War Or Peace 1 The Long Failure Of Western Arms Volume 1:

War Or Peace? Alan Storkey, 2015-06-09 Wars have a cause a main cause We tend to think state against state confrontation but across all nations the arms companies have sold and promoted industrial weapons for a hundred and fifty years encouraging these confrontations They need wars to flourish and usually they get them War or Peace tells the story of how Western arms companies have militarized the world by selling and promoting arms The evidence piles up Russia Japan Turkey the Congo Paraguay Afghanistan first the arms come in and then the war arrives It especially shows how these companies generated the two World Wars The arms companies engineered four arms races which sparked and fuelled World War One This was the normal understanding after World War One Weapons supplied by the merchants of death lead inevitably to wars After 1918 the threatened arms companies faced world wide disarmament especially in the Great 1932 Disarmament Conference They were not going to be defeated They destroyed disarmament politically and promoted and funded Fascism to create the disorder they needed for another war the Second World War Two World Wars Same Cause selling arms and faith in them The world wide problem was not appeasement but the promotion of weapons and militarism This book unfolds this ignored history largely buried since 1939 The promotion of arms has dominated world history and caused most of two hundred million deaths but its role remains hidden Here it is exposed making the choice between War or Peace a real one for us now Jacques Ellul on Violence, Resistance, and War Jeffrey M. Shaw, Timothy J. Demy, 2016-04-12 The last few decades seem to have ushered in new levels of violence challenging the notion that our globalized interconnected world offers increased prospects for cooperation and peace Many philosophers and theologians have offered various reasons for why this might be so but none has come so close as the French philosopher Jacques Ellul to providing a comprehensive explanation for many of the pitfalls inherent in increasing levels of technological advance The chapters in this book explore the phenomena of violence terrorism and war through the lens of Ellul s thought Readers unfamiliar with Ellul will find as much to consider in these chapters as those who have studied Ellul extensively and for both the novice and the expert this book offers an opportunity to both evaluate and reevaluate Ellul s extensive thought on matters of importance to contemporary society

A Failed Empire Vladislav M. Zubok, 2009-02-01 In this widely praised book Vladislav Zubok argues that Western interpretations of the Cold War have erred by exaggerating either the Kremlin s pragmatism or its aggressiveness Explaining the interests aspirations illusions fears and misperceptions of the Kremlin leaders and Soviet elites Zubok offers a Soviet perspective on the greatest standoff of the twentieth century Using recently declassified Politburo records ciphered telegrams diaries and taped conversations among other sources Zubok offers the first work in English to cover the entire Cold War from the Soviet side A Failed Empire provides a history quite different from those

written by the Western victors In a new preface for this edition the author adds to our understanding of today s events in Russia including who the new players are and how their policies will affect the state of the world in the twenty first century
