Handbook of Middle East Politics Shahram Akbarzadeh, 2023-10-06 This Handbook uses a comprehensive study of political institutions, social movements and external pressures to offer a nuanced study of politics in the Middle East. Civil War and Narrative Karine Deslandes, Fabrice Murlon, Bruno Tribout, 2017-10-24 This book explores the representation of intra-state conflicts. It offers a distinctive approach by looking at narrative forms and strategies associated with civil war testimony, historiography and memory. The volume seeks to reflect current research in civil war in a number of disciplines and covers a range of geographical areas from the advent of modern forms of testimonies, history writing and public remembering in the early modern period to the present day. In focusing on narrative, broadly defined, the contributors not only explore civil war testimonies, historiography and memory as separate fields of inquiry but also highlight the interplay between these areas which are shown to share porous boundaries. Chapters look at the ways in which various narrative forms feed off each other, be they oral, written or visual narratives, personal or collective accounts or testimonies from victims or perpetrators

Mediating the Uprising Rebecca Joubin, 2020-05-15 Based on intensive fieldwork in Damascus and Beirut, *Mediating the Uprising* shows how gender and marriage metaphors inform Syrian television drama with various forms of cultural and political critique. The emergence of these suppressed narratives attests to the survival of the genre despite instability, war and bloodshed

The Oxford Handbook of the Sociology of the Middle East Armando Salvatore, Sâri Hanaifi, Kieko Obuse, 2022 The Oxford Handbook of the Sociology of the Middle East integrates the study of the social dynamics in the Middle East within history, culture and politics. The volume transcends a purely regional perspective to investigate the global nature of these dynamics and their impact on the life of people in the region. It provides a comprehensive perspective in connecting the vexed state-society relations in the region with movements of transformation and the affirmation of rights and creativity in the public arenas

Routledge Handbook of Minorities in the Middle East Paul S. Rowe, 2018-09-20 The Routledge Handbook of Minorities in the Middle East gathers a diverse team of international scholars, each of whom provides unique expertise into the status and prospects of minority populations in the region. The dramatic events of the past decade, from the Arab Spring protests to the rise of the Islamic state, have brought the status of these populations onto centre stage. The overturn of various long-term autocratic governments in states such as Tunisia, Egypt, Libya and Yemen, and the ongoing threat to government stability in Syria, Iraq and Lebanon, have all contributed to a new assertion of majoritarian politics amid demands for democratization and regime change. In the midst of the dramatic changes and latent armed conflict, minority populations have been targeted, marginalized and victimized. Calls for social and

political change have led many to contemplate the ways in which citizenship and governance may be changed to accommodate minorities or indeed if such change is possible At a time when the survival of minority populations and the utility of the label minority has been challenged this handbook answers the following set of research questions What are the unique challenges of minority populations in the Middle East How do minority populations integrate into their host societies both as a function of their own internal choices and as a response to majoritarian consensus on their status Finally given their inherent challenges and the vast sweeping changes that have taken place in the region over the past decade what is the future of these minority populations What impact have minority populations had on their societies and to what extent will they remain prominent actors in their respective settings This handbook presents leading edge research on a wide variety of religious ethnic and other minority populations By reclaiming the notion of minorities in Middle Eastern settings we seek to highlight the agency of minority communities in defining their past present and future In Search of Greater Syria

Christopher Solomon, 2021-09-23 The Syrian Social Nationalist Party SSNP is one of the most enigmatic and active political forces in the Middle East For observers in the West the SSNP is regarded as a far right organization subservient to the Baathist government of Syrian President Bashar al Assad which dictates its activities from Damascus However the SSNP s complicated history and its ideology of Pan Syrianism has meant the party has been overlooked and forgotten by the daily output of news analysis studies and policy recommendations Very little academic scholarship has been dedicated to understanding its origins identity and influence Addressing the need for scholarship on the SSNP this book is a political history from the party s foundation in 1932 to today A comprehensive and objective study on the little known nationalist group the author uses interviews from current members to gain insights into its everyday activities goals social interstices and nuances Given the SSNP s history of violence their own persecution influence on other secular parties in the region and their impact in Syria and Lebanon s politics the book s analysis sheds light on the party s status in Lebanon and its potential role in a future post war Syria The SSNP is gaining popularity among regime supporters in Syria and will be one part of understanding the political developments on the ground This book is essential reading for those wanting to understand the SSNP its motives and prospects Conflict on Mount Lebanon

Makram Rabah, 2020-08-18 The Druze and the Maronites arguably the two founding communities of modern Lebanon have the reputation of being primordial enemies Makram Rabah attempts to gauge the impact of collective memory on determining the course and the nature of the conflict between these communities in Mount Lebanon He takes as his focus the War of the Mountain in 1982 reconstructing the events of this war through the framework of collective remembrance and oral history He challenges the idea that these group identities were constructed by their respective centres of power within the Maronite and Druze community providing an alternative to the prevailing meta narrative Telling the stories of the many people who took part in these events or who simply suffered as a consequence helps to expose the intrinsic motives which led to this conflict and makes a valuable contribution to the field of

Lebanese historical scholarship **Precarious Imaginaries of Beirut** Judith Naeff, 2017-12-01 This book investigates a shared experience of time and space in the post civil war city of Beirut the suspended now Based on the close analysis of a large corpus of cultural objects including visual art literature architecture and cinema the book argues that last decades have witnessed a gradual shift in understanding this temporality from being a transitional phase to a more durable experience of precariousness The theoretically rich analyses take us on a journey through Beirut's real and imagined geographies from garbage dumps to real estate advertisements and from subterranean spaces to martyr's posters For scholars of cultural analysis urban studies cultural geography and critical theory the case of post 1990 Beirut offers a fascinating case of neoliberal urban renewal which challenges existing theories For scholars of Lebanon and Beirut this study complements existing work on post civil war Lebanese cultural production rooted in trauma studies by its focus on the city's continual exposure to violence

The Insecure City Kristin V. Monroe, 2016-03-15 Fifteen years after the end of a protracted civil and regional war Beirut broke out in violence once again forcing residents to contend with many forms of insecurity amid an often violent political and economic landscape Providing a picture of what ordinary life is like for urban dwellers surviving sectarian violence The Insecure City captures the day to day experiences of citizens of Beirut moving through a war torn landscape While living in Beirut Kristin Monroe conducted interviews with a diverse group of residents of the city She found that when people spoke about getting around in Beirut they were also expressing larger concerns about social political and economic life It was not only violence that threatened Beirut's ordinary residents but also class dynamics that made life even more precarious For instance the installation of checkpoints and the rerouting of traffic set up for the security of the elite forced the less fortunate to alter their lives in ways that made them more at risk Similarly the ability to pass through security blockades often had to do with an individual's visible markers of class such as clothing hairstyle and type of car Monroe examines how understandings and practices of spatial mobility in the city reflect social differences and how such experiences led residents to be bitterly critical of their government In The Insecure City Monroe takes urban anthropology in a new and meaningful direction discussing traffic in the Middle East to show that when people move through Beirut they are experiencing the intersection of citizen and state of the more and less privileged and in general the city's politically polarized geography
