War In Darfur And The Search For Peace Studies In Global Equity:

War in Darfur and the Search for Peace Alexander De Waal, 2007 This series of essays provides in depth analysis of the origins and dimensions of the conflict in Darfur including detailed accounts of the evolution of ethnic and religious identities the breakdown of local administration the emergence of Arab militia and resistance movements and regional dimensions to the conflict **The Darfur Conflict** Osman Suliman, 2011-01-05 Although it is often simplified as an ethnic conflict in popular media the current crisis in Darfur can only be superficially defined across ethnic lines This project diverges from previous studies by addressing how the underlying social and environmental influences such as changing resource dynamics expanding poverty lack of infrastructure and political corruption have brought the crisis to a head Analyzing the interplay of these factors will yield valuable insights as to how a concerned international community can both end the tragic genocide and address the underlying injustices that engendered it *Intervention and Sovereignty in Africa* Irit Back, 2015-10-19 In response to the civil war in Darfur the African Mission in Sudan AMIS force was established in May 2004 and by June its first contingents were on the ground For the first time since the founding of the African Union a resolution about direct intervention in a conflict that involved wide ranging abuse of human rights was accepted on a pan continental level Here Irit Back looks at the changes in attitudes towards the ever problematic tension between the concepts of humanitarian intervention and state sovereignty using the example of the African Union s intervention in Darfur to illustrate this unique pan continental approach to conflict resolution and peace keeping Additionally Back analyses the challenges which international task forces including AMIS and its successor the United Nations African Union Mission in Darfur UNAMID have faced ever since Including an examination of the situation in the wake of the declaration of independence of South Sudan in 2011 this book offers a unique perspective on the problem of internationally organised intervention in local conflicts **Violent Conflict and Peacebuilding** Johan Brosché, Daniel Rothbart, 2013 This book examines the sources of the genocidal violence in Darfur and addresses the peace initiatives undertaken to resolve this conflict using a conflict complementarity framework **Global Security Watch—Sudan** Richard A. Lobban Jr., 2010-09-02 This book provides an overview of contemporary issues in Sudan Africa s largest nation examining the country s history and current scene to help readers develop a deeper understanding of how much Sudan matters in today s world With deep connections to the Sahel and savanna to the west the African world to the south the Horn of Africa to the east and the Middle East to the north Sudan is important strategically legally geopolitically and militarily but too often overlooked or underestimated Sudan the country of residence of Osama bin Laden for six years has played and will continue to play a significant role in worldwide security matters An analysis of the causes resolutions and implications of the ongoing Sudanese conflicts including the genocide in Darfur this book is essential reading for policymakers researchers and students alike This book considers Sudan s historical foundations examining how the agendas of countries to the south east and north have

influenced Sudan's people and government. The author also explains the origins and context of the Darfur conflict, laying out possible steps toward a resolution. Questions concerning Sudanese oil: where is it, how much is there, to whom does it belong? help focus any discussion of Sudan's emerging importance in the contemporary world. Other issues such as the influence of Islamism or the Sudanese activities of the Arab League, China, or the African Union underline the uncertainties that confront the people of Sudan today.

Sudan's Unfinished Democracy Willow Berridge, Alex de Waal, Justin Lynch, 2022-08-01. This book tells the story of the Sudanese revolution of 2019, of how it succeeded in bringing down the long-standing rule of President Omar al Bashir and of the troubled transitional civilian-led government that was installed in his place. It sets the scrupulously non-violent uprising in its historical context, showing how the protesters drew upon the precedents of earlier civic revolutions and adapted their practices to the challenges of the al Bashir regime. The book also explores how that regime was brought to its knees through its inability to manage the intersecting economic and political crises caused by the secession of South Sudan and the loss of oil revenue alongside the uncontrolled expansion of a sprawling security apparatus. The civilian protesters called for and expected a total transformation of Sudanese politics, but they found themselves grappling with a still dominant cabal of generals who had powerful regional backers and a strong hold over the economy. Internally divided and faced with a deepening economic crisis, the civilian government led by Prime Minister Abdalla Hamdok has found itself in office but with less and less real power, unable to change the conduct of political business as usual.

The Oxford Handbook of the Responsibility to Protect Alex Bellamy, Tim Dunne, 2016-06-23. The Responsibility to Protect (R2P) is intended to provide an effective framework for responding to crimes of genocide, ethnic cleansing, war crimes, and crimes against humanity. It is a response to the many conscious, shocking cases where atrocities on the worst scale have occurred, even during the post-1945 period when the United Nations was built to save us all from the scourge of genocide. The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities. R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights. This Handbook, containing contributions from leading theorists and practitioners, including former foreign ministers and special advisors, examines the progress that has been made in the last 10 years; it also looks forward to likely developments in the next decade.

Revisiting the "Ripeness" Debate Tetsuro Iji, Siniša Vuković, 2022-08-22. This book takes stock of the accumulated body of literature on ripeness theory, inspired by the seminal work of I. William Zartman. The book posits the continued relevance of the ripeness theory well into the 21st century and sheds new light on the potential for further development. The timing of efforts for resolution, either negotiation or mediation, is always a central concern for policy makers and scholars alike in the field of international conflict resolution. The work of I. William Zartman on ripeness was a groundbreaker in the long-standing inquiry into this key question, and over more than three decades the notion of a ripe moment and its adjuncts, such as a mutually hurting stalemate and a mutually enticing

opportunity has not only served as an essential policy guidance but also inspired wide ranging research programs The chapters in this edited volume feature studies intended to advance ripeness theory conceptually test it empirically through case studies for possible implications to the theory itself or examine relations with related concepts and theories This volume is divided into two parts The Foreword and the chapters included in Part I were originally published as a special issue of the journal Ethnopolitics Part II features first and foremost Zartman s own seminal article published in the inaugural issue of the same journal It also includes other recently published articles in journals such as Security Studies Civil Wars and Studies in Conflict Terrorism that are considered to have made important contributions to the debate on the subject

Reluctant Interveners Eyal Mayroz,2020 Why do we allow our governments to get away with bystanding to genocide Focusing on the relationships between citizens political elites and U S institutions in the most powerful nation in the world Reluctant Interveners offers a sobering account of the interplays between values and interests words and deeds which transformed the pledge of never again to a recurring reality of ever again

New Actors and Alliances in Development Lisa Ann Richey,Stefano Ponte,2016-03-17 This collection brings together an interdisciplinary group of scholars exploring how development financing and interventions are being shaped by a wider and more complex platform of actors than usually considered in the existing literature The contributors also trace a changing set of key relations and alliances in development those between business and consumers NGOs and celebrities philanthropic organizations and the state diaspora groups and transnational advocacy networks ruling elites and productive capitalists and between new donors and developing country governments Despite the diversity of these actors and alliances several commonalities arise they are often based on hybrid transnationalism and diffuse notions of development responsibility rather than being new per se they are newly being studied as engaging in practices that are now coming to be understood as development and they are limited in their ability to act as agents of development by their lack of accountability or pro poor commitment The articles in this collection point to images and representations as increasingly important in development branding and suggest fruitful new ground for critical development studies This book was originally published as a special issue of Third World Quarterly
