War And Change In The Balkans Nationalism Conflict And Cooperation:

War and Change in the Balkans Brad K. Blitz, 2006-10-12 A contemporary history of the Balkans from the break up of Yugoslavia to the present day first published in 2006 The European Union's Approach to Conflict Resolution Laurence Cooley, 2018-10-09 This book investigates and explains the European Union's approach to conflict resolution in three countries of the Western Balkans Bosnia and Herzegovina Macedonia and Kosovo In doing so it critically interrogates claims that the EU acts as an agent of conflict transformation in its engagement with conflict affected states The book argues contrary to the assumptions of much of the existing literature that rather than seeking the transformation of conflicts the EU pursues a more conservative strategy based on the regulation of conflict through the promotion of institutional mechanisms such as consociational power sharing and decentralisation Drawing on discourse analysis of documents speeches and interviews conducted by the author with European Union officials and policy makers in Brussels and the case study countries the book offers a theoretically grounded methodologically rigorous and empirically detailed analysis of EU policy preferences of the ideas that underpin them and of how those preferences are legitimised This book will be of key interest to scholars students and practitioners interested in ethnic conflict and conflict resolution the politics of the Balkans and the external and foreign policies of the EU *Clausewitz's Timeless Trinity* Colin M. Fleming, 2016-05-23 This is the first book to apply the Clausewitzian Trinity of passion chance and reason to the experience of real war It explores the depth and validity of the concept against the conflicts of former Yugoslavia wars thought to epitomise a post Clausewitzian age In doing so it demonstrates the timeless message of the Trinity but also ties the Trinitarian idea back into Clausewitz's political argument Intended to build on the existing corpus of scholarship this book differs from the existing literature in two ways By applying the Trinity to the wars of former Yugoslavia 1991-1995 it explores war at its micro foundations assessing the complex cause and effect nexus of reciprocity produced by actions between belligerents embroiled in dynamic competition perpetuated by their own interaction Providing valuable insights into the complexities of real war fuelled by passion undermined by chance and shaped by reason it is the first study to bridge the Clausewitzian world of theory with real experience Examining each part of the triad separately the book explores the multiple manifestations of hostility and chance before then assessing the influence of these elements on the policies of the belligerents as the war evolved *Reporting the Attacks on Dubrovnik in 1991, and the Recognition of Croatia* Mato Brautović, Renaud de la Brosse, 2017-05-11 This collection brings together 13 papers by 16 authors presented at the international conference Reporting on attacks on Dubrovnik and recognition of Croatia held in Dubrovnik Croatia in October 2011 It provides a combined scientific and practical overview of the role of the media and journalists during the attack on Dubrovnik in autumn 1991 by the federal army JNA and Montenegrin reservists This book represents a primary source of information about the propaganda war waged during the conflict between Croatia and Serbia in 1991 because some of the contributors were practical journalists and ministers during the events of that year The

book is structured in three parts global media international relations and strategic communication during wartime the example of Dubrovnik and the practices of wartime reporting from the Dubrovnik area and media analysis on the subject of war in Dubrovnik and Croatia In the first part the book examines the impact of the attack on Dubrovnik and the recognition of Croatia by the international community the strategic steps taken by the Croatian government in the media propaganda war and the role of the Diaspora in winning over the international public to favour the Croatian side In the second part the book examines the reporting practices used to cover the siege of Dubrovnik and the role of local and international journalists non governmental organisations and fixers Special attention is devoted to the conflict which arises when professional journalistic standards and patriotism clash particularly if the journalist is reporting from his own town and his own family is in danger The third part of the book brings an analysis of the war propaganda used by the Croatian Serbian and Montenegrin media

Like Salt for Bread. The Jews of Bosnia and Herzegovina Francine Friedman,2021-11-22 This book is the only comprehensive treatment in any language of a rather exotic Balkan Jewish community It places the Jewish community of Bosnia and Herzegovina into the context of the Jewish world but also of the world within which it existed for around five hundred years under various empires and regimes The Bosnian Jews might have remained a mostly unknown community to the rest of the world had it not played a unique role within the Bosnian Wars of the early 1990s providing humanitarian aid to its neighbor Serbs Croats and Muslims Watch Francine Friedman s presentation on The Jews of Bosnia and Herzegovina

