War Journalism Moguls Whistleblowers Freedom:

The War on Journalism Andrew Fowler, 2015-08-03 Racked by public distrust cowed by government surveillance and powerful corporations the mainstream media is in crisis Newspapers which flourished for centuries and TV networks that once ruled the world are failing Andrew Fowler's *The War on Journalism* tells how the media helped write its own epitaph Drawing on personal interviews and his background in investigative journalism Fowler traces the decline of the culture of truthbringing It's a tale of sackings cutbacks and self censoring editors deals threats and government standover tactics Alongside tabloids like the News of the World notorious for phone hacking giants like the BBC Australia's ABC The Washington Post and The New York Times The Guardian and Le Monde come under fire When first WikiLeaks and then Edward Snowden blew the whistle they did more than reveal explosive secrets they undermined establishment or insider media where governments leaked information to favoured reporters in return for sympathetic coverage Along with lawyer turned gonzo journalist Glenn Greenwald these outsiders challenged everyone from The Guardian on the left to Rupert Murdoch's global media empire on the right The establishment fought back with draconian laws to silence the new journalism From the UK to the US to Australia governments harass journalists threatening to jail both whistleblowers and those who publish their leaks Staying one move ahead of post 9 11 intelligence agencies is fraught Every cell phone is a mobile tracking device The public's right to know is a battleground At stake are the kind of journalism that survives and the kind of world in which we will live democratic or dominated by executive government unchallenged and unaccountable spying on its own citizens and producing fraudulent arguments to fight horrific wars The internet which promised people easy access to information and each other is now being used to produce a dark future This is a defining moment not just for journalism but for us all

The War on Journalism Andrew John Fowler, 2017 *The War on Journalism* is a harrowing story of megalomaniac press barons conspiracies sackings cutbacks and self censoring journalists cowed by what legendary investigative reporter Seymour Hersh called chicken shit editors When first Chelsea Manning and then Edward Snowden blew the whistle they did more than reveal extraordinary secrets they struck the first solid blows against centuries old traditions where journalism was played by agreed rules Governments leaked secret information to their favorite journalists in

return for sympathetic coverage Now racked by public distrust the cash starved mainstream media is struggling to survive Newspapers which flourished for hundreds of years and TV networks that once ruled the world are in serious decline Andrew Fowler gives the inside story on how and why the media helped write its own epitaph

Hideout In the Apocalypse John Stapleton,2016-11-10 Hideout in the Apocalypse is about surveillance and the crushing of Australia s larrikin culture In the last three years the Australian government has prosecuted the greatest assault on freedom of speech in the nation s history The government knew from international research that when it introduced the panopticon universal surveillance into Australia it would have a devastating impact on the culture When people know they are being watched they behave differently Dissent is stifled conformity becomes the norm This is the so called chilling effect Hideout in the Apocalypse in the great tradition of The Lucky Country takes Australia s temperature half a century on from Donald Horne s classic cautionary tale Now the future has arrived Forced by a plethora of new laws targeting journalists to use novelistic techniques in his latest book veteran news reporter John Stapleton confirms the old adage truth is stranger than fiction Hideout in the Apocalypse takes up the adventures of retired news reporter Old Alex first encountered in the book s predecessor Terror in Australia Workers Paradise Lost But as befits the times this book is more fantastical intimate and politically acerbic in its portrait of his beloved country Alex believes he has been under abusive levels of government surveillance since writing a book called Terror in Australia and as a natural empath can hear the thoughts of the surveillance teams on his track the so called Watchers on the Watch Alex also believes he is a cluster soul sent with others of his kind to help save the Earth from an impending apocalypse and has the capacity to channel some of history s greatest writers Australia might have the worst anti freedom of speech laws in the Western world but how can you sue a character like that Stapleton s essential theme a place which should have been safe from an impending apocalypse the quagmire of religious wars enveloping the Middle East is not safe at all Ideas are contagious and the Australian government is afraid of them Australia is a democracy in name only The war on terror has become a war on the people s right to know justifying a massive expansion of state power Alex s swirling head lifelong fascination with sociology literature and journalism and his deep distress over the fate of the Great Southern Land makes him the perfect character to tell a story which urgently needs to be told

A Century of Repression Ralph Engelman,Carey Shenkman,2022-10-04 A Century of Repression offers an unprecedented and panoramic history of the use of the Espionage Act of 1917 as the most important yet least understood law threatening freedom of the press in modern American history It details government use of the Act to control information about U S military and foreign policy during the two World Wars the Cold War and the War on Terror The Act has provided cover for the settling of political scores illegal break ins and prosecutorial misconduct
