Underground Blake Atwood, 2021-09-28 How Iranians forged a vibrant informal video distribution infrastructure when their government banned all home video technology in 1983 In 1983 the Iranian government banned the personal use of home video technology In Underground Blake Atwood recounts how in response to the ban technology enthusiasts cinephiles entrepreneurs and everyday citizens forged an illegal but complex underground system for video distribution Atwood draws on archival sources including trade publications newspapers memoirs films and laws but at the heart of the book lies a corpus of oral history interviews conducted with participants in the underground He argues that videocassettes helped to institutionalize the broader underground within the Islamic Republic As Atwood shows the videocassette underground reveals a great deal about how people construct vibrant cultures beneath repressive institutions It was not just that Iranians gained access to banned movies but rather that they established routes acquired technical knowledge broke the law and created rituals by passing and trading plastic videocassettes As material objects the videocassettes were a means of negotiating the power of the state and the agency of its citizens By the time the Ministry of Culture and Islamic Guidance lifted the ban in 1994 millions of videocassettes were circulating efficiently and widely throughout the country The very presence of a video underground signaled the failure of state policy to regulate media Embedded in the informal infrastructure even in the videocassettes themselves was the triumph of everyday people over the state

Red Lines Cherian George, Sonny Liew, 2021-09-21 A lively graphic narrative reports on censorship of political cartoons around the world featuring interviews with censored cartoonists from Pittsburgh to Beijing Why do the powerful feel so threatened by political cartoons Cartoons don't tell secrets or move markets Yet as Cherian George and Sonny Liew show us in Red Lines cartoonists have been harassed trolled sued fired jailed attacked and assassinated for their insolence The robustness of political cartooning one of the most elemental forms of political speech says something about the health of democracy In a lively graphic narrative illustrated by Liew himself a prize winning cartoonist Red Lines crisscrosses the globe to feel the pulse of a vocation under attack A Syrian cartoonist insults the president and has his hands broken by goons An Indian cartoonist stands up to misogyny and receives rape threats An Israeli artist finds his antiracist works censored by social media algorithms And the New York Times caught in the crossfire of the culture wars decides to stop publishing editorial cartoons completely Red Lines studies thin skinned tyrants the invisible hand of market censorship and demands in the name of social justice to rein in the right to offend It includes interviews with more than sixty cartoonists and insights from art historians legal scholars and political scientists all presented in graphic

form This engaging account makes it clear that cartoon censorship doesn't just matter to cartoonists and their fans When the red lines are misapplied all citizens are potential victims