Responsibility to Protect and Prevent John Janzekovic,Daniel Silander,2014-12-01 Responsibility to Protect and Prevent Principles Promises and Practicalities explores the evolution of responsibility to protect R2P a principle which according to its supporters has evolved into a new type of responsive norm for how the international community should react to serious and deliberate human rights violations Arguing that the R2P ethos has been misunderstood and used ineffectively this work defends the validity of R2P and urges for a more practical understanding that moves beyond theory The progression of R2P from an initial concept to formal ratification has been a very difficult one with a great deal of disagreement over its validity as a substantive norm in international affairs The key disagreement is not that protection or prevention are unimportant but rather how the fine sounding R2P principles are supposed to work in practice This volume presents a number of important arguments that are directly related to the state vs human security debate with a critical analysis of the nexus between the protection verses prevention theses Through the case study of the Libyan Crisis Janzekovic and Silander offer an example of the R2P thesis in action and support the claim that prevention should be more than an adjunct to protection

The Liminal Loop Timothy L. Carson,2022-02-24 Recent and current crises in health ecology society and spirituality have lent the whole arena of liminality a new urgency and relevancy Those who traverse the great transitions are rediscovering new ways of interpreting life through the liminal lens a way to make sense of the great voluntary and unchosen transitions that characterize modern life This anthology provides a unique overview of liminality as it gathers a diverse coterie of authors

disciplines and contexts to explore its many facets Distinct in its interdisciplinary approach The Liminal Loop serves as an important source book for general readers teachers students artists counselors spiritual guides and social transformers From liminal poetry and musical traditions to the strange vertical world of the rock climber The Liminal Loop explores the swirling chaos on the other side of critical thresholds and suggests a pathway through the daunting middle passages of the in between With what can only be described as courage the many authors of this collection dare to look uncertainty in the eye knowing that this is a necessary journey and that it is better to travel with a common band of pilgrims than to go it alone

American Journalism and International Relations Giovanna Dell'Orto,2013-03-29 American Journalism and International Relations argues that the American press disengagement from world affairs has critical repercussions for American foreign policy Giovanna Dell Orto shows that discourses created circulated and maintained through the media mold opinions about the world and shape foreign policy parameters This book is a history of U S foreign correspondence from the 1840s to the present relying on more than 2 000 news articles and twenty major world events from the 1848 European revolutions to the Mumbai terror attacks in 2008 Americans perceptions of other nations combined with pervasive and enduring understandings of the United States role in global politics act as constraints on policies Dell Orto finds that reductive media discourse as seen during the 1967 War in the Middle East or Afghanistan in the 1980s has a negative effect on policy whereas correspondence grounded in events such as during the Japanese attack on Shanghai in the 1930s or the dissolution of the Soviet Union in 1991 fosters effective leadership and realistic assessments **Ethnic Cleansing and the European Union** L. Tesser,2013-05-14 This book offers the first multi case analysis of the politics of ethnic remixing in an expanding EU including studies on Central Europe the Balkans and Cyprus Tesser explains the politics of minority return in a post national Europe with particular attention to the long term aftermath of minority removal as a conflict resolution policy

Integrating the Balkans Máire Braniff,2011-06-30 Emerging from a decade of violent ethnic and inter state conflict during the 1990s the countries of the Western Balkans entered a phase of rebuilding and reconciliation Due to the key role played by the EU in the region s rebuilding efforts Integrating the Balkans explores this institution s considerable efforts to influence and shape the nature of state society and foreign relations as it utilised the promise of membership as a vital tool to exert its influence The picture that materialises is one of the EU s discernible but often contradictory impact as it offers the carrot of EU membership in the hope that the legacies of the past conflict can be re evaluated re imagined and transformed By also analysing the conditions that come with EU aid such as co operation with the International Criminal Tribunal for the former Yugoslavia ICTY Maire Braniff offers an extremely important perspective for all those involved in the study and practice of the processes of European integration and post conflict resolution
