed to align with a pervasive scientism that embraces tenets of crypto positivism The book addresses logics of inquiry underpinning cutting edge approaches to educational research that extend far beyond limited visions that are presented through the lenses of positivism The chapters explore a variety of methodologies including action research bricolage ethnography hermeneutics historiography media based research psychoanalysis and conversation analysis in a matrix of social theory authentic inquiry critical pedagogy and differences in epistemology ontology and axiology A diverse array of complex topics are presented in accessible forms and will compel both scholars and students Understanding Children as Consumers David Marshall,2010-04-19 What drives children as consumers How do advertising campaigns and branding effect children and young people How do children themselves understand and evaluate these influences Whether fashion toys food branding money from TV adverts and the supermarket aisle to the internet and peer trends there is a growing presence of marketing forces directed at and influencing children and young people How should these forces be understood and what means of research or dialogue is required to assess them With critical insight the contributors to this collection take up the evaluation of the child as an active consumer and offer a valuable rethinking of the discussions and literature on the subject Features 14 original chapters from leading researchers in the field Each chapter contains vignettes or case examples to reinforce learning Contains consideration of future research directions in each of the topics that the chapters cover This book will be relevant reading for postgraduates and advanced undergraduates with an interest in children as consumers consumer behaviour and on marketing courses in general as well as for researchers working in this field *MasterClass in Geography Education* Graham Butt,2015-01-29 MasterClass in Geography Education provides a comprehensive exploration of the major themes in geography education research and pedagogy drawing on international research The editor draws together a variety of professional academic and practitioner perspectives to support professional development of geography teachers The book incorporates discussion of the place of subject knowledge in geography the role and function of research in geography education and the relationship between research and practice Topics covered include research and professional practice constructing geographical knowledge ethical considerations carrying out research projects MasterClass in Geography Education will be essential reading for all studying the teaching and learning of geography on PGCE and Education MEd MA courses **Visual Perception** Vicki Bruce,Mark A. Georgeson,Patrick R.

Green,2014-08-27 This comprehensively updated and expanded revision of the successful second edition continues to provide detailed coverage of the ever growing range of research topics in vision In Part I the treatment of visual physiology has been extensively revised with an updated account of retinal processing a new section explaining the principles of spatial and temporal filtering which underlie discussions in later chapters and an up to date account of the primate visual pathway Part II contains four largely new chapters which cover recent psychophysical evidence and computational model of early vision edge detection perceptual grouping depth perception and motion perception The models discussed are extensively integrated with physiological evidence All other chapters in Parts II III and IV have also been thoroughly updated
